

# RDC10 Linear Type

The high accuracy space saving design contributes to reduced weight and size of sets

## Typical Specifications

| Items                       | Specifications                            |
|-----------------------------|---|
| Rated Voltage               | 5V DC                                     |
| Operating life              | 50,000 cycles (RDC1010)<br>200,000 cycles |
| Total resistance            | 10kΩ                                      |
| Operating temperature range | -30°C to +85°C                            |

## Product Line

| Travel (mm) | Linearity | Length of lever (mm) | Length of terminal (mm) | Minimum order unit (pcs.) |        | Model No.         | Drawing No. |
|-------------|-----------|----------------------|-------------------------|---------------------------|--------|-------------------|-------------|
|             |           |                      |                         | Japan                     | Export |                   |             |
| 10          | ±0.5%     | 1.3                  | 0.8                     | 980                       | 2,940  | <b>RDC1010A12</b> | 1           |
| 14          |           | 4.5                  | 2                       | 2,400                     | 4,800  | <b>RDC1014A09</b> | 2           |
| 22          |           |                      |                         | 2,100                     | 4,200  | <b>RDC1022A05</b> |             |
| 32          |           |                      |                         | 900                       | 1,800  | <b>RDC10320RB</b> |             |
| 47          |           |                      |                         | 1,000                     | 2,000  | <b>RDC1047A03</b> |             |
|             |           | 4.4                  |                         |                           |        |                   |             |

## Notes

1. RDC1014, RDC1022, RDC1032 and RDC1047 Series can be for automotive use.
2. RDC1014, RDC1022, RDC1032 and RDC1047 Series are available in different varieties to the above.  
See Product Varieties (P.463).

## Packing Specifications

### Tray

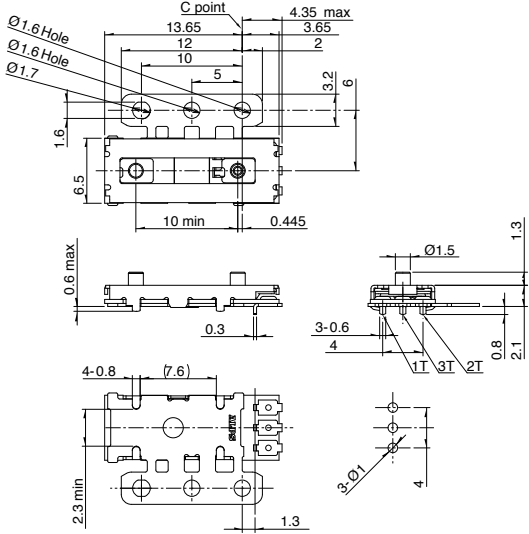

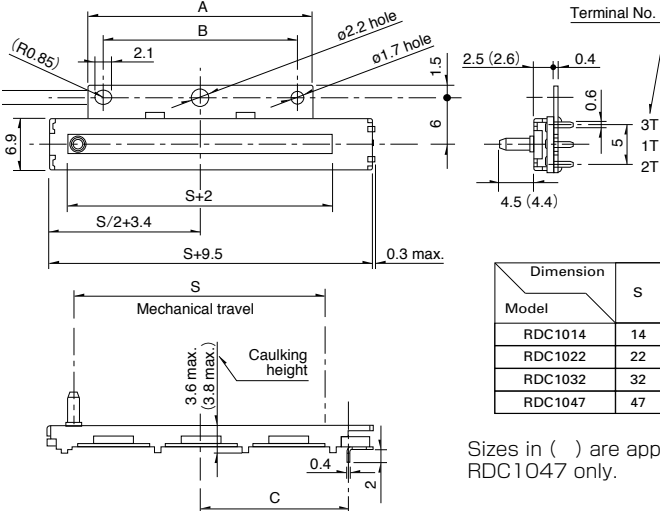

| Model No.      | Number of packages (pcs.) |                        | Export package measurements (mm) |
|----------------|---------------------------|------------------------|----------------------------------|
|                | 1 case /Japan             | 1 case /export packing |                                  |
| <b>RDC1010</b> | 980                       | 2,940                  | 360×270×230                      |
| <b>RDC1014</b> | 2,400                     | 4,800                  | 508×374×272                      |
| <b>RDC1022</b> | 2,100                     | 4,200                  | 508×374×302                      |
| <b>RDC1032</b> | 900                       | 1,800                  | 540×360×205                      |
| <b>RDC1047</b> | 1,000                     | 2,000                  | 508×374×272                      |

**Notes**

1. ※ The RD7 series are used to detect vehicle headlight angles.
2. ● Indicates applicability to all products in the series.

