## Military, Space and Testing Equipment

  
**EMERSON**  
Network Power

**Trompeter**  
Connectivity Solutions

**Emerson Network Power Connectivity Solutions** has a wide range of cable assemblies and connectors suited for RF, Microwave and Fiber Optic signal transmission. Connectivity Solutions is a vertically integrated supplier of custom, fixed length and semi-rigid cable assemblies from DC to 50 GHz. Our product lines deliver custom-engineered products and solutions to satisfy the most demanding and complex requirements.

### AIM-Cambridge Connectivity Solutions

Aim-Cambridge has a universal line of products that offer cost effective, high quality solutions for connectivity. Our connectors are available in BNC, Type N, F Type, RCA, UHF, Mini-UHF, TNC, D-Sub and Modular Plugs for Data/Telecom applications. In addition, we stock a wide variety of cables for A/V, SATV, CATV, computer and LAN applications, as well as a complete line of termination tools and structured cabling products. AIM-Cambridge promises that its product will provide you with unmatched consistency, quality, reliability and ease of use.

### Johnson Connectivity Solutions

Johnson designs and manufactures an industry leading line of RF coaxial connectors and adapters, which are available in both 50 and 75 ohm versions. Johnson connectors are designed to provide the highest quality data transmission for audio, video and data applications. The Johnson line of products can address frequency ranges from DC to 46GHz and all sizes from Ultra-miniature interfaces (UMC), Micro-miniature, (MCX, MMCX, SMP), Subminiature (SMA, SMB, SMK, kwiQMAt<sup>™</sup>), Medium connectors (Type N connectors) through to large connectors (DIN7/16). The breadth of products available within the Johnson range includes board and cable mount connectors as well as semi-rigid, conformable, and flexible RF coaxial cables.

### Midwest Microwave Connectivity Solutions

Midwest Microwave manufactures passive coaxial microwave components that are known for their precision performance and high quality that meets the precise requirements of the RF/Microwave industry. Our broad product portfolio includes: Attenuators, Precision Adapters, Terminations, DC Blocks, Power Dividers, Couplers, Equalizers, Phase Shifters, Connectors, Custom Cable Assemblies and Test Cables that are designed and manufactured for both military and commercial applications.

Midwest also offers a wide variety of Qualified Product List (QPL) approved products in the M3933, M39030 and M39012 series, as well as many DESC/DSCC approved models.

### Semflex Connectivity Solutions

Semflex designs and manufactures low loss, flexible, microwave coaxial cable and custom cable assemblies for the military/aerospace, commercial OEM and test instrumentation markets. Semflex offers cables ranging from DC to 50 GHz, available with ultra low insertion loss, power ratings up to 21 KW, and available with all popular connectors.

### Stratos Connectivity Solutions

Stratos optical connectivity products is globally recognized as highly reliable, cost-effective, and provides optical connectivity solutions that are virtually immune to dust, mud, oil, water, and other contaminants.

Our expanded beam connectivity products are ideal for harsh environment applications in the broadcast, industrial, petrochemical and military/aerospace markets where high reliability, low maintenance and quick serviceability are critical requirements. Our optical active products are used mainly in military, aerospace and industrial markets where high speed/high reliable performance is mission critical. The actives product line includes optical transceivers, optical media converters and custom devices tailored to your application.

### Trompeter Connectivity Solutions

Trompeter is recognized as a global leader in delivering best in class RF connectivity products. The Trompeter line of patch jacks, RF connectors, cable assemblies, HDTV digital technology and DS3 connectivity solutions is unrivalled. Our mission is to provide products that continually deliver the highest quality signal integrity for the most demanding applications in Telecom, Central Office, Broadcast, Military Aerospace, and Instrumentation markets worldwide. Our extensive line of cost-effective products are rigorously designed and tested to provide the critically engineered solutions necessary to enhance the end-user's overall experience.

### Vitelec Connectivity Solutions

Vitelec provides a comprehensive range of RF coaxial interconnect products and cable assemblies. The company has a long established reputation for offering quality and innovation with a wide range of both standard and custom designed products for the electronic and communication industries.

## TWINAX/TRIAX CONNECTORS

Mil-Std-1553B Data Bus General Specifications Guide

### 70/370 SERIES

MIL-C-49142 QPL'd Connectors  
 TRB/TRT Miniature Plugs & Jacks  
 TRB/TRT Miniature Bulkhead Jacks  
 Miniature Circuit Board Jacks  
 TRB Series Pad, Paralleling Jacks, & T Adapter  
 Twinax/Triax Terminations & RFI Caps  
 Miniature Twinax/Triax Patching  
 Miniature Twinax/Triax Normal-Thru Patch Jacks  
 Subminiature Twinax/Triax Patching  
 Standard & Subminiature Twinax/Triax Looping Plugs  
 Hermetically Sealed Connectors  
 Mating Twinax Size 8 Contacts

### 150/3150 SERIES

TRS/TTM Subminiature Jacks and Plugs  
 TRS/TTM Subminiature Bulkhead Jacks  
 Subminiature Bulkhead Jacks, Adapters, & Push-on

### 450 SERIES

Concentric Twinax Connectors

### 80/380 SERIES

TRC/TRN Standard Twinax/Triax Threaded

### 30/330 SERIES

TWBNC/TWTNC, Two-pin Polarized Connectors

## COAX CONNECTORS

### 20/220 SERIES

Miniature Coax BNC Plugs & Jacks  
 Miniature Coax BNC Bulkhead Jacks  
 Coax Circuit Board Jacks

### 250 SERIES

Mini-BNC Coax Plugs & Jacks

### 40/240 SERIES

TNC Miniature Coax Threaded  
 TNC Bulkhead Jacks, Miniature Coax Threaded

### 120 SERIES

BNC/TNC Miniature Push-on Jacks & Plugs

### 1.0/2.3 DIN CONNECTORS

### 1.6/5.6 DIN CONNECTORS

Miniature Coax DIN Connectors  
 Coaxial Ground Filter Bulkhead Jacks

### TYPE N CONNECTORS

# Twinax/Triax Connectors / Specifications

Trompeter offers a broad line of connectors manufactured to meet or exceed the Mil-Specs governing twinax connectors. In fact, Mil-PRF-49142 was created from the Trompeter concentric twinax/triax connector design.

The following information reflects the specification requirements for each family of connectors in both twinax and triax applications. Use this chart to determine the proper connector type to be used in your application, based on the environment and electrical requirements of your design. Trompeter's technical support team is available to answer any specification questions you may have.

MIL-Spec Triax Series	Trompeter Connector Series	Bayonet Typical Lug Count	Available Threaded	Gender	Equivalent Coax Series
TRB	70	3	Yes	Normal	BNC
TRC	80	2	Yes	Reverse	N
TRS	150	3	Yes	Normal	M-BNC
1553	450	3	Yes	Either	n/a

The following is the latest list from the MIL-STD-1553B supply:

### Trompeter Number:

PL75-47  
 PL375C-201  
 PL75C-201  
 PL155AC-201  
 PL3155AC-201  
 PL155AC-201  
 PL155AC-201  
 PL3455ACS-201  
 PL455ACP-201

## MIL-STD-1553B Data Bus General Specifications Guide

Characteristic Requirements	70 Series TRB/TRT	80 Series TRC/TRN	150 Series TRS/TTM	450 Series TCS
Nominal Impedance	Non-constant	Non-constant	Non-constant	Non-constant
Frequency Range	0-500 MHz	0-500 MHz	0-500 MHz	0-2 MHz
Voltage Rating (max.) @ sea level	400 VRMS	500 VRMS	400 VRMS	900 VRMS
Voltage Rating (max.) @ 70,000 ft.	100 VRMS	125 VRMS	100 VRMS	N/A
Insulation Resistance	5000 MΩ	5000 MΩ	5000 MΩ	5000 MΩ
Dielectric Withstanding Voltage (between center cond. & inter. cond.)	1200 VRMS	1500 VRMS	1200 VRMS	900 VAC
Dielectric Withstanding Voltage (between inter. cond. & outer cond.)	500 VRMS	500 VRMS	500 VRMS	900 VAC
RF High Potential Withstanding Voltage (between center cond. & inter. cond.)	800 VRMS	1000 VRMS	500 VRMS	900 VAC @ 60 Hz
RF High Potential Withstanding Voltage (between inter. & outer cond.)	200 VRMS @ 5-7.5 MHz	350 VRMS @ 5-7.5 MHz	125 VRMS	N/A

Specifications continued on page 3...

\* Specifications are minimum unless otherwise stated. Trompeter connectors are designed to exceed all minimum specifications.

## MIL-STD-1553B Data Bus General Specifications Guide (cont'd)

Characteristic Requirements	70 Series TRB/TRT	80 Series TRC/TRN	150 Series TRS/TTM	450 Series TCS
Corona Level (min.)	200 VRMS @ 70,000 ft.	375 VRMS @ 70,000 ft.	125 VRMS @ 70,000 ft.	250 VAC @ 50,000 ft.
Rise Time Degradation (max.)	400 rs	N/A	800 ps	800 ps
Permeability of Nonmagnetic Material	<2.0 mu except hermetic versions			
Hermetic Seal (Where Applicable)	<1 x 10 <sup>-8</sup> cc/sec	N/A	<1 x 10 <sup>-6</sup> cc/sec	N/A
Connector Durability	500 cycles minimum @ 12 cycles per minute max.			
Temperature Range	-65° to +165°C	-65° to +165°C	-65° to +200°C	-65° to 125°C
Force to Engage and Disengage Longitudinal (max.) Torque (max.)	4 pounds 2.5 inch-pounds	5 pounds 4 inch-pounds	4 pounds 2.5 inch-pounds	3 pounds 2.5 inch-pounds
Center Contact Retention Axial Force (min.) Plug Jack	6 pounds 6 pounds	6 pounds 6 pounds	4 pounds 2 pounds	6 pounds 6 pounds
Coupling Proof Torque (Threaded types only)	15 inch-pounds	15 inch-pounds	10 inch-pounds	N/A
Coupling Mechanism Retention Force (min.)	100 pounds	100 pounds	70 pounds	100 pounds
Cable Retention Force (min.)	40 pounds .200-.325 inch cable OD	65 pounds .242-.419 inch cable OD	40 pounds .120-.215 inch cable OD	40 pounds .120-.180 inch cable OD
Salt Spray (corrosion)	48 hrs minimum exposure (Standard nickel plating) 500 hrs minimum available (Call customer service for plating types). Standard for 450 Series.			
Moisture Resistance (10 cycles)	Total 240 hour minimum exposure			
Thermal Shock (5 cycles) (No physical damage/Pass DWV)	Total 5 hours 50 minutes min -65°C to +85°C			-65°C to +125°C
Specified Shock (sawtooth waveform, within peak - 50g's, duration -11ms)	No discontinuity allowed. Velocity-change of shock pulse 10% of ideal value			
Vibration, High-frequency (36 cycles) (15g peak, 10-2000 Hz-10Hz in 20 minutes)	Total 12 hour minimum. No physical damage or loosening of parts. No discontinuity allowed.			

