

COAXIAL, TRIAXIAL, MULTI & MIXED CONNECTORS

SHORT FORM
CATALOGUE

 **LEMO**[®]

Precision modular connectors to suit your application

Since its creation in Switzerland in 1946 the LEMO Group has been recognized as a global leader of circular Push-Pull connectors and connector solutions. Today LEMO and its affiliated companies, REDEL and COELVER, are active in more than 80 countries with the help of over 40 subsidiaries and distributors.

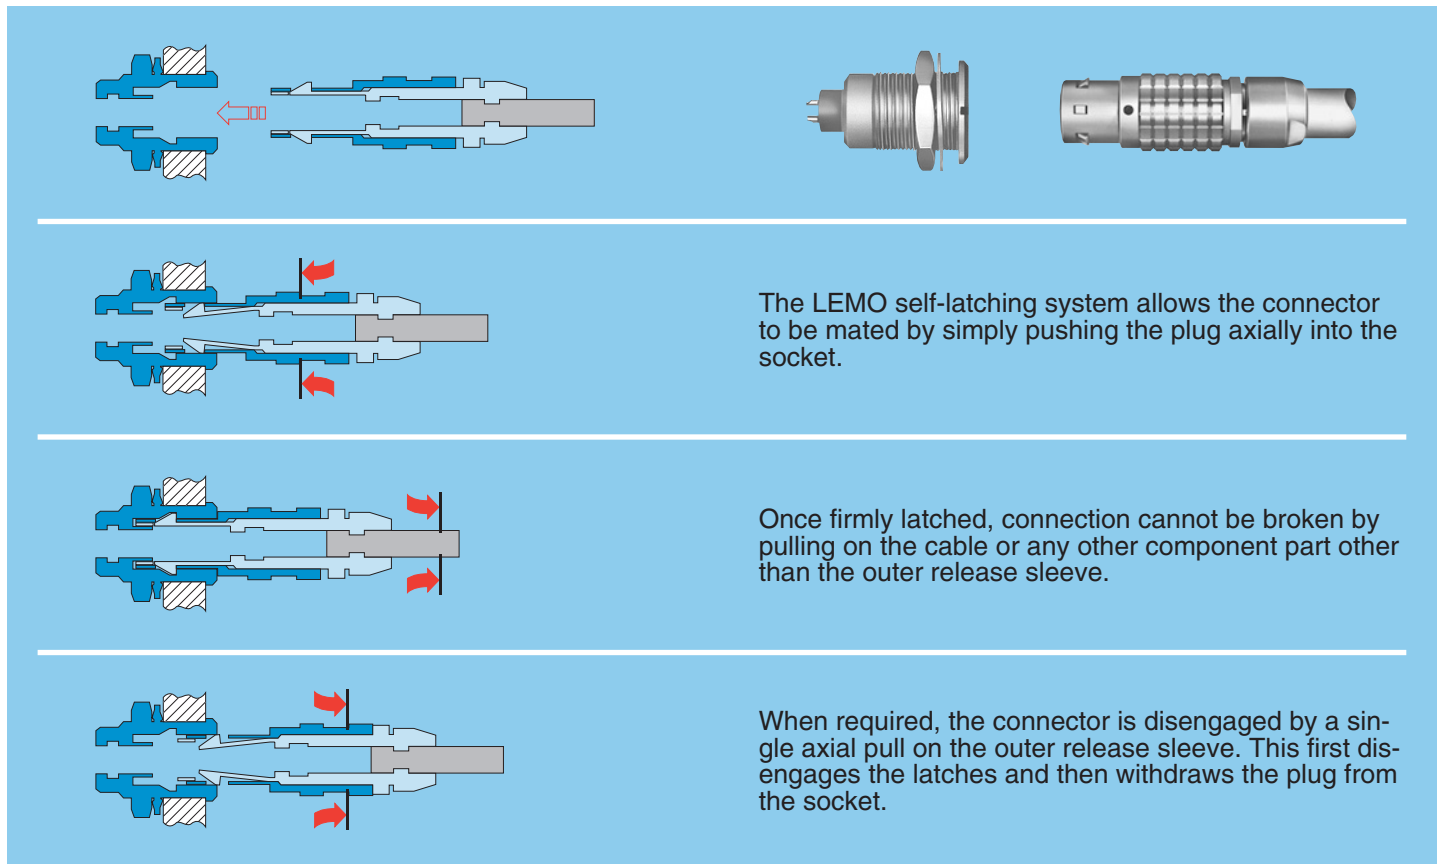

Over 75'000 connectors

The modular design of the LEMO range provides over 75'000 connectors from miniature \varnothing 3 mm to \varnothing 50 mm, capable of handling cable diameters up to 30 mm and for up to 114 contacts.

