

Multi-Function Cable Tester with Wire Tracker (RJ45, RJ11, BNC, USB)

MODEL NUMBER: T010-001-K

Description

The T010-001-K Multi-Function Cable Tester is an essential tool for cable installers or anyone working in telecom or LAN environments. It allows you to test RJ45 (STP/UTP), RJ11, BNC and USB cable wiring, length, fault and location, as well as common metal wires using the included alligator clip adapter.

For instance, you can test wiring for open, short, cross, reverse and pairing connection. You can also track the location of an open circuit position, and determine the length of a cable – whether in a wall or on a spool – up to 4,920 feet (1,500 meters). The easy-to-read LCD interface includes a calibration function that lets you load saved data.

Powered by included 9-volt batteries, the T010-001-K can find an RJ45, RJ11, BNC or USB cable nestled within a group of cables. The auto-off function preserves battery power. The probe unit's LED flashlight is handy for working in dark areas. Included headphones help you work in noisy areas. When not in use, the T010-001-K can be stored in its carrying case.

Features

Essential Tool for Cable Installers or Telecom/LAN Personnel

- Tests RJ45 (STP/UTP), RJ11, BNC and USB cable wiring, length, fault and location
- Tests common metal wires using included alligator clip adapter
- Tests wiring for open, short, cross, reverse and pairing connection
- Track location of open circuit position
- Determine length of cable – even in a wall or on a spool – up to 4,920 ft. (1,500 m)
- Finds RJ45, RJ11, BNC or USB cable within a group of cables

Powered by Included 9V Batteries

- Auto-off function preserves battery power

Designed to Make Your Work Easier

Highlights

- Tests for open, short, cross, reverse and pairing connection
- Tests RJ45 (STP/UTP), RJ11, BNC and USB cabling
- Alligator clip adapter for testing common metal wires
- Easy-to-read LCD interface
- Included headphones for use in noisy areas

Package Includes

- Main tester
- Remote tester
- Remote probe unit
- RJ45 jumper cable, 6 in.
- RJ11 jumper cable, 6 in.
- RJ11 to alligator clip adapter
- Headphones
- (2) 9V batteries
- Carrying case
- Owner's manual

- Easy-to-read LCD interface
- Headphones for working in noisy environments
- LED flashlight for poking around dark areas
- Stores away in convenient carrying case

Компания «ЭлектроПласт» предлагает заключение долгосрочных отношений при поставках импортных электронных компонентов на взаимовыгодных условиях!

Наши преимущества:

- Оперативные поставки широкого спектра электронных компонентов отечественного и импортного производства напрямую от производителей и с крупнейших мировых складов;
- Поставка более 17-ти миллионов наименований электронных компонентов;
- Поставка сложных, дефицитных, либо снятых с производства позиций;
- Оперативные сроки поставки под заказ (от 5 рабочих дней);
- Экспресс доставка в любую точку России;
- Техническая поддержка проекта, помощь в подборе аналогов, поставка прототипов;
- Система менеджмента качества сертифицирована по Международному стандарту ISO 9001;
- Лицензия ФСБ на осуществление работ с использованием сведений, составляющих государственную тайну;
- Поставка специализированных компонентов (Xilinx, Altera, Analog Devices, Intersil, Interpoint, Microsemi, Aeroflex, Peregrine, Syfer, Eurofarad, Texas Instrument, Miteq, Cobham, E2V, MA-COM, Hittite, Mini-Circuits, General Dynamics и др.);

Помимо этого, одним из направлений компании «ЭлектроПласт» является направление «Источники питания». Мы предлагаем Вам помощь Конструкторского отдела:

- Подбор оптимального решения, техническое обоснование при выборе компонента;
- Подбор аналогов;
- Консультации по применению компонента;
- Поставка образцов и прототипов;
- Техническая поддержка проекта;
- Защита от снятия компонента с производства.