\* Specifications are minimum unless otherwise stated. Trompeter connectors are designed to exceed all minimum specifications.

# Twinax/Triax Connectors

**Built to Last**

**Premium Quality**

**Superior Mechanical Performance**

**Rugged Physical Properties**

**Extreme Reliability**

Signals require protection from extraneous noise through non-signal carrying shielding. These interfacing connectors must provide contact surfaces isolated from each other, as well as from the outer shield. Trompeter twinaxial/triaxial connectors are designed with two (2) concentric contacts that are isolated from each other and the shielding connection.

## Features

- All metallic parts are machined/formed to extremely close tolerances
- All bodies are made of top quality brass with bright nickel-plated non-tarnish finish
- Fully enclosed, heat-treated, beryllium-copper outer conductor spring (not half hard slotted brass)
- Heat-treated, beryllium-copper center socket contact with 50 millionths inch gold plating

## 70 Series

*Miniature 2, 3, 4-lug, and Push-on (TRB)*

## 370 Series

*Miniature Threaded (TRT)*

(70 Series shown below)

These concentric twinax/triax connectors are ideal for applications where weight is not a primary concern. They are commonly used in digital data bus, video pair, MIL-STD-1553B (airborne/ground, primary/redundant), base-band circuit and any application for "noise-free guarded" circuits.

## Features

- Same size as BNC/TNC connectors. Large body versions are available to accommodate larger cables
- Field serviceable, wrench crimp versions for cables with up to .475" outer diameters
- Tool crimp versions for quick termination of cables with up to .250" outer diameters
- 3-lug, 4-lug, and threaded versions provide different levels of mechanical stability and keying
- Does not require mechanical alignment for mating.
- QPL to MIL-C-49142 (see list on page 5)
- Meets MIL-C-49142, 48-hour salt spray requirement
- Special plating available to satisfy MIL-STD-1344, 500-hour salt spray requirement
- Push-on versions for test cable applications
- Fewer pieces to assemble
- Hermetically sealed versions are available (page 16)

### MIL-C-49142 Qualified Products List

Trompeter has always been a leader in twinax connector design and development. This time we've designed a new connector style to meet the requirements of MIL-C-49142, Category G.

What is Category G? It is the section of the MIL-Spec that requires tool crimping of the TRB (70) series connectors. We are also qualified to category A which is for wrench crimp TRB connectors.

Below is a list of qualified Trompeter products from the Defence Electronic Supply Center (DESC). QPL parts must be ordered by the *MIL-Number*. Many of Trompeter's 70 Series concentric twinax connectors are QPL to MIL-C-49142. QPL versions are silver plated and can be ordered using the [Government Designation part numbers listed](#). Corresponding standard nickel plated connectors can be ordered using the standard part numbers.

# Twinax/Triax Connectors / RFI Caps & Terminations

## Twinax/Triax Terminators and RFI (Dust Caps)

Trompeter provides Terminations and RFI caps versions of many of our twinax/triax connectors. Resistors are normally 1/8 watt for subminiature connectors and 1/2 watt for miniature and standard size connectors, with 1% tolerances for all.

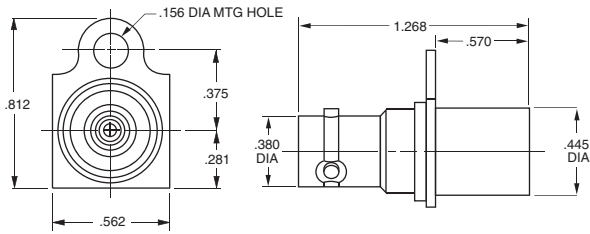

Parts to be capped	Description	Terminator	RFI (Dust Cap)
BJ30/CJ30 Series	TWBNC Jack	TNGT1-(3)-R	RFI25-(3)

19"x2.34"	10	4	40	JSISM-120

## J74 Series

Trompeter's superior J74 Series of twinax/triax patch jacks provide a normal-thru signal path without the use of looping plugs or patch cords. Same body size as our J24 Series coax dual patch jacks.

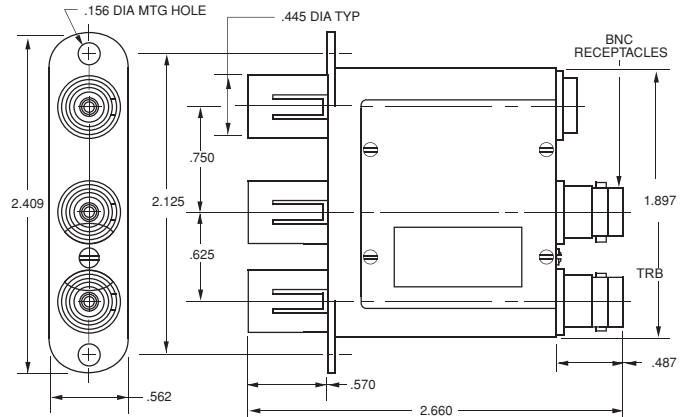

It offers a self-wiping, self-normalizing switch with gold plated beryllium copper contacts, which provides positive electrical contact with 30,000 minimum mating cycles.

All metallic parts are machined, formed, or die-casted to extremely close tolerances which provide better intermateability improving EMI/RFI suppression and reduced signal loss. The TRB/TRT patch jack bodies are made of top-quality brass with a bright nickel-plated, non-tarnish finish, which resists tarnishing and the associated reduction of conductivity. Dielectrics are made of machined PTFE for superior dielectric properties and heat resistance. When you want performance and long-life, these patch jacks are what you need.

### Monitor-Terminated Patch Jack

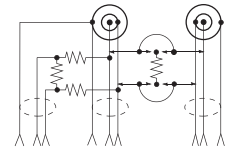

Use with Front Loading Modular Panels, see page 12.

J74MST-R

**J74MST-R SCHEMATIC**  
Monitor-Terminated

Plugging into the source side provides a resistive load to the monitored side. Separate 20 dB isolator jack and TRB input jacks for monitoring of the normal-thru signal.

### Normal-Thru Patch Jack

Self-terminating

J74T-R

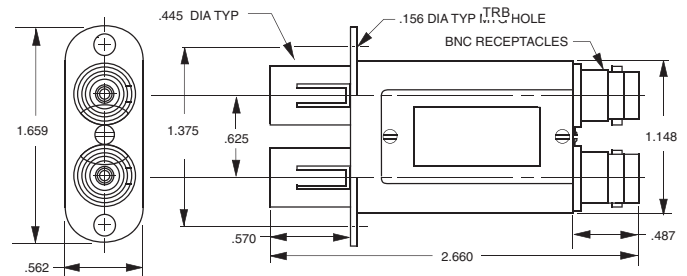

Provides a resistive load to the unused side of the jack. Insertion of a patch plug into the source side automatically terminates the load side. Plugging into the load side automatically terminates the source side.

### Dual Patch Jack

Normally-terminated

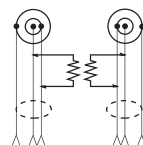

J74-2T-R

Provides a resistive load.

**J74T-R**  
Self-Terminating

Provides a resistive load to the unused side of the jack. Insertion of a patch plug into the source side automatically terminates the load side. Plugging into the load side automatically terminates the source side.

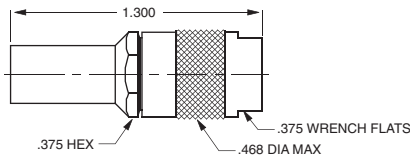

**J74-2T-R**  
Normally-Terminated

Provides a resistive load.

# Twinax/Triax Connectors / Hermetically Sealed Connectors

## Concentric Twinax/Triax

Hermetic seals prevent leakage through the bulkhead from inside of the connector. Trompeter's miniature size hermetically sealed connectors include the feed-through BJ78HS, the front mounted BJ77HS, the rear mounted BJ79HS and BJ379HS. In the subminiature size we offer the front mounted BJ157HS and BJ157FLHS (four lug version). The BJ3150HS and BJ3150SHS offer a threaded rear mount version with a safety wire option. These connectors have leakage rates of 1x10-8 atm cc/second. The 150 Series have leakage rates of 1x10-6 atm cc/second.

### Features

- Standard TRB/MIL-C-49142
- Glass to Metal Seals
- Sustains Extreme Temperature Ranges
- Stainless Steel or Nickel Plated Brass Body
- Gold Plated Contacts

### Benefits

- Mechanical and Environmentally Reliable Method
- Wide Range of Application Usage
- More Cost Effective than Stainless Steel
- Reliable Connections

### Hermetically Sealed Bulkhead Jack

Subminiature Twinax/Triax

Rear Mount (A=.500)..... BJ3150HS

Solder Pot Bulkhead (A=.562)..... BJ3150SHS

Mounting Hole: D4.200

These connectors meet MIL-C-49142 specifications. Standard non-hermetic connector types such as the BJ78 could leak between the contacts and dielectrics. Hermetically sealed connectors are designed for bulkhead mounting in vacuum chambers or where toxic and other gases are present. Hermetic connectors are highly beneficial in reactors, gas/petro plants, oil drilling sites, liquid test and measurement, commercial, military, industrial and space applications. They are reliable under the most severe atmospheric conditions.

### 150 Series Miniature 2, 3, 4-lug, & Push-on (TRS)

### 3150 Series Miniature Threaded (TTM)

150/3150 Series are concentric twinax/triax connectors for high density and weight reduction applications. They are commonly used in digital data bus, video pair, MIL-STD-1553B (primary/redundant), baseband circuit and in any application for "noise-free guarded" circuits. TRS/TTM push-on connectors are designed for blind mate rack and panel applications. The male plug mates with any TRS/TTM jack and are ideally suited for test cable applications.