This vast portfolio enables you to select the ideal connector configuration to suit almost any specific requirement in most markets, including medical devices, test and measurement instruments, machinery, audio video broadcast, telecommunications and military.

LEMO's Push-Pull Self-Latching Connection System

This self-latching system is renowned worldwide for its easy and quick mating and unmating features. It provides absolute security against vibration, shock or pull on the cable, and facilitates operation in a very limited space.

UL Recognition

LEMO connectors are recognized by the Underwriters Laboratories (UL). The approval of the complete system (LEMO connector, cable and your equipment) will be easier because LEMO connectors are recognized.

CE marking

CE marking  means that the appliance or equipment bearing it complies with the protection requirements of one or several European safety directives. CE marking  applies to complete products or equipment, **but not to electromechanical components, such as connectors.**

RoHS

LEMO connector specifications conforms the requirements of the RoHS directive (2011/65/EU) of the European Parliament and the latest amendments. This directive specifies the restrictions of the use of hazardous substances in electrical and electronic equipment marketed in Europe.

Introduction

This catalogue gives the complete description of LEMO connectors with coaxial, triaxial and mixed contacts. Mixed contacts include coaxial and low voltage contact configurations, as well as multi-coaxial contact configurations.

The LEMO manufacturing programme has been extended to almost 40 series divided into 7 product families with specific mating and environmental characteristics. Each series includes a wide variety of plug, socket and coupler models, available in contact configurations adapted to all round cables. The catalogue includes the B, K, S and E Series of the LEMO product range. In addition the 00 Series (triaxial) connector is also represented.

Watertight and vacuumtight models are also available. Since LEMO connectors are perfectly screened and designed to guarantee very low resistance to shell electrical continuity, they are particularly adapted to applications where electromagnetic compatibility (EMC) is important.

Material and treatment

| Component | Material (Standard) | Surface treatment (µm) | | | | | | | | | Notes | |
|--|---|------------------------|----|-----|--------|----|------|----|-----|------------|-------|----|
| | | chrome | | | nickel | | gold | | | black chr. | | |
| | | Cu | Ni | Cr | Cu | Ni | Cu | Ni | Au | Ni | | Cr |
| Outer shell, collet nut, conical nut or notched nut and oversized collet | Brass (UNS C 38500) | 0.5 | 3 | 0.3 | 0.5 | 3 | 0.5 | 3 | 0.5 | 1 | 2 | |
| | Stainless steel (AISI 303, 304 or 316L) | without treatment | | | | | | | | | | |
| | Aluminium alloy (AA 6262A or AA 6023) | anodized | | | | | | | | | | |
| | POM (Delrin® or Ertaceta®), Polyoxymethylene, black | - | | | | | | | | | 1) | |
| | PEEK, Polyether ethercetone, beige | - | | | | | | | | | 2) | |
| | PSU (Udel®), Polysulfone, grey or white | - | | | | | | | | | 3) | |
| | PPSU (Radel®), Polyphenylsulfone, cream | - | | | | | | | | | 3) | |
| Earthing crown | PPS (Ryton®), Polyphenylene sulfide, brown | - | | | | | | | | | 4) | |
| | Bronze (UNS C 54400) or special brass | - | - | - | 0.5 | 3 | 0.5 | 3 | 1.0 | - | - | 5) |
| | Beryllium Copper (UNS C 17300) | - | - | - | 0.5 | 3 | 0.5 | 3 | 1.0 | - | - | 6) |
| Latch sleeve | Stainless steel (AISI 416 or 316L) | without treatment | | | | | | | | | 7) | |
| | Special brass | 0.5 | 3 | 0.3 | 0.5 | 3 | 0.5 | 3 | 0.5 | - | - | |
| Locking washer | Stainless steel (AISI 416 or 316L) | without treatment | | | | | | | | | 7) | |
| | Bronze (UNS C 52100) | - | - | - | 0.5 | 3 | 0.5 | 3 | 0.5 | - | - | |
| Hexagonal or round nut | Brass (UNS C 38500) | - | - | - | 0.5 | 3 | 0.5 | 3 | 0.5 | - | - | |
| | Stainless steel (AISI 303, 304 or 316L) | without treatment | | | | | | | | | 8) | |
| | Aluminium alloy (AA 6262A or AA 6023) | anodized natural | | | | | | | | | 8) | |
| Other metallic components | Brass (UNS C 38500) | - | - | - | 0.5 | 3 | 0.5 | 3 | 0.5 | - | - | |
| | Stainless steel (AISI 303, 304 or 316L) | without treatment | | | | | | | | | | |
| O-ring and gaskets | Silicone MQ/MVQ or FPM/FKM (Viton®) | - | | | | | | | | | 9) | |
| Sealing resin | Epoxy (Araldite® or Stycast®) | - | | | | | | | | | | |