## Reference for Manual Soldering

| Series              | Tip temperature | Soldering time                 |
|---------------------|-----------------|--------------------------------|
| <b>RDC50, RDC90</b> | 350±5°C         | 3 <sup>+1</sup> <sub>0</sub> s |
| <b>RDC10, RD7</b>   | 350°C max.      | 3s max.                        |

## Reference for Dip Soldering

| Series                | Preheating                    |              | Dip soldering         |                | No. of solders |
|-----------------------|-------------------------------|--------------|-----------------------|----------------|----------------|
|                       | Soldering surface temperature | Heating time | Soldering temperature | Soldering time |                |
| <b>RDC501, RDC502</b> | 100 to 150°C                  | 1minute max. | 260±5°C               | 10±1s          | 1 time         |
| <b>RD7</b>            | 100°C max.                    | 1minute max. | 260°C max.            | 5s max.        | 1 time         |

## Example of Reflow Soldering Condition

1. Cleaning sensors should not be attempted.
2. Type of solder to be used Use cream solder that contains 10 to 15 %wt flux.
3. Number of solder applications - apply solder only once
4. Recommended reflow conditions

| Series                   | A     | B     | C     | D     | E     | F     | G   | H     | I     | No. of reflows |
|--------------------------|-------|-------|-------|-------|-------|-------|-----|-------|-------|----------------|
| <b>RDC503<br/>RDC506</b> | 250°C | 230°C | 180°C | 150°C | 2min. | —     | 5s  | 40s   | 4min. | 1 time         |
| <b>RDC90</b>             | 255°C | 230°C | —     | —     | —     | 2min. | 10s | 1min. | 4min. | 1 time         |

## Notes

1. When using an infrared reflow oven, solder may not always be applied as intended. Be sure to use a hot air reflow oven or a type that uses infrared rays in combination with hot air.
2. The temperatures given above are the maximum temperatures at the terminals of the sensor when employing a hot air reflow method. The temperature of the PC board and the surface temperature of the sensor may vary greatly depending on the PC board material, its size and thickness. Ensure that the surface temperature of the sensor does not rise to 250°C or greater.
3. Conditions vary to some extent depending on the type of reflow bath used. Be sure to give due consideration to this prior to use.

Компания «ЭлектроПласт» предлагает заключение долгосрочных отношений при поставках импортных электронных компонентов на взаимовыгодных условиях!

Наши преимущества:

- Оперативные поставки широкого спектра электронных компонентов отечественного и импортного производства напрямую от производителей и с крупнейших мировых складов;
- Поставка более 17-ти миллионов наименований электронных компонентов;
- Поставка сложных, дефицитных, либо снятых с производства позиций;
- Оперативные сроки поставки под заказ (от 5 рабочих дней);
- Экспресс доставка в любую точку России;
- Техническая поддержка проекта, помощь в подборе аналогов, поставка прототипов;
- Система менеджмента качества сертифицирована по Международному стандарту ISO 9001;
- Лицензия ФСБ на осуществление работ с использованием сведений, составляющих государственную тайну;
- Поставка специализированных компонентов (Xilinx, Altera, Analog Devices, Intersil, Interpoint, Microsemi, Aeroflex, Peregrine, Syfer, Eurofarad, Texas Instrument, Miteq, Cobham, E2V, MA-COM, Hittite, Mini-Circuits, General Dynamics и др.);

Помимо этого, одним из направлений компании «ЭлектроПласт» является направление «Источники питания». Мы предлагаем Вам помощь Конструкторского отдела:

- Подбор оптимального решения, техническое обоснование при выборе компонента;
- Подбор аналогов;
- Консультации по применению компонента;
- Поставка образцов и прототипов;
- Техническая поддержка проекта;
- Защита от снятия компонента с производства.