### Features

- Same size as TPS/TCM connectors
- Solderable Wrench Crimp versions for cables with up to .215" outer diameter
- Tool Crimp versions for quick termination of cables with up to .250" outer diameter
- 3-lug, 4-lug, and threaded versions provide different levels of mechanical stability and keying
- Does not require mechanical alignment for mating
- Meets MIL-C-49142, 48-hour salt spray requirement
- Special plating available to satisfy MIL-STD-1344 500-hour salt spray requirement
- Push-on versions for test cable applications
- Fewer pieces to assemble
- Hermetically sealed versions available (see page 16)

### Mating Twinax Size 8 Contacts

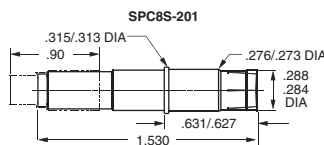

for Digital Data Bus Multi-pin Connectors

Socket.....	SPC8S-201
Pin.....	SPC8P-201

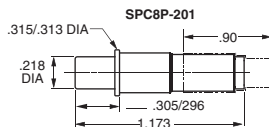

This pair of **scoop-proof** concentric contacts fits the Size 8 cavity of MIL-C-38999 series 1, 3, & 4 and MIL-STD-1760 "External Stores" type connectors.

### Features

- Fits MIL-C-17/176-00002 and other twinax/triax cables
- Heat treated **beryllium copper** spring members
- **Gold plated, Full Crimp** contacts

SPC8S-201 Shown

SPC8P-201 Shown

# Twinax/Triax Connectors / Subminiature Jacks & Plugs

150/3150 Series TRS/TTM

## Sub-miniature Jacks & Plugs

Sub-miniature concentric twinax/triax connectors increase packing density up to 246%. They are designed for high density applications where digital, video pair or baseband noise-free guarded circuits are required. The 3-lug, 4-lug, and threaded versions improve mechanical stability and provide "error-free" redundant data bus capabilities. The wrench crimp version accommodates cables with other jacket diameters up to .215" and the tool crimp versions up to .250".

## 450 Series Subminiature Twinax 3-lug & 4-lug

### 3450 Series Subminiature Twinax Threaded

Concentric connectors designed for MIL-STD-1553B airborne digital databus weight reduction applications.

#### Features

- 3-lug, 4-lug & threaded versions
- Field installation full crimp design. No soldering required
- Fully inspectable assembly process (no blind or questionable solder connections)
- Total of ten polarized & keyed combinations
- Three different keyings for 3-lug versions
- Two interchangeable pin & socket arrangements
- Fewer pieces to assemble
- Meets MIL-C-49142, 48-hour salt spray requirement
- Standard plating to satisfy MIL-STD-1344, 500-hour salt-spray requirement
- Weatherproof designs utilize sealing gaskets and heat shrink tubing
- Fits MIL-C-17/176-00002 & other twinax/triax cables
- Compatible with Raychem designs utilizing military crimp style connectors

## 80 Series Standard 2-lug & 3-lug (TRC)

### 380 Series Standard Threaded (TRN)

Used in digital data bus, video pair, MIL-STD-1553B (primary/redundant data bus), MIL-STD-1397 (shipboard data bus), baseband circuit and any application for noise-free guarded circuits.

#### Features

- Standard "C" sized concentric connectors
- Used with larger twinax/triax cables with outer diameters of .250"-.615"
- Does not require mechanical alignment for mating

## 30 Series Miniature 2-Pin Polarized, 2-lug (TWBNC)

Used in digital data bus, video pair, MIL-STD 1553B (airborne/ground primary/redundant), baseband circuit and any application for "noise-free guarded" circuits. They are not recommended for new designs. MIL-STD-1553B permits designer discretion for use of concentric designs in lieu of the two-pin connector.

#### Features

- Same size as BNC/TNC connectors
- Fully enclosed beryllium copper spring fingers
- Stepped Dielectric

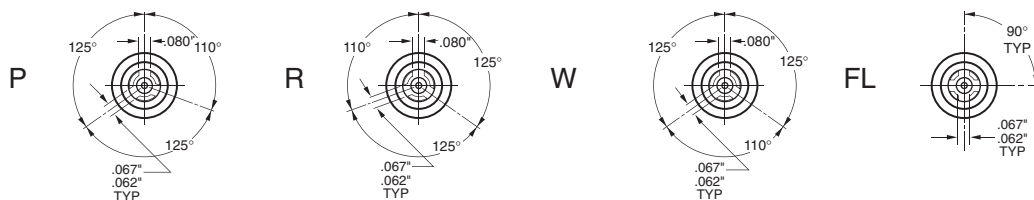

# Twinax/Triax Connectors / Concentric Twinax

## 450 Series

### Concentric Twinax 450 Series

#### 3-lug & 4-lug Keyings

The 450 Series was designed for airborne digital data bus applications utilizing the MIL-STD-1553B data bus. The 450 Series will fit most twinax cables. Connectors are available in five

different coupling configurations which include 3-lug versions with three (3) separate keyings, a 4-lug, and a threaded version with safety wire holes.

*Diagrams shown above are for plugs.

## 450 Series Intermediate Contact Assemblies

Pin/Socket . . . . PS450AC-△

Socket/Pin . . . . SP450AC-△

The 450 Series includes cable jacks and plugs with interchangeable contact assemblies. The contact and body assemblies may be ordered separately (see the facing page). Cable connectors accept cables with a maximum outer diameter of .180" and conductors to .025".

Contact customer service for exact specifications. For Trompetter connectors which meet outgassing requirements, contact our technical support staff for more information. Compatible with Raychem DK-621 Series. [Refer to page 22 for Keyings.](#)

Note: These connectors are still available, although we recommend using concentric (70 series) twinax for all new applications.

# Coax Connectors / BNC Coax Connector Introduction

## Trompeter's BNC Coax Tool Crimp Connector

19 reasons why our BNC connectors outperform the competition every time!

## BNC Coax Wrench Crimp Connector

### Wrench Crimp Features

- 3-piece construction
- Captive center contact pin in cone assembly
- Spring-loaded coupling ring using a beryllium-copper crescent washer
- Freely rotating captured insert inside the clamp-nut assembly
- Stepped captured insert inside the clamp-nut assembly
- 360° metal-to-metal, sandwich braid capture of the outer-braid-to-cone assembly. (No insulation between the clamping surfaces)
- Machined barb on the end of the cone assembly

## SureNotch™ BNC

The **UPL220 Series** and the **UPL250 Series** feature **SureNotch™**, Trompeter's innovative solution for incomplete connector mating. **SureNotch™** provides immediate and reliable visual confirmation of secure mating. The **UPL250 Series Mini-BNC Series** allow higher interconnect density, enabling 40% more interconnects in the same area, with all the positive characteristics of the full size BNC.

- Telco BNC
- SureNotch™ BNC provides visual indicator that every BNC is locked onto the mating jack
- Black spring water highlights the notch
- Standard feature on all Trompeter Telco 75 Ohm BNC's

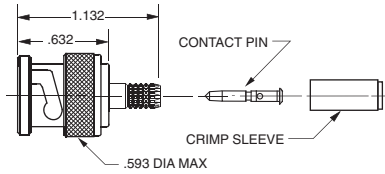

Hermetically Sealed Coax Connectors available, contact customer service.

# Coax Connectors / Miniature Coax 250 Series

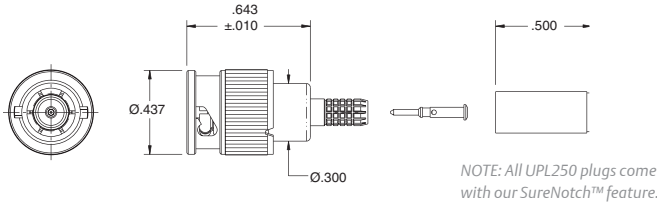

## Mini-BNC Plugs & Jacks

The mini-BNC 250 RF connector series from Trompeter was designed specifically for DS3 telco coaxial central office applications to allow higher interconnect density while preserving the positive characteristics of the Trompeter full size BNC. In fact, the 250 series provides for higher density of interconnects in a given area.

# Coax Connectors / 1023 Series

## 1.0/2.3 DIN Connectors – 75 Ω

Trompeter's DIN connector series, is manufactured to the DIN 47297 (75 Ω) interface specification. This range of Trompeter's DIN 1.0/2.3 connector are 45% smaller than the DIN 1.6/5.6 and is ideal for higher density patching requirements. With this space savings, significantly more ports can be placed in the same 1RU panels. The Trompeter 1.0/2.3 series includes cable plugs, cable jack and Type N to DIN adapters.

Trompeter's 1.0/2.3 series works with all of the most popular cables used in the video distribution and telecom central office environments and can rapidly be adapted to suit any coaxial cable developments.

This line of 1.0/2.3 connectors delivers the same superior quality performance of the industry leading Trompeter 220 Series BNC range. Employing the same tooling and termination as the 220 series BNCs ensures a minimal deployment cost and disruption for our customers.

Trompeter's 110 series connectors are 30% smaller than the standard BNC currently used for the Coax Central Office termination. With this space savings, 72 interconnects can be placed in the same 1 rack unit panels as 52 BNCs. The 110 series of connectors is available in the following: cable plug, cable jack,

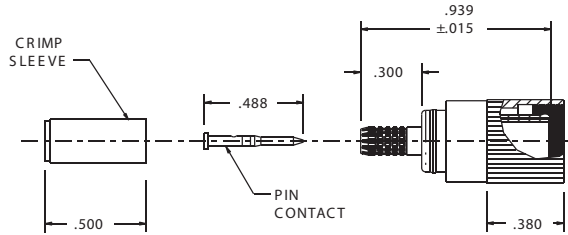

a U-Link for connecting two jacks, a right angle circuit board jack, and BNC to DIN adapters.

Trompeter's 110 series works with all the cables currently in use in the central office environment and like all Trompeter connectors, can be made to accommodate any coax cable changes.

Trompeter's 50Ω low VSWR (1.11:1) patching system has been developed for use at frequencies up to 3 GHz and at power levels up to 500 watts. J94 jack accepts a Type N male plug in back and the PL93 or PL94 in the front of the panels shown, or a custom panel of your own design. Patch plugs incorporate a push-fit design that snap into position in the jack and are available with, or without a bayonet locking feature. Normal jack spacing is 3" center-to-center. For a minimum bend radius when patching adjacent jacks, use Trompeter standard patch cords made with RG8 cable with a minimum length of 14". Otherwise the minimum length is 18". Panels loaded at no additional cost.

Trompeter's HDVDP and HDVDPM Patch Jacks are designed and engineered to exceed SMPTE 292M specifications for high definition video transmission and connectivity.

The normal-thru contact interface design of HDVDP/HDVDPM consists of a self-aligning normal-thru U-slot, two redundant points of contact, an independent applied normal force at each contact point, and a mechanical wipe region at each contact interface location. These design attributes provide reliable and repeatable patching/un-patching, resulting in low-level contact resistance stability.