Notes:

standards for surface treatment are as follows:

- chrome-plated: SAE AMS 2460
- nickel-plated: SAE AMS QQ N 290, or MIL DTL 32119
- gold-plated: ISO 27874
- black chrome: MIL-C-14538C with a minimum of 10 µm of lacquer protection

- 1) for FFP, PCP and ERN models of the 0S to 3S series
- 2) for FFP, PCP and ERN models of the 0S to 3S series, FGG and ENG models of the 0B, 1B, 3B and 4B series, FFA and FFC models of the 00 triaxial series

- 3) for the FGG, FGY and ENY models of the 2B to 4B series
- 4) for 00 triaxial series (elbow sockets for printed circuits)
- 5) gold-plating for unipole types
- 6) used in 00 series free and fixed sockets
- 7) AISI 416 steel is used with shells made of AISI 303 or 304
- 8) delivered with free and fixed sockets with aluminium alloy or stainless steel shell
- 9) FPM/FKM (Viton®) o-ring and gaskets are installed upon special request. However standard for vacuumtight models.

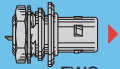

B Series

B series connectors provide the following main features:

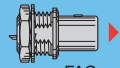

- security of the Push-Pull self-latching system
 - coaxial, triaxial and mixed contact configurations
 - plastic models made of PSU or PPSU
 - multiple key options to avoid cross mating of similar connectors («G» key standard).
- up to 10 coaxial contacts
 - solder or crimp contacts
 - high packing density for space savings
 - 360° screening for full EMC shielding

Model Description

- ECG** Fixed socket with two nuts, key (G) or keys (A...L and R) (back panel mounting)
- EEG** Fixed socket, nut fixing, key (G) or keys (A...L and R) (back panel mounting)
- EGG** Fixed socket, nut fixing, key (G) or keys (A...L and R)
- EHG** Fixed socket, nut fixing, key (G) or keys (A...L and R), and protruding shell
- EJG** Fixed socket, press or adhesive fit, key (G) or keys (A...L)
- EKG** Fixed socket, nut fixing, key (G) or keys (A...L and R), special alignment mark on the front
- ENG** Fixed socket with earthing tag, nut fixing, key (G) or keys (A...L)
- ENG** Fixed socket with earthing tag, nut fixing, key (G or J), PEEK outer shell
- ENY** Fixed socket with earthing tag, nut fixing, keys (Y), PSU or PPSU outer shell
- FAG** Fixed plug, non-latching, nut fixing, key (G) or keys (A...L and R)
- FDG** Straight plug, long version, key (G) or keys (A...L), cable collet

- FEG** Straight plug, key (G) or keys (A...L), cable collet, front seal and nut for fitting a bend relief (IP 54 protection index when mated)
- FFG** Straight plug, non-latching, key (G) or keys (A...L), cable collet
- FGG** Straight plug, key (G) or keys (A...L and R), cable collet
- FGG** Straight plug, key (G) or keys (A...L), cable collet and nut for fitting a bend relief
- FGG** Straight plug, key (G or J), cable collet, PEEK outer shell
- FGG** Straight plug, key (G or J), cable collet, PEEK outer shell, nut for fitting a bend relief
- FGY** Straight plug, keys (Y), cable collet and PSU or PPSU outer shell
- FGY** Straight plug, keys (Y), cable collet and PSU or PPSU outer shell and nut for fitting a bend relief
- FHG** Elbow (90°) plug, key (G) or keys (A...L and R), cable collet
- FIG** Straight plug for remote handling, key (G) or keys (A...L and R), special alignment mark, knurled handling surface, cable collet

