

M7100

Pressure Transducer

SPECIFICATIONS

- ◆ Performance standard on and off highway engine and vehicle OEMs
- ◆ Rugged for heavy equipment and outdoor use
- ◆ Designed specifically for high volume applications
- ◆ Stainless steel wetted surfaces
- ◆ Medium to high pressures
- ◆ CE Approved
- ◆ UL Certified
- ◆ Gage

The M7100 pressure transducer from the Microfused line of MEAS sets a new price performance standard for demanding engine and vehicle, and industrial applications. This transducer is suitable for measurement of liquid or gas pressure, even for difficult media such as contaminated water, steam and corrosive fluids.

The transducer pressure cavity is machined from a solid piece of 17-4 PH stainless steel. The standard version includes a 1/4 NPT pipe thread allowing a leak-proof, all metal sealed system. There are no O-rings or organics exposed to the pressure media and the durability is excellent. This automotive grade pressure transducer with stainless steel hermetic pressure ports and integral electrical connector can boast up to 10,000psi (700bar). The M7100 is UL certified and exceeds the latest industrial CE requirements including surge protection and is overvoltage protected in both positive and reverse polarity.

FEATURES

- ◆ Hermetic Pressure Ports
- ◆ Integral Electrical Connector
- ◆ Survives High Vibration
- ◆ $\pm 0.25\%$ Accuracy
- ◆ Water Resistant 1M Immersion

APPLICATIONS

- ◆ On and Off Highway Engines and Vehicles
- ◆ HVAC Refrigeration Controls
- ◆ Compressors
- ◆ Hydraulics
- ◆ Energy and Water Management

STANDARD RANGES

| Long Term Stability | -0.25 | | | 0.25 | | %Span/Year | |
| Frequency Response @ -3dB | | | 1 | | | kHz | |

Notes

- Best fit straight line.
- TEB includes all accuracy errors, thermal errors, span and zero tolerances over the compensated temperature range.
- Temperature range for product with standard cable is -20°C to +105°C.
- Between sensor body to any pins of connector.
- The maximum pressure that can be applied without changing the transducer's performance or accuracy.
- The maximum pressure that can be applied to a transducer without rupture of either the sensing element or transducer
- Refer to pressure port Listing notes for installation recommendations.
- This product can be configured for custom OEM requirements. Contact Factory for different transfer function. See "Pressure Transfer Function" diagram.
- Maximum temperature range for product with standard cable is -20°C to 105°C.
- Do not apply torque to connector housing of transducer
- To ensure proper environmental sealing and electrical connections when using a mating connector, follow the connector manufacturer's installation guidelines.

Notes: Installation

*T.F.F.T.: Turns From Finger Tight

Transducers can be installed by either spanner or deep socket. Torque values provided are for reference: actual torque depends upon mating port material, surface finish, lubrication and sealing mechanism. Transducers calibration and/or zero may shift if part is over-torqued during installation. Check for a zero shift after installing.

Компания «ЭлектроПласт» предлагает заключение долгосрочных отношений при поставках импортных электронных компонентов на взаимовыгодных условиях!

Наши преимущества:

- Оперативные поставки широкого спектра электронных компонентов отечественного и импортного производства напрямую от производителей и с крупнейших мировых складов;
- Поставка более 17-ти миллионов наименований электронных компонентов;
- Поставка сложных, дефицитных, либо снятых с производства позиций;
- Оперативные сроки поставки под заказ (от 5 рабочих дней);
- Экспресс доставка в любую точку России;
- Техническая поддержка проекта, помощь в подборе аналогов, поставка прототипов;
- Система менеджмента качества сертифицирована по Международному стандарту ISO 9001;
- Лицензия ФСБ на осуществление работ с использованием сведений, составляющих государственную тайну;
- Поставка специализированных компонентов (Xilinx, Altera, Analog Devices, Intersil, Interpoint, Microsemi, Aeroflex, Peregrine, Syfer, Eurofarad, Texas Instrument, Miteq, Cobham, E2V, MA-COM, Hittite, Mini-Circuits, General Dynamics и др.);

Помимо этого, одним из направлений компании «ЭлектроПласт» является направление «Источники питания». Мы предлагаем Вам помощь Конструкторского отдела:

- Подбор оптимального решения, техническое обоснование при выборе компонента;
- Подбор аналогов;
- Консультации по применению компонента;
- Поставка образцов и прототипов;
- Техническая поддержка проекта;
- Защита от снятия компонента с производства.