**HDVDPT**

### HDVDP/HDVDPM Key Features

- Light weight design:
- HDVDPT (full size): 48.05 grams
- HDVDPMT (mini): 32.1 grams
- High-reliability normal-thru contact design
- Self-wiping normal thru contact design
- Streamlined design for repeatable manufacturability

**Full Size Patch-Jack**  
*75Ω Terminated & Non-Terminated*

**Mini Patch-Jack**  
*75Ω Terminated & Non-Terminated*

# Patching Products / High Frequency

## Video Patching

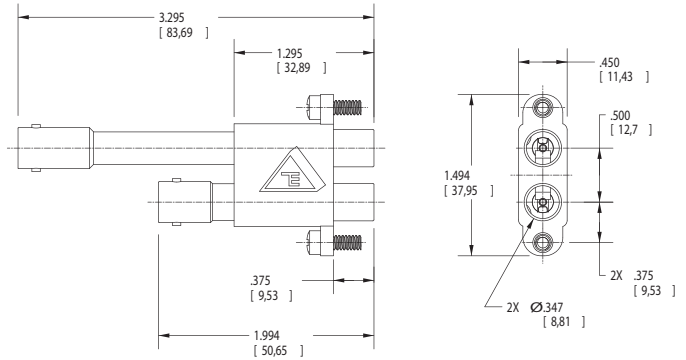

The HDVDPMN is superior quality, high bandwidth, dual video patch jack. This low profile, high performance component is designed for HDTV digital applications where space allocation is critical, such as in video truck application. It is ideal for situations where self-normalling is not practical, usually due to environmental considerations such as high ambient airborne particles or high vibration.

When used in conjunction with the LPMWHF looping plug, a "normal-thru" circuit is achieved, which will pass the full 1.485 Gbps of uncompressed data (2.25GHz of frequency) needed for HDTV, with return loss performance which exceeds SMPTE292M requirements. This high performance is maintained when patching from one location to another, using the PCMWB-L patch cord (call customer service).

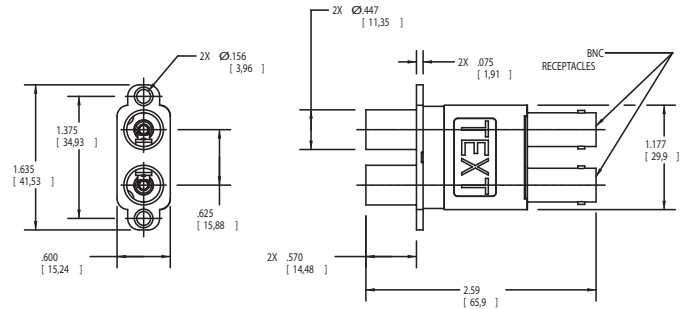

### HDTV Ready High Frequency 75 Ohm Dual Coaxial Mini-WECo Patch Jack with BNC Receptacles

HDVDPMN

### HDTV Ready High Frequency 75 Ohm Dual Coaxial WECo Patch Jack with BNC Receptacles

HDVDPN

Note: uses the LPW-75 to normalize the circuit

Patch Jacks J15, J24, J314, and HDVDP can be mounted vertically or horizontally on 5/8" centers. Mounting tabs are normally "back-to-back" (as shown below).

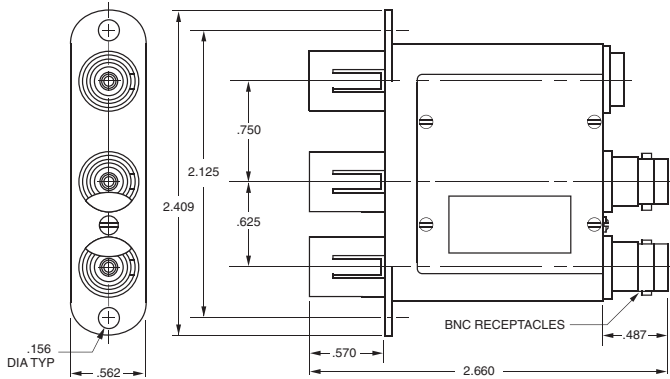

### Features

- J24 is a high frequency jack w/signals monitoring capabilities

## Trompeter Patch Products

Trompeter offers a wide selection of patching products for Military Databus, Telemetry, Telecom, Broadcast, CATV, and Testing. We offer these products for Twinax, Triax, and Coax cabling and in sizes to meet your space restrictions and environmental requirements.

### Standard 19" Panels In popular sizes and configurations

Available in insulated black phenolic, and insulated or non-insulated aluminum. Aluminum panels are painted standard gray and come with either a phenolic back bar (insulated type), or an iridited aluminum back bar (non-insulated type). Aluminum panels can be painted to suit, or color matched (special order). Phenolic panels are available in black only.

Panels available in heights of 1.75" (1 RU) or 3.5" (2 RU).

### Custom Panels & Marking

Custom panels can be configured to meet your specifications, including special wiring, colors, engraving, or silk-screening (custom marking). Patch jack locations can also be marked on the rear of the panel for easy location of jacks. Please contact your local representative.

### Hole Plugs For Jacks and Panels

Hole Plugs For:	Hole Diameter	Part Number
Miniature Patch Panel (J8)	.250"	HP250
Miniature Patch Jack (HDVDPM, J11)	.304"	HP304
Standard Patch Jack (HDVDP)	.375"	HP375
Standard Patch Panel (JS, JSI)	.437"	HP437
Standard Patch Panel	.500"	HP500

Front Loading Modular Panels are on page 12.

### Ordering Loaded Panels

Panels can be ordered pre-loaded with any compatible jacks *without* additional labor charge by using the following part number format (provided the mechanical restrictions are recognized).

#### Example:

**JSI-48A/HDVDP:** Standard 48-hole, Insulated Panel (JSI-48A), loaded with twenty four (24) Standard 75Ω Patch Jacks (HDVDPT)

#### Panel Part Number

JS: Aluminum (Gray)..... JS  
 JSI: Insulated (Gray)..... (I)  
 JSIB: Insulated (Black)..... (IB)  
 JSIX: Miniature Triax Insulated (Black)..... (IX)  
 JSMW: Miniature Coax Insulated (Black)..... (MW)  
**Jack Part Number..... JACK**

Miniature 75Ω Coax Patch Panels ... for high density, low VSWR, 75Ω coaxial applications (microwave, sub-carrier telephone systems, etc.). Trompeter's J12 jack/ PL11C plug combination has a VSWR of 1:04:1 in the 60-80 MHz range. Miniature 50Ω Coax Patch Panels... for high density 50Ω patching. 19" panels tapped .312-32-2A to accept J8 and J8D jacks. .50" center-to-center vertical and horizontal hole spacing (unless otherwise noted), insulated and non-insulated panels have stiffener bars.

**Note:** For Front Loading Modular Panels, see page 12. "D" mounting hole specifications, see page 54. Many other panel configurations are available, contact customer service.

1 Will not accept dual jacks (e.g. J14, J214, J314, J74, HDVDP) 2 Will not accept jacks requiring hole spacing (A) larger than .625" 3 Will accept 3 barrel jack only

Note: JSIB (Fig. B and C) panels have .459 dia typ.

See page 59 for panel figure diagrams.

### "D" Hole Specifications

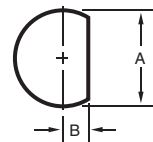

Throughout the catalog you will find "D" holes called out for bulkhead jacks. The "D" hole is the cutout pattern designated for the proper fit of bulkhead jacks into distribution panels.

"D" Hole Type Maximum panel thickness **Example:** D3.148

	"D" Hole Type			Double "D" Hole	
	A	B		A	B
D1	.755"	.343"	DD1	.630"	.532"

## Custom Cable Assembly Lines

Trompeter's coax patch cords and cable assemblies are of the highest quality and can be ordered in any length. Trompeter normally stocks popular lengths of 6", 12", 18", 24", 36", 48", 60", and 72". Standard coax patch cords and cable assemblies are made with the following cables: Patch Cords and Cable Assemblies are available in 50Ω RCA Standard or 75Ω Western Electric (WECo) Standard. The two standards are not intermateable. Trompeter stocks many other connector types for quick turnaround of custom cable assemblies including:

### D-Subs & Backshells:

Male & Female 9, 15, 25, 37 pin and more

### SMA/SMB/SMCs:

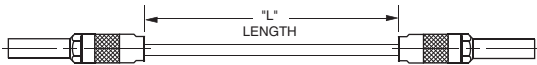

Straight and Right Angles for RG-58, RG-142, RG-174, RG-188, RG-316, and RG-400

Impedance	Cable Type	Trompeter Cabl Part #
50Ω	RG-58	TCC-50-2
75Ω	RG-59	TCC-75-2
93Ω	RG-62	N/A

### Patch Cords (see p/n below) Patch Plug to Patch Plug

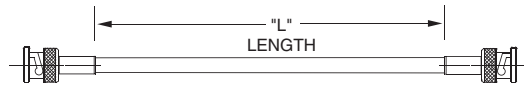

- 50Ω RCA Plug Center Pin .070"..... PC-L-Z
- 75Ω WE Center Pin .090"..... PCW-L-Z
- 75Ω Mini-WECo..... PCMW-L-Z

### Cable Assembly BNC Plug to BNC Plug

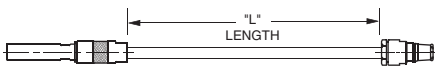

*Tool Crimp BNC*

- 50Ω..... PCYC-L-Z
- 75Ω..... UPCYC-L-Z

### Cable Assembly Patch Plug to Push-on Plug

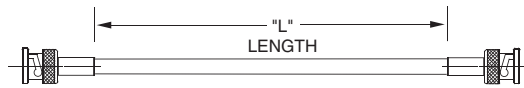

- 50Ω RCA Plug Center Pin .070" to 50Ω Push-on..... PCPX-L-Z
- 50Ω RCA Plug Center Pin .070" to 75Ω Push-on..... UPCPX-L-Z
- 75Ω WE Center Pin .090" to 50Ω Push-on..... PCPWX-L-Z
- 75Ω WE Center Pin .090" to 75Ω Push-on..... UPCPWX-L-Z

### Cable Assembly BNC Plug to BNC Plug

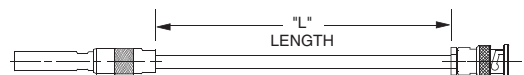

*Wrench Crimp*

- 50Ω BNC..... PCY-L-Z
- 75Ω BNC..... UPCY-L-Z

### Cable Assembly Patch Plug to BNC Plug

- 50Ω RCA Plug Center Pin .070" to 50Ω BNC..... PCX-L-Z
- 50Ω RCA Plug Center Pin .070" to 75Ω BNC..... UPCX-L-Z
- 75Ω We Center Pin .090" to 50Ω BNC..... PCWX-L-Z
- 75Ω We Center Pin .090" to 75Ω BNC..... UPCWX-L-Z

Z = denotes impedance of connecting cable in ohms. L = denotes length in inches.