- FKG** Elbow (90°) plug for remote handling, key (G) or keys (A...L), special alignment mark, knurled handling surface, cable collet
- FNG** Straight plug, key (G) or keys (A...L and R), cable collet and lanyard release
- FWG** Fixed plug, nut fixing, key (G) or keys (A...L)
- PEG** Fixed socket, nut fixing, key (G) or keys (A...L), cable collet (back panel mounting)
- PFG** Fixed socket, with two nuts, key (G) or keys (A...L and R), cable collet (back panel mounting)
- PHG** Free socket, key (G) or keys (A...L and R), cable collet
- PHG** Free socket, key (G) or keys (A...L), cable collet and nut for fitting a bend relief or keys (A...L and R), cable collet
- PKG** Fixed socket, nut fixing, key (G) or keys (A...L and R), cable collet
- PNG** Free socket, nut fixing, key (G) or keys (A...L and R), cable collet with lanyard release

Part Numbering System

Part Number Example

Straight plug with cable collet:

FGG.3B.844.CLAD111 = straight plug with key (G) and cable collet, 3B series, mixed coax & low voltage type (1 coax and 4 low voltage contacts), outer shell in chrome-plated brass, PEEK insulator, male solder contacts, D type collet for up to 11 mm diameter cable. Cable group 1.

Free socket:

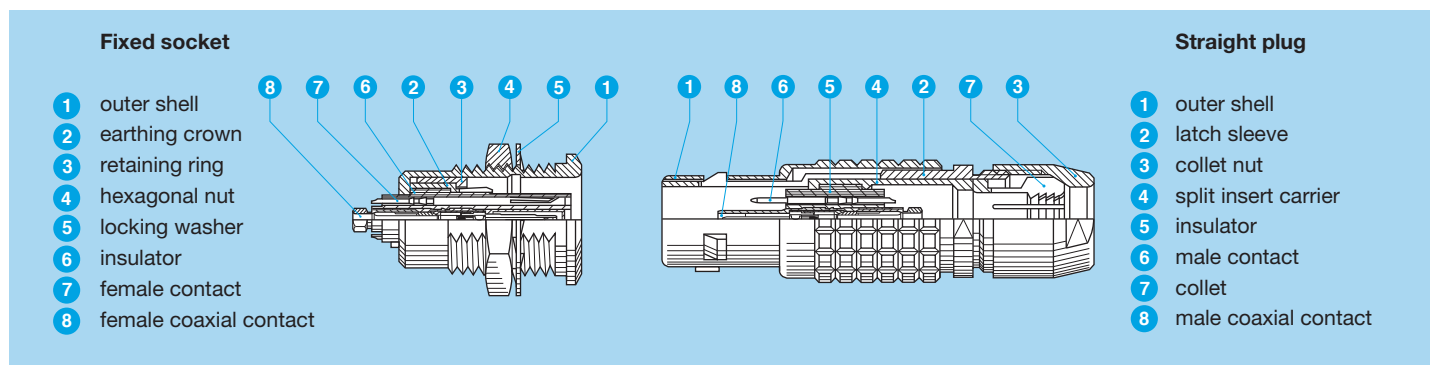

PHG.3B.844.CLLD111 = free socket with key (G) and cable collet, 3B series, mixed coax & low voltage type (1 coax and 4 low voltage contacts), outer shell in chrome-plated brass, PEEK insulator, female solder contacts, D type collet for up to 11 mm diameter cable. Cable group 1.

Fixed socket:

EGG.3B.844.CLL1 = fixed socket, nut fixing, with key (G), 3B series, mixed coax & low voltage type (1 coax and 4 low voltage contacts), outer shell in chrome plated brass, PEEK insulator, female solder contacts. Cable group 1.

Note: ¹⁾ see unipole-multipole catalogue (p. 52).

Part Section Showing Internal Components (mixed coax + LV)

K Series

K series connectors have been specifically designed for outdoor applications.