# Patching Products / Custom Cable Assemblies

## Custom Cable Assemblies

Trompeter has been producing high quality cable assemblies, and currently provides over 500,000 different configurations using a broad range of RF connectors and cable types. We stock a variety of components for camera, RGB, S-Video, Audio, and many other applications.

## Capabilities

Trompeter can provide coax, twinax, and triax cable assemblies using any cable attached connector. This includes panel mount, data bus, multi-pin, D-Subs, SMA connectors, and patching products. Special marking (ID sleeves/tags, hot stamping, colored cable jacket, etc.) is available. Trompeter offers 24-48 hour turnaround on many standard products with full capabilities for sustained volume delivery. Deliveries can be adjusted to meet your specific needs.

Photo: Twinax/Triax connectors on ruggedized dual twinax/triax test cable (fire retardant cables).

## Quality Assurance... ISO 9001 Registered

Trompeter's assemblies are 100% electrically tested for continuity, shorts, and Hi-Pot.

(VSWR, IR, Insertion / Return Loss test capabilities, SPC data available on request).

## Request For Quote...

Please refer to the following guideline when requesting a quote:

1	2	3	4	5	6
Qty	Conn 1	Cable	Conn 2	Length	Special Requirements
12	UPL220	735A	PL11C	60"	Bend relief on Conn 1

- 1 Quantity ..... Select quantity
- 2 Conn1 ..... Select connector type from catalog
- 3 Cable ..... Select cable from pages 74-91
- 4 Conn2 ..... Select connector type from catalog
- 5 Length ..... In inches
- 6 Write out any special marking, testing, bend relief, packaging, or other requirements.

Example Shown: 60 inch coax cable assembly using AT&T 735A, BNC plug, and Mini-WEC0 patch plug with bend relief on BNC plug.

## Coax Terminations and RFI (Dust Caps)

Trompeter provides termination and RFI cap for all our connectors. Resistors are normally ¼ watt for subminiature connectors and ½ watt for miniature and standard size connectors (1% tolerances for all).

### Ordering Instructions

For Terminations Example: PL75 Termination for TRB jacks with 78Ω resistance and no chain.

**Order part number:** **TNG1-6-78-D3**  
 Part number from list \_\_\_\_\_  
 Chain options \_\_\_\_\_  
 R-Resistance \_\_\_\_\_  
 D Ring option (see below) \_\_\_\_\_

For RFI Caps Example: Patch plug cap for a J74 twinax/triax jack with no chain.

**Order part number:** **RFI70-6-D3**  
 Part number from list \_\_\_\_\_  
 Chain options \_\_\_\_\_  
 D Ring option (see below) \_\_\_\_\_

## Chain Options

Length	Chain Type	Chain Numbers
N/A	No Chain	-1
3.0"	Brass Chain	-4
6.0"	Brass Chain	-6
10.0"	Brass Chain	-10
Stainless-steel rope		
3.0"	Jacketed Stainless-steel rope	-13
6.0"	Jacketed Stainless-steel rope	-14

## Stainless Steel Rope with Mounting Rings

We now provide stainless steel rope with “D” rings. To order mounting ring for jacks with the “D” mounting hole numbers listed on the right, add the “D” ring number to the part number.

For Example: [RFI20-12-D2](#)

### D Ring Options

Inside Diameter	D-Ring#	Inside Diameter	D-Ring#
.755"	-D1	.281"	-D7
.630"-.635"	-D2	.610"	-D8
.505"-.510"	-D3	.567"	-D9
.439"-.443"	-D4		
.380"-.384"	-D5		

## Coax Terminations & RFI Caps

Parts to be capped	Description	Terminator	RFI (Dust Caps)
BJ20/CJ20 Series	BNC, Jack	(U)TNASP1-(3)-R (Push on)	RFI25-(3)
BJ20/CJ20 Series	BNC, Jack	(U)TNAS1-(3)-R (Short)	RFI25-(3)
BJ20/CJ20 Series	BNC, Jack	(U)TNA1-(3)-R	RFI25-(3)
BJ20/CJ20	BNC, Jack	(U)TNAP1-(3)-R	RFI25-(3)
BJ40/CJ40 Series	TNC, Jack	(U)TNH1-(3)-R	RFI45-(3)
BJ50/CJ50 Series	TPS, Jack	TNB1-(3)-R (Push on)	RFI55-(3)
BJ50FL Series	TPS, Jack	TNBP1-(3)-R (Push on)	RFI55FL-(3)
BJ50/BJ350	TPS/TCM, Jack	TNBP1-(3)-R (Push on)	RFI355-(3)
BJ95	N, Jack	(U)TNN1-(3)-R	RFI95-(3)
BJ130	F, Jack	TNF1-(3)-R	RFI130-(3)
J3	RCA, Patch Jack	TP-(3)-R	RFI20-(3)
J3W	WECO Patch Jack	TPW-(3)-R	RFI20-(3)
J8	Mini-WECO Coax Patch Jack	TPM-(3)-R	RFI50-(3)
J11	Mini-WECO Patch Jack	TPMW-(3)-R	RFI150-(3)
J94 (90 Series)	Patch Jack	TNP1-(3)-R	RFI94-(3)
J94 (90 Series)	Patch Jack	TPP-(3)-50 (Push-on)	RFI94-(3)
PL20 Series	BNC, Plug	(U)TNAF1-(3)-R	RFI21-(3)
PL50	TPS, Plug		RFI57-(3)
PL220 Series	BNC, Plug	(U)TNAF1-(3)-R	RFI21-(3)
PL40 Series	TNC, Plug	(U)TNHF1-(3)-R	RFI41-(3)
PL95	N, Plug	(U)TNNBJ1-(3)-R (Bulkhead Mount)	RFI97-(3)/ RFI597-(3) Safety wire

Notes: (3) See Chain options. “U: Designates 75 ohm version available. “R” Resistance. If you cannot find the RFI cap or termination, contact customer service.

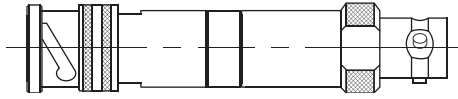

# Patching Products / Adapters

## Circuitry Schematics

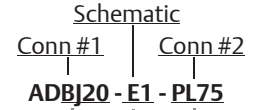

### Custom Adapters Ordering Format

Adapters indexed with a designated number are **standard adapters**, refer to page 46 for identifications. Adapters index with a “•” are **custom adapters** and may be ordered using the example below. For adapters not referenced contact customer service.

**Ordering Example:**

Conn #1     **BJ20**   Bnc Jack  
 Schematic   **E1**     Circuit Code  
 Conn # 2    **PL75**   TRB Plug

# Tools & Accessories

## Cable Strippers

### Powered Cable Stripper

This powerful, low-cost, portable hand-held (less than 2.25 lbs) cable stripper delivers, production quality performance, and gives you up to 250 strips per charge (7.2 V Ni-cad battery without memory effect). The replaceable, 3-level cutter head, is preset to strip your coax cable for Trompeter's 220 Series, Tool Crimp BNC connectors. The cutter head has adjustable depth cutter blades for precision tuning. Precision ground, tool steel blades (hardens to Rockwell 64) give you up to 15,000 strips! Rapid Charger/Reconditioner recharges your Ni-Cad in only 1.5 hours! Fast charge: 1.5 hrs/Recondition in 3.1 hrs.

### Powered Cable Stripper Kits (1-year Warranty)

Includes: 1 Driver, 1 Ni-Cad Battery Pack, 1 Cutter Head, 1 Rapid Charger/Reconditioner Station, and 1 Carrying Case.

#### Cable Type Stripper/Cutter head

For RG-59

BCS/C24T3D

For 8281

BCS/C24T3U

## Manual Cable Stripping Tools

### Cable Cutting Tool

Designed to cut Coax cable without compressing dielectric or damaging center conductor.

**Cutting Tool**  
700-0024

## Cutter Head Guide

Cable Outside Diameter	2-Blade Cut	3-Blade Cut	D-Ring#
.070-.110	C24T2A	C24T3A	-D7
.160-.215	C24T2B	C24T3B	-D8
.190-.230	C24T2C	C24T3C	-D9
.235-.270	C24T2D	C24T3D	-DD8

## Cable Assembly Testers

### Twinax/Triax Cable Assembly Tester

### Twinax/Triax Cable Assembly Connector Test Set 010-0123-1

The Twinax/Triax Cable Assembly Tester is designed to test for opens, shorts, and cross wired connectors. The tester comes complete with terminators and testing instructions. This tool is designed to provide quick verification of TRB cable assemblies in the palm of your hands. The compact hand held unit measures 2 3/4" x 4 1/2" and provides versatility for testing connectors in the field. The unit comes in a soft zipper case which includes a 9v battery and terminators for standard TRB plugs. It can also be used for other connector families with an adapter, or short jumper cable when used with the proper termination.

- 3 Conductors which test for opens, shorts, and cross connects
- Concentric TRB Interface, which tests both Twinax and Triax
- Pass/Open/Short LED indicators
- Easy to follow testing instructions
- Complete with terminators, carrying case, and a 9V battery

### BNC Coax Tester

### Coax Cable Assembly Connector Test Set

- 75Ω BNC Plug..... 010-0133
- 75Ω MBNC Plug..... 010-0208

### Mini-WECO Adapter (Continuity Only)

*Sold Separately*  
105-1885

Designed to test for the proper assembly of BNC plugs with coax cables. Tests for center contact pin height and continuity (short or open). The new BNC tester is the same size as the twinax/triax tester but exclusively tests only BNC plugs. Mini-WECO continuity test adapter now available (sold separately).

- Compact design
- Pass/Open/Short LED indicators
- One test required for testing remote cable runs
- Easy to follow instructions
- Complete with terminators, case, and 9V battery
- On/Off switch

## BNC Coax Assembly Training Video

Trompeter has produced a video which outlines the major features of our BNC design, describes the tools for reliable installation, and gives step-by-step assembly instructions. The BNC Assembly Video CD is available at [no cost](#) to Trompeter Customers.

For additional information or for a free demonstration, contact your local Sales Representative log on to our web site at [www.EmersonConnectivity.com](http://www.EmersonConnectivity.com) and locate the rep nearest you.

### BNC Bulk Packaging

Bulk packaging for UPL220 Series BNC plugs ... Trompeter offers Tool Crimp BNC's bulk packed in convenient vacuum-formed plastic trays. Bulk packaging is perfect for OEM and high-volume, on-site installations.

**Includes:**

- (50) Body Assemblies
- (51) Crimp Sleeves
- (52) Center Contact Pins
- Assembly Instructions

Example: **UPL220-026/T50**

BNC part number, Vacuum Tray part number

*For cable groups see pages 78-120. (Not available for cable groups -017)*

# Appendix

## Trompeter Cable Specifications

Trompeter cables are manufactured to the listed specifications and offer optimum flexibility, shielding, and performance. Cables with stranded center conductors have greater flexibility and are recommended for short runs at low frequency where constant cable movement might fatigue a single copper-weld center conductor. Trompeter's **M17/176-00002** and **TWAC-78-1F2** are 200°C, Hi-Temp Cables for MIL-STD-1553B data bus applications. Dielectric and fillers made of PTFE (Teflon™) and outer jackets are PFA (Perfluoroalkoxy). All dimensions are in inches. All values without tolerances are *nominal* unless otherwise stated. **TWCH-78-2** has jacket constructed of *flame retardant halogen free polyolefin* with temperature range of -30°C to +80°C.

**TWCP** = Twinax Plenum Cable

**TWCH** = Twinax Blue Flame Retardant Halogen Free Polyolefin Cable

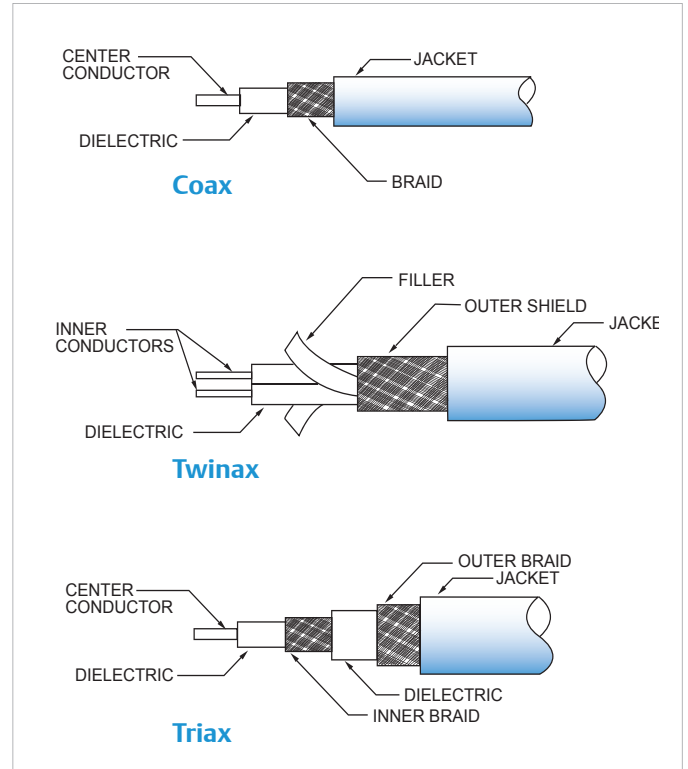

**TRCH** = Triax Yellow Flame Retardant Halogen Free Polyolefin Cable

## Trompeter General Material/Finish Specifications

### TFS-1: Finish Specifications

**TFS-1A**  
.0001-.0003 max thk Bright Nickel per QQ-N-290, Class 1, Form SB (over)  
.000080-.000150 thk Bright Copper per MIL-C-14550 (over) .0005 max Electroless Nickel per AMS-2404C, Class 1 (On Aluminum Only)

**TFS-1B**  
.000020-.000030 thk Bright Gold2 per MIL-G-45204, Type II, Grade C, Class3 (over)  
.000050-.000180 thk Bright Nickel3 per QQ-N-290, Class1 (over)  
.000080-.000150 thk Bright Copper3 per MIL-C-14550

**TFS-1D**  
.0001min-.000120 max thk Electroless Nickel per AMS 2404C (over)  
.000080 min-.000150 max thk Bright Copper per MIL-C-14550

**TFS-1E**  
.0002 min-.0003 max thk Bright Electro Tin per MIL-T-10727, Type 1 and solder test per Para. 4.6.3.1

**TFS-1M<sup>4</sup>**  
.000200 min-.000300 max thk Silver per QQ-S-365, Type II (Semi-bright) Grade A (Chromate post treatment)  
(over) .000080 min-.000150 max thk Bright Copper per MIL-C-14550

**TFS-1T<sup>5</sup>**  
.000050-.000100 Bright Tin per MIL-T-10727, Type I (Electro Deposited) (over) .000150-.00020 Sulfamate Nickel per MIL-P-27418 (over) .00010-.000150 Copper per MIL-C-14550, Class 4

**TFS-1U<sup>6</sup>**  
.00020-.00030 thk Sulfamate Nickel per MIL-P-27418 (over) .000080-.000150 max thk Copper per MIL-C-14550

**TFS-1V<sup>8</sup>**  
.000200-.000300 max thk Silver per QQ-S-365, Type I (Matte), Grade A (over) .000050-.000180 max thk Sulfamate Nickel per MIL-P-27418, (over) .000080 min-.000150 max thk Bright Copper per MIL-C-14550

### Trompeter Finish Specification - 1 (TFS-1) Notes:

- (2) Bright Gold plate on all connector center contacts, pins, sockets, shall be .000050 min - .000070 max thk, Class 1
- (3) Thickness is in accordance with MIL-G-45204B, Para 6.3 "Strikes and Underplating"
- (4) Copper Alloy articles on which a nickel undercoat is not used shall not be used for continuous service at temperatures above 149°C (300°F) QQ-S-365, Para. 3.3.5.
- (5) For use on Brass and Beryllium Copper body (shell) and accessory components when 500 hour salt spray test is specified. (For test conditions, refer to MIL-C-38999, Para. 3.16 and 4.7.12.2, [Method 1001.1 of MIL-STD-1344])
- (6) Plating thickness variations, critical and noncritical areas must be plated to within specified lower limits, except where surfaces cannot be contacted by a .75 inch dia ball, noncritical areas total plating thickness may exceed the specified upper limits by .000150 maximum.

Materials	Alloy or Type	FED/MIL Spec.	Usage
ABS	Moldings Type 2	MIL-STD-1803 L-P-1883B	Looping plug handles, lock pins
Acetal	Dupont Delrin	L-P-392	Insulators, cases, bushings
Aluminum	2024-T351	QQ-A255/6	Backbars, cases
	6061-T6	QQ-A200/8	Stiffener bars
	6061-T6	QQ-A250/11	Patch panels
	6061-T6511	QQ-A200/8	Backbars, cases
Beryllium Copper	17200 (Bar)	ASTM-B-194	Contact & crescent springs
	17300 (Flat)	ASTM-B-196 & 197	Contact sockets, fingersprings, washers
Brass	C26000	ASTM-B-36	Ground lugs, washers
	C36000	ASTM-B-16	Connector bodies, coupling sleeves, clamp nuts, hex mtg. nuts, ctr. contact pins, cases
Dupont Acetal Resin #500TL	Homopolymer General Purpose w/ 1.5% Teflon Micropower		Moldings
Fluorinated Ethylene Propylene	(FEP)	ASTM-D-2116	Insulators
Hyflon	MFA Grade 640		Alternate material dielectric
Loctite	495 (Zinc Iridite per ASTM-B633)	QQ-2-325 Type 2 Class 2 Finish	
Nylon	6/6 or 6/12	L-P-410A	Insulating bushings
Perfluoroalkoxy	(PFA)	ASTM-D-3307	Cable jackets
Phenolic	XXX	L-P-513 PBE	Patch panels, backbars
Phosphor Bronze	Alloy 544	ASTM-B-139	Contact springs, lockwashers
Polytetrafluoroethylene	(PTFE)	ASTM-D-1710	Dielectrics, insulators
Polyvinylidene Flouride		MIL-I-23053/8	Sealing Sleeves
Rubber	Silicone	ZZ-R-765	Gaskets, O-rings, sealing members
Solder	Sn60, 62, 63, or 96	QQ-S-571	
Steel	C1010-1018	QQ-S-636	MPN cases
	Music Wire	ASTM-A228 SAE J178	Tension springs
Steel CRS	Type 17-4PH	AMS-5643 Tubing	
Corrosion Resistant Steel	303	QQ-S-763	Connector bodies, coupling sleeves, hex mtg. nuts
	302	QQ-S-766	Designation strips
	301	ASTM-484, A582	
Thermo-plastic Polyester	Glass Filled	MIL-M-24519	Heat resistant molded insulators
Vinyl	Clear Rigid-Self ext.	ASTM-D-635	Designation strip window
	Opaque Rigid-Self ext.	ASTM-D-635	Designation strip marking strip
Zinc	Alloy #3	ASTM-B-240/B-86	Selected non-functional parts

## BNC Tool/Wrench Crimp Assembly Illustrations

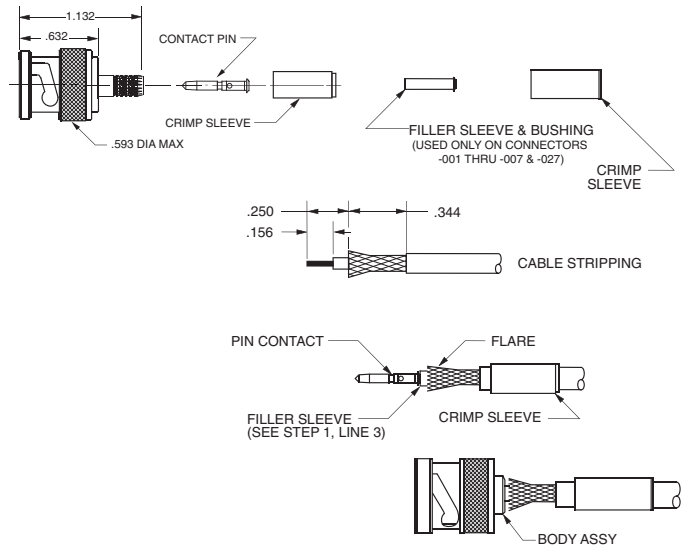

### BNC Coax Tool Crimp Assembly Illustration

#### Step 1

1. Place crimp sleeve onto cable with the step located away from the cut end as shown.
2. Strip cable as shown and flare braid.
3. On connectors with cable group number -001 thru -007, and -027 only, slide filler sleeve fully under braid, then bushing under cable dielectric.
4. Crimp contact pin in position shown.

#### Step 2

1. Push cable assembly into the body until the contact pin snaps into place.
2. Slide crimp sleeve forward over braid, up against the body assembly and crimp in place.

### BNC Coax Wrench Crimp Assembly Illustration

#### Step 1

1. Place clamp nut onto cable.
2. Strip cable as shown and flare braid to allow free entry of cone (Lateral slits 180° apart may be required for very inflexible jacket materials).
3. Lightly tin center conductor (optional).