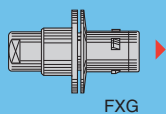

They include an inner sleeve and two seals to prevent penetration of solids or liquids into the housing formed by the plug, free socket or fixed socket. All models of this series are watertight when mated to give a protection index of IP68 as per IEC 60529 standard (in mated condition) when correctly assembled to an appropriate cable (IP66 otherwise).

K series connectors have the same insulators as the B series and have the following main features:

- security of the Push-Pull latching system
- coaxial, triaxial and mixed contact configurations
- solder or crimp contacts
- multiple key options to avoid cross mating of similar connectors («G» key standard)
- watertight connection (IP 68/IP 66)
- up to 10 coaxial contacts
- 360° screening for full EMC shielding
- high packing density for space savings
- rugged housing for extreme working conditions.

Fixed sockets

Model Description

EBG Fixed socket with square flange, key (G) or keys (A to F, L and R) and screw fixing

EDG Fixed socket with square flange, key (G) or keys (A to F, L and R), protruding shell and earthing tag, screw fixing

EEG Fixed socket, nut fixing, key (G) or keys (A to F, L and R) (back panel mounting)

EGG Fixed socket, nut fixing, key (G) or keys (A to F, L and R)

EHG Fixed socket, nut fixing, key (G) or keys (A to F and L), protruding shell

FAG Fixed plug, nut fixing, non-latching, key (G) or keys (A to F, L and R)

FGG Straight plug, key (G) or keys (A to F, L and R), cable collet

FGG Straight plug, key (G) or keys (A to F, L and R), cable collet and oversize cable collet

FGG Straight plug, key (G) or keys (A to F, L and R), cable collet and nut for fitting a bend relief

FHG Elbow (90°) plug, key (G) or keys (A to F, L and R), cable collet

FXG Fixed plug with round flange, key (G) or keys (A to F, L and R) and screw fixing

PEG Fixed socket, nut fixing, key (G) or keys (A to F, L and R), cable collet (back panel mounting)