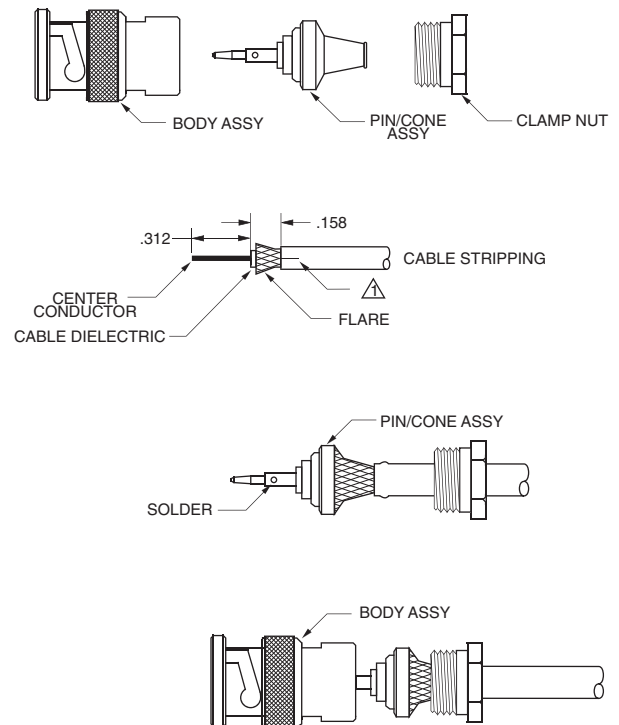

#### Step 2

1. Push edge of cone between cable dielectric and braid (or between foil and braid, if foil is present, and cone I.D. will accept it). Continue to push cable into cone until cable dielectric bottoms against cone dielectric. Center conductor should be visible in pin inspection hole.

2. Solder center conductor into pin.

#### Step 3

1. Bring clamp nut up onto tapered portion of cable.
2. Assemble body and engage with clamp nut.
3. Wrench tighten to 25-30 inch-pounds torque.

Notes: For Illustration purposes only. Not intended to replace actual installation instructions.

## Cable Group Table Notes

*If your cable group is not listed, contact customer service for assistance.*

Trompeter provides cable connectors with configurations designed to provide tough, durable terminations on specific cables. Cable connector part numbers reference a specific cable group number for a specific cable type, model, and/or manufacturer. This *ensures* that the connector fits your cable and provides the toughest termination available in the industry.

If you know the part number and manufacturer of your cable, you can locate the cable's assigned cable group number using the cable group table in the following pages.

If you have a Trompeter connector, you can determine the cable group number by the last hyphenated suffix, (usually 1 to 3 digits).

**Example: UPL220-026 = cable group number -026**

*Note: All dimensions in the proceeding Cable Group Table are in thousandths of an inch.*

If you cannot satisfy your connector requirements with the standard cable group number, or have a special requirement, contact your local Trompeter representative listed on the back inside cover of this catalog, or you can visit our website at [www.EmersonConnectivity.com](http://www.EmersonConnectivity.com) to find the sales rep nearest you. Contact customer service for more information.

Note: Cables of the same type and specification may vary from manufacturer to manufacturer. Always verify the cable group number for your connector type and manufacturer.

The symbol -  after the part numbers listed in this catalog indicates that you should refer to the cable group table in the proceeding pages.

**Wrench style = Wrench Crimp**

**Crimp style = Tool Crimp**

Emerson Network Power Connectivity Solutions, Inc. is herein referred to as the "Seller" and the customer or person or entity purchasing goods ("Goods") from Seller is referred to as the "Buyer." These Terms and Conditions, any price list or schedule, quotation, acknowledgment or invoice from Seller relevant to the sale of the Goods and all documents incorporated by specific reference herein or therein, constitute the complete and exclusive statement of the terms of the agreement governing the sale of Goods by Seller to Buyer. Buyer's acceptance of the Goods will manifest Buyer's assent to these Terms and Conditions. Seller reserves the right in its sole discretion to refuse orders.

1. **PRICES:** Unless otherwise specified in writing by Seller, the price quoted or specified by Seller for the Goods shall remain in effect for thirty (30) days after the date of Seller's quotation or acknowledgment of Buyer's order for the Goods, whichever occurs first, provided an unconditional authorization from Buyer for the shipment of the Goods is received and accepted by Seller within such time period. If such authorization is not received by Seller within such thirty (30) day period, Seller shall have the right to change the price for the Goods to Seller's price for the Goods at the time of shipment. All prices are exclusive of taxes, transportation and insurance, which are to be borne by Buyer.

2. **TAXES:** Any current or future tax or governmental charge (or increase in same) affecting Seller's costs of production, sale, or delivery or shipment, or which Seller is otherwise required to pay or collect in connection with the sale, purchase, delivery, storage, processing, use or consumption of Goods, shall be for Buyer's account and shall be added to the price.

3. **TERMS OF PAYMENT:** Unless otherwise specified by Seller, terms are net thirty (30) days from date of Seller's invoice in U.S. currency. Seller shall have the right, among other remedies, either to terminate this agreement or to suspend further performance under this and/or other agreements with Buyer in the event Buyer fails to make any payment when due, which other agreements Buyer and Seller hereby amend accordingly. Buyer shall be liable for all expenses, including attorneys' fees, relating to the collection of past due amounts. If any payment owed to Seller is not paid when due, it shall bear interest, at a rate to be determined by Seller, which shall not exceed the maximum rate permitted by law, from the date on which it is due until it is paid. Should Buyer's financial responsibility become unsatisfactory to Seller, cash payments or security satisfactory to Seller may be required by Seller for future deliveries and for the Goods theretofore delivered. If such cash payment or security is not provided, in addition to Seller's other rights and remedies, Seller may discontinue deliveries.

4. **SHIPMENT AND DELIVERY:** While Seller will use all reasonable commercial efforts to maintain the delivery date(s) acknowledged or quoted by Seller, all shipping dates are approximate and not guaranteed. Seller reserves the right to make partial shipments. Seller, at its option, shall not be bound to tender delivery of any Goods for which Buyer has not provided shipping instructions and other required information. If the shipment of the Goods is postponed or delayed by Buyer for any reason, Buyer agrees to reimburse Seller for any and all storage costs and other additional expenses resulting therefrom. Risk of loss and legal title to the Goods shall transfer to Buyer for sales in which the end destination of the Goods is outside of the United States immediately after the Goods have passed beyond the territorial limits of the United States. For all other shipments, risk of loss for damage and responsibility shall pass from Seller to Buyer upon delivery to and receipt by carrier at Seller's shipping point. All shipments are F.O.B. Seller's shipping point. Any claims for shortages or damages suffered in transit are the responsibility of Buyer and shall be submitted by Buyer directly to the carrier.

Shortages or damages must be identified and signed for at the time of delivery. Buyer shall inspect Goods delivered to it by Seller immediately upon receipt, and, any course of dealing to the contrary notwithstanding, failure of Buyer to give Seller notice of any claim within 30 days after receipt of such Goods shall be an unqualified acceptance of such Goods.

5. **LIMITED WARRANTY:** Subject to the limitations of Section 6, Seller warrants that the Goods manufactured by Seller will be free from defects in material and workmanship under normal use and regular service and maintenance for a period of one year from the date of shipment of the Goods by Seller, unless otherwise specified by Seller in writing. **THIS IS THE SOLE AND EXCLUSIVE WARRANTY GIVEN BY SELLER WITH RESPECT TO THE GOODS AND IS IN LIEU OF AND EXCLUDE ALL OTHER WARRANTIES, EXPRESS OR IMPLIED, ARISING BY OPERATION OF LAW OR OTHERWISE, INCLUDING WITHOUT LIMITATION, MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE WHETHER OR NOT THE PURPOSE OR USE HAS BEEN DISCLOSED TO SELLER IN SPECIFICATIONS, DRAWINGS OR OTHERWISE, AND WHETHER OR NOT SELLER'S PRODUCTS ARE SPECIFICALLY DESIGNED AND/OR MANUFACTURED BY SELLER FOR BUYER'S USE OR PURPOSE.**

This warranty does not extend to any losses or damages due to misuse, accident, abuse, neglect, normal wear and tear, negligence (other than Seller's), unauthorized modification or alteration, use beyond rated capacity, unsuitable power sources or environmental conditions, improper installation, repair, handling, maintenance or application or any other cause not the fault of Seller. To the extent that Buyer or its agents has supplied specifications, information, representation of operating conditions or other data to Seller in the selection or design of the Goods and the preparation of Seller's quotation, and in the event that actual operating conditions or other conditions differ from those represented by Buyer, any warranties or other provisions contained herein which are affected by such conditions shall be null and void.

If within thirty (30) days after Buyer's discovery of any warranty defects within the warranty period, Buyer notifies Seller thereof in writing, Seller shall, at its option and as Buyer's exclusive remedy, repair, correct or replace F.O.B. point of manufacture, or refund the purchase price for, that portion of the Goods found by Seller to be defective. Failure by Buyer to give such written notice within the applicable time period shall be deemed an absolute and unconditional waiver of Buyer's claim for such defects. All costs of dismantling, reinstallation and freight and the time and expense of Seller's personnel and representatives for site travel and diagnosis under this warranty shall be borne by Buyer unless accepted in writing by Seller. Goods repaired or replaced during the warranty period shall be covered by the foregoing warranty for the remainder of the original warranty period or ninety (90) days from the date of shipment, whichever is longer.

Buyer assumes all other responsibility for any loss, damage, or injury to persons or property arising out of, connected with, or resulting from the use of Goods, either alone or in combination with other products/components.

Section 5 applies to any entity or person who may buy, acquire or use the Goods, including any entity or person who obtains the Goods from Buyer, and shall be bound by the limitations therein, including Section 6. Buyer agrees to provide such subsequent transferee conspicuous, written notice of the provisions of Sections 5 and 6.

6. **LIMITATION OF REMEDY AND LIABILITY:** THE SOLE AND EXCLUSIVE REMEDY FOR BREACH OF ANY WARRANTY HEREUNDER OTHER THAN THE WARRANTY PROVIDED UNDER SECTION 7 SHALL BE LIMITED TO REPAIR, CORRECTION OR REPLACEMENT, OR REFUND OF THE PURCHASE PRICE UNDER SECTION 5.