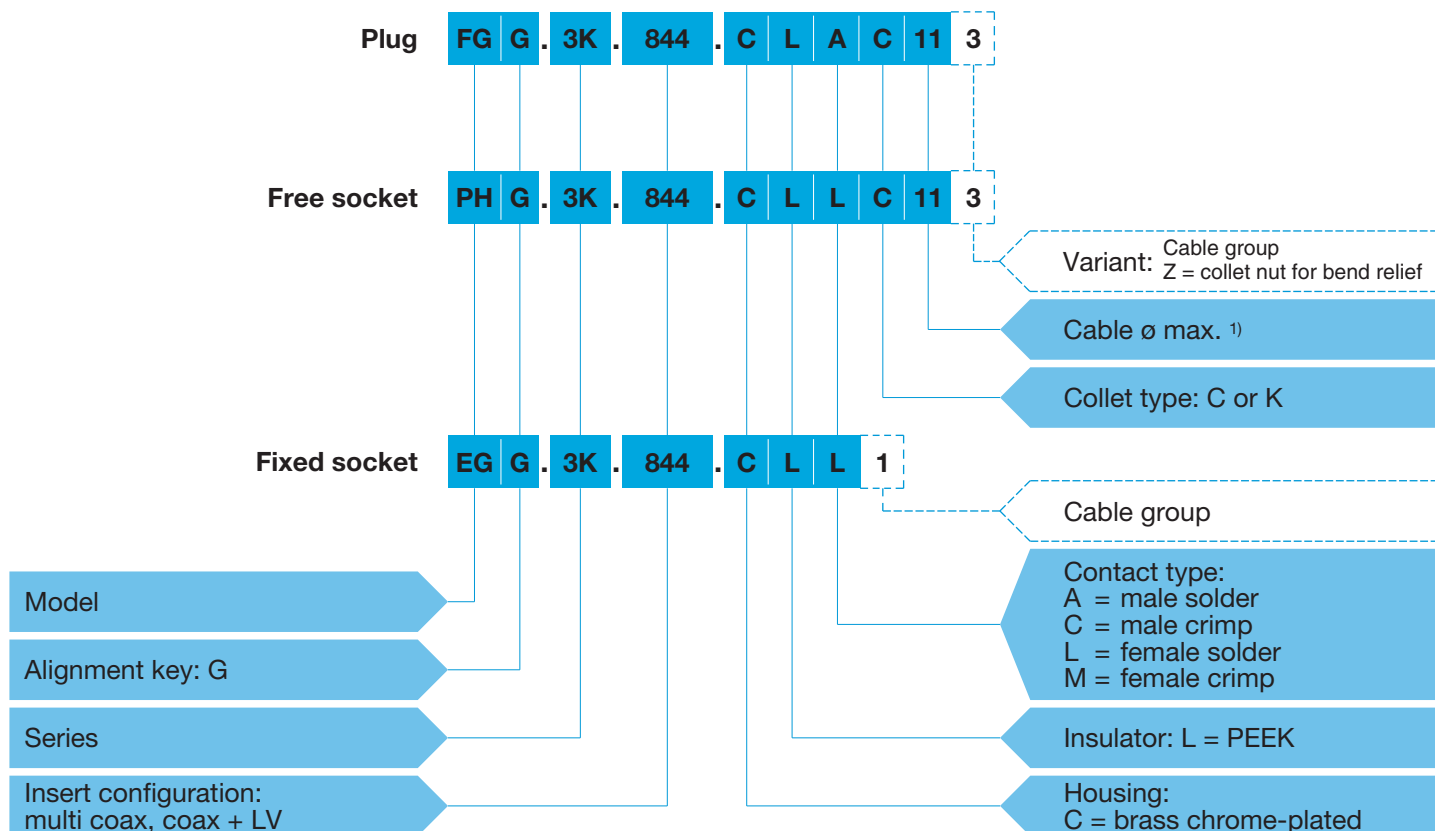

PHG Free socket, key (G) or keys (A to F, L and R), cable collet

PHG Free socket, key (G) or keys (A to F, L and R), cable collet and oversize cable collet

PHG Free socket, key (G) or keys (A to F, L and R), cable collet and nut for fitting a bend relief

PKG Fixed socket, nut fixing, key (G) or keys (A to F, L and R), cable collet

Part Numbering System

Part Number Example

Straight plug with cable collet:

FGG.3K.844.CLAC113 = straight plug with key (G) and cable collet, 3K series, mixed coax & low voltage type (1 coax and 4 low voltage contacts), outer shell in chrome-plated brass, PEEK insulator, male solder contacts, C type collet for 10.5 mm diameter cable. Cable group 3.

Free socket:

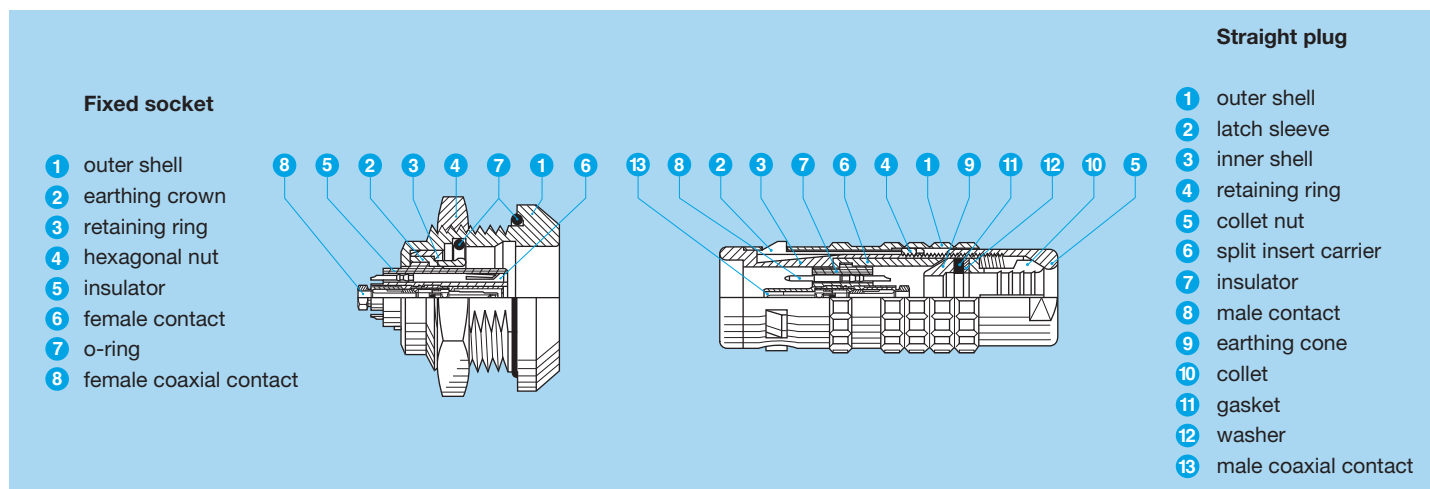

PHG.3K.844.CLLC113 = free socket with key (G) and cable collet, 3K series, mixed coax & low voltage type (1 coax and 4 low voltage contacts), outer shell in chrome-plated brass, PEEK insulator, female solder contacts, C type collet for 10.5 mm diameter cable. Cable group 3.

Fixed socket:

EGG.3K.844.CLL1 = fixed socket, nut fixing, with key (G), 3K series, mixed coax & low voltage type (1 coax and 4 low voltage contacts), outer shell in chrome-plated brass, PEEK insulator, female solder contacts. Cable group 1.

Note: ¹⁾ see unipole-multipole catalogue (p. 53).

Note: ¹⁾ for the 3B.243/3K.243 and 3B.862/3K.862 the extractor is part number DCC.91.393.4LT.

00.650 Series

The 00 Series are available in triax configuration, allowing a very compact solution for triaxial cables.

These connectors are designed for small diameter ranging from 1.1 to 3.5 mm.

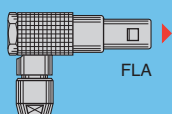

Either twinax (2 shielded connectors) or triax (1 conductor and 2 concentric separate screens) can be used with the 00 Series. The 00 Series with a 650 configuration insert are mostly used in audio-video applications where a large density of connection is required.

LEMO 00 Series connectors offer customers many benefits including:

- self-latching push-pull system
- aesthetically pleasing appearance
- small size
- high packing density
- rugged construction.
- ease of use
- low weight
- reliable performances
- wide choice to suit application

- 6 insulator
- 7 male triaxial contact
- 8 collet

Part Numbering System

Part Number Example

Straight plug with cable collet:

FFC.00.650.CLAC27 = straight plug with flats on latch sleeve and cable collet, 00 Series, triaxial (50 Ω), outer shell in chrome-plated brass, PEEK insulator, C type collet for an up to 2.6 mm diameter cable.

Free socket:

PCA.00.650.CLLC27Z = free socket with cable collet, 00 Series, triaxial (50 Ω), outer shell in chrome-plated brass, PEEK insulator, C type collet for an up to 2.6 mm diameter cable and nut for fitting a bend relief.

Fixed socket:

ERN.00.650.CLL = fixed socket with nut fixing and tags, 00 Series, triaxial (50 Ω), outer shell in chrome-plated brass, PEEK insulator.

Note: ¹⁾ treatment not available for the printed circuit models. ²⁾ available for the FFC model only. ³⁾ standard.

Insert configuration

| | Reference | Series | | Impedance (Ω) | ϕ A (mm) | Cable group | Cond. ϕ max | Dielectric ϕ maxi | Sheath ϕ maxi | VSWR (f=GHz) | Test voltage (kV rms) | Rated current (A) |

| | 650 | 00 | - | 50 | 0.5 | ¹⁾ | 0.55 | 2.9 | 3.5 | 1.02 +0.9f | 0.6 | 4 |

Note: ¹⁾ 00.650 is designed for use with 2 conductors screened cable (twinax).

S Series

S series connectors have main features as follows:

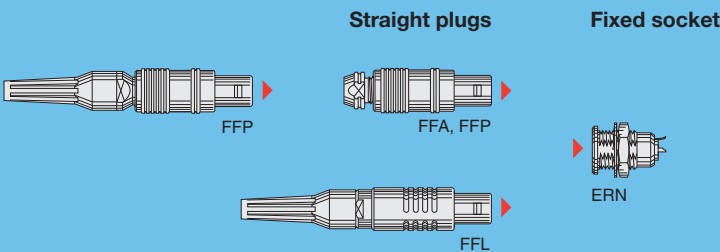

- security of the Push-Pull self-latching system
- solder contacts, print contacts only for coaxial and triaxial configurations
- 360° screening for full EMC shielding.