SELLER SHALL NOT BE LIABLE FOR DAMAGES CAUSED BY DELAY IN PERFORMANCE AND THE REMEDIES SET FORTH IN THIS AGREEMENT ARE EXCLUSIVE. IN NO EVENT, REGARDLESS OF THE FORM OF THE CLAIM OR CAUSE OF ACTION (WHETHER BASED IN CONTRACT, INFRINGEMENT, NEGLIGENCE, STRICT LIABILITY, OTHER TORT OR OTHERWISE), SHALL SELLER'S LIABILITY TO BUYER AND/OR ITS CUSTOMERS EXCEED THE PRICE PAID BY BUYER FOR THE SPECIFIC GOODS PROVIDED BY SELLER GIVING RISE TO THE CLAIM OR CAUSE OF ACTION. BUYER AGREES THAT IN NO EVENT SHALL SELLER'S LIABILITY TO BUYER AND/OR ITS CUSTOMERS EXTEND TO INCLUDE INCIDENTAL, CONSEQUENTIAL OR PUNITIVE DAMAGES. The term "consequential damages" shall include, but not be limited to, loss of anticipated profits, business interruption, loss of use, revenue, reputation and data, costs incurred, including without limitation, for capital, fuel, power and loss or damage to property or equipment.

Buyer expressly acknowledges and agrees that Seller has set its prices and entered into this agreement in reliance upon the limitations of liability and other terms and conditions specified herein, which allocates the risk between Seller and Buyer and form a basis of this bargain between the parties.

It is expressly understood that any technical advice furnished by Seller with respect to the use of the Goods is given without charge, and Seller assumes no obligation or liability for the advice given, or results obtained, all such advice being given and accepted at Buyer's risk.

7. **PATENTS AND COPYRIGHTS:** Subject to the limitations of the second paragraph of Section 6, Seller warrants that the Goods sold, except as are made specifically for Buyer according to Buyer's specifications, do not infringe any valid U.S. patent or copyright in existence as of the date of shipment. This warranty is given upon the condition that Buyer promptly notify Seller of any claim or suit involving Buyer in which such infringement is alleged and cooperate fully with Seller and permit Seller to control completely the defense, settlement or compromise of any such allegation of infringement. Seller's warranty as to use patents only applies to infringement arising solely out of the inherent operation according to Seller's specifications and instructions (i) of such Goods, or (ii) of

any combination of Goods acquired from Seller in a system designed by Seller. In the event such Goods are held to infringe such a U.S. patent or copyright in such suit, and the use of such Goods is enjoined, or in the case of a compromise or settlement by Seller, Seller shall have the right, at its option and expense, to procure for Buyer the right to continue using such Goods, or replace them with non-infringing Goods, or modify same to become non-infringing, or grant Buyer a credit for the depreciated value of such Goods and accept return of them. In the event of the foregoing, Seller may also, at its option, cancel the agreement as to future deliveries of such Goods, without liability.

**8. EXCUSE OF PERFORMANCE:** Seller shall not be liable for delays in performance or for non-performance due to acts of God; acts of Buyer; war; fire; flood; weather; sabotage; strikes or labor disputes; civil disturbances or riots; governmental requests, restrictions, allocations, laws, regulations, orders or actions; unavailability of or delays in transportation; default of suppliers; or unforeseen circumstances or any events or causes beyond Seller's reasonable control. Deliveries or other performance may be suspended for an appropriate period of time or canceled by Seller upon notice to Buyer in the event of any of the foregoing, but the balance of the agreement shall otherwise remain unaffected as a result of the foregoing.

If Seller determines that its ability to supply the total demand for the Goods, or to obtain material used directly or indirectly in the manufacture of the Goods, is hindered, limited or made impracticable due to causes set forth in the preceding paragraph, Seller may allocate its available supply of the Goods or such material without obligation to acquire other supplies of any such Goods or material among itself and its purchasers on such basis as Seller determines to be equitable without liability for any failure of performance which may result therefrom.

**9. CANCELLATION:** Unless otherwise agreed in writing by Seller, orders under this agreement may not be canceled by Buyer for any reason.

**10. CHANGES:** Buyer may request changes or additions to the Goods consistent with Seller's specifications and criteria. In the event such changes or additions are accepted by Seller, Seller may revise the price and dates of delivery.

Seller reserves the right to change designs and specifications for the Goods without prior notice to Buyer, except with respect to Goods being made-to-order for Buyer. Seller shall have no obligation to install or make such change in any Goods manufactured prior to the date of such change.

**11. NUCLEAR/MEDICAL. GOODS AND SERVICES SOLD HEREUNDER ARE NOT FOR USE IN CONNECTION WITH ANY NUCLEAR, MEDICAL, LIFE-SUPPORT AND RELATED APPLICATIONS.** Buyer accepts goods and services with the foregoing understanding, agrees to communicate the same in writing to any subsequent purchasers or users and to defend, indemnify and hold harmless Seller from any claims, losses, suits, judgments and damages, including incidental and consequential damages, arising from such use, whether the cause of action be based in tort, contract or otherwise, including allegations that the Seller's liability is based on negligence or strict liability.

**12. BUYER'S COMPLIANCE WITH LAWS:** In connection with the transactions contemplated by this agreement, Buyer is familiar with and shall fully comply with all applicable laws, regulations, rules and other requirements of the United States and of any applicable state, foreign and local governmental body in connection with the purchase, receipt, use, transfer and disposal of the Goods.

**13. EXPORT/IMPORT:** Buyer agrees that all applicable import and export control laws, regulations, orders and requirements, including without limitation those of the United States and the European Union, and the jurisdictions in which the Seller and Buyer are established or from which Goods and Services may be supplied, will apply to their receipt and use. In no event shall Buyer use, transfer, release, import, export, Goods in violation of such applicable laws, regulations, orders or requirements.

**14. TOOLING:** Tool, die, and pattern charges, if any, are in addition to the price of the Goods and are due and payable upon completion of the tooling. All such tools, dies and patterns shall be and remain the property of Seller. Charges for tools, dies, and patterns do not convey to Buyer, title, ownership interest in, or rights to possession or removal, or prevent their use by Seller for other purchasers, except as otherwise expressly provided by Seller and Buyer in writing with reference to this provision.

**15. RETURNED GOODS:** Except as otherwise provided with respect to warranty defects in Section 5, advance written permission to return Goods must be obtained from Seller's customer service department. Such Goods must be current, unused, catalogued Goods and must be shipped, transportation prepaid, to the Seller's specified return location. Returns made without proper written

permission will not be accepted by Seller. Credit or exchange for such returned Goods will be at the billing price or current price, whichever is lower, from which will be deducted an inspection, restocking and repacking charge and the cost of any reconditioning. Seller reserves the right to inspect Goods prior to authorizing return.

**16. BUYER SUPPLIED DATA:** To the extent that Seller has been provided by or on behalf of Buyer any specifications, description of operating conditions or other data and information in connection with the selection or design of the Goods, and the actual operating conditions or other circumstances differ from those provided by Buyer and relied upon by Seller, any warranties or other provisions contained herein which are affected by such conditions shall be null and void.

**17. DRAWINGS:** Seller's prints and drawings (including without limitation, the underlying technology) furnished by Seller to Buyer in connection with this agreement are the property of Seller and Seller retains all rights, including without limitation, exclusive rights of use, licensing and sale. Possession of such prints or drawings does not convey to Buyer any rights or license, and Buyer shall return all copies (in whatever medium) of such prints or drawings to Seller immediately upon request therefore.

**18. ASSIGNMENT:** Buyer shall not assign its rights or delegate its duties hereunder or any interest herein without the prior written consent of Seller, and any such assignment, without such consent, shall be void.

**19. GENERAL PROVISIONS:** These terms and conditions supersede all other communications, negotiations and prior oral or written statements regarding the subject matter of these terms and conditions. No change, modification, rescission, discharge, abandonment, or waiver of these terms and conditions shall be binding upon the Seller unless made in writing and signed on its behalf by a duly authorized representative of Seller. No conditions, usage of trade, course of dealing or performance, understanding or agreement purporting to modify, vary, explain, or supplement these terms and conditions shall be binding unless hereafter made in writing and signed by the party to be bound, and no modification or additional terms shall be applicable to this agreement by Seller's receipt, acknowledgment, or acceptance of purchase orders, shipping instruction forms, or other documentation containing terms at variance with or in addition to those set forth herein. Any such modifications or additional terms are specifically rejected and deemed a material alteration hereof. If this document shall be deemed an acceptance of a prior offer by Buyer, such acceptance is expressly conditional upon Buyer's assent to any additional or different terms set forth herein. No waiver by either party with respect to any breach or default or of any right or remedy, and no course of dealing, shall be deemed to constitute a continuing waiver of any other breach or default or of any other right or remedy, unless such waiver be expressed in writing and signed by the party to be bound. All typographical or clerical errors made by Seller in any quotation, acknowledgment or publication are subject to correction.

The validity, performance, and all other matters relating to the interpretation and effect of this agreement shall be governed by the law of the state of Missouri. Buyer and Seller agree that the proper venue for all actions arising in connection herewith shall be only in Missouri and the parties agree to submit to such jurisdiction. No action, regardless of form, arising out of transactions relating to this contract, may be brought by either party more than two (2) years after the cause of action has accrued. The U.N. Convention on Contracts for the International Sales of Goods shall not apply to this agreement.

Компания «ЭлектроПласт» предлагает заключение долгосрочных отношений при поставках импортных электронных компонентов на взаимовыгодных условиях!

Наши преимущества:

- Оперативные поставки широкого спектра электронных компонентов отечественного и импортного производства напрямую от производителей и с крупнейших мировых складов;
- Поставка более 17-ти миллионов наименований электронных компонентов;
- Поставка сложных, дефицитных, либо снятых с производства позиций;
- Оперативные сроки поставки под заказ (от 5 рабочих дней);
- Экспресс доставка в любую точку России;
- Техническая поддержка проекта, помощь в подборе аналогов, поставка прототипов;
- Система менеджмента качества сертифицирована по Международному стандарту ISO 9001;
- Лицензия ФСБ на осуществление работ с использованием сведений, составляющих государственную тайну;
- Поставка специализированных компонентов (Xilinx, Altera, Analog Devices, Intersil, Interpoint, Microsemi, Aeroflex, Peregrine, Syfer, Eurofarad, Texas Instrument, Miteq, Cobham, E2V, MA-COM, Hittite, Mini-Circuits, General Dynamics и др.);

Помимо этого, одним из направлений компании «ЭлектроПласт» является направление «Источники питания». Мы предлагаем Вам помощь Конструкторского отдела:

- Подбор оптимального решения, техническое обоснование при выборе компонента;
- Подбор аналогов;
- Консультации по применению компонента;
- Поставка образцов и прототипов;
- Техническая поддержка проекта;
- Защита от снятия компонента с производства.