- coaxial, triaxial and mixed contact configurations
- polarisation by stepped insert (half-moon)
- up to 8 coaxial contacts

Watertight or vacuumtight models

Model Description

| | | |
|--|---|--|
| EBC Fixed socket with square flange, protruding shell and screw fixing | FFA Straight plug, cable collet, PEEK or POM outer shell | HCP Fixed socket, nut fixing, watertight or vacuumtight (back panel mounting) |
| EBD Fixed socket with square flange and screw fixing | FFB Straight plug, cable collet and safety locking ring | HGP Fixed socket, nut fixing, watertight or vacuumtight |
| EBS Fixed socket with round flange and screw fixing | FFE Straight plug, cable collet, front seal and nut for fitting a bend relief (protected to IP54 when mated) | HGW Fixed socket, nut fixing, with back washer, watertight or vacuumtight |
| ECP Fixed socket with two nuts, long threaded shell (back panel mounting) | FFF Straight plug, non-latching, cable collet | PCA Free socket, cable collet |
| EHP Fixed socket, nut fixing, protruding shell | FFP Straight plug, cable collet and inner anti-rotating device | PCA Free socket with oversize cable collet |
| ERA Fixed socket, nut fixing | FFP Straight plug, cable collet, PEEK or POM outer shell | PCA Free socket, cable collet and nut for fitting a bend relief |
| ERC Fixed socket, nut fixing with slot in the flange | FFP Straight plug, cable collet, PEEK or POM outer shell | PCP Free socket, cable collet and inner anti-rotating device |
| ERD Fixed socket with two nuts (back panel mounting) | FFP Straight plug, cable collet, PEEK or POM outer shell, inner anti-rotating device and nut for fitting a bend relief | PSA Fixed socket, nut fixing, cable collet |
| ERN Fixed socket, nut fixing, with earthing tag | FFS Straight plug for cable crimping | PSP Fixed socket, nut fixing, cable collet and inner anti-rotating device |
| ERN Fixed socket, nut fixing, with earthing tag, PEEK or POM outer shell | FLA Elbow (90°) plug, cable collet | PSS Free socket, nut fixing for cable crimping |
| EWB Fixed socket, nut fixing, with two flats on the flange, watertight or vacuumtight | FLA Elbow (90°) plug, cable collet and nut for fitting a bend relief | RAD Fixed coupler, nut fixing |
| FAA Fixed plug non-latching, nut fixing | FLS Elbow (90°) plug for cable crimping | RMA Free coupler |
| FFA Straight plug, cable collet | FRT Straight plug with resistor | SWH Fixed coupler, nut fixing, watertight or vacuumtight |
| FFA Straight plug with oversize cable collet | FTR Elbow (90°) plug with socket | |
| FFA Straight plug, cable collet and nut for fitting a bend relief | FZP Straight plug for remote handling, cable collet and inner anti-rotating device | |

Part Numbering System

Part Number Example

Straight plug with cable collet:

FFA.1S.250.CTAC32 = straight plug with cable collet, 1S series, coaxial (50 Ω), outer shell in chrome-plated brass, PTFE insulator, male solder contact, C type collet for a 3.2 mm diameter cable.

Free socket:

PCA.1S.250.CTLC32Z = free socket with cable collet, 1S series, coaxial (50 Ω), outer shell in chrome-plated brass, PTFE insulator, female solder contact, C type collet for a 3.2 mm diameter cable and nut for fitting a bend relief.

Fixed socket:

ERA.1S.250.CTL = fixed socket, nut fixing, 1S series, coaxial (50 Ω), outer shell in chrome-plated brass, PTFE insulator, female solder contact.

Note: ¹⁾ for mixed contacts, add cable group to the part number.
²⁾ see unipole-multipole catalogue (p. 102).

Part Section Showing Internal Components (mixed coax + LV)

E Series

E series connectors have been specifically designed for outdoor applications.

They include an inner sleeve and two seals to prevent penetration of solids or liquids into the housing formed by the plug, free socket or fixed socket. All models of these series are watertight when mated and give a protection index of IP 68 as per IEC 60529 standard (in mated condition) when correctly assembled to an appropriate cable (IP 66 otherwise).

- security of the Push-Pull latching system
- watertight connection (IP 68/IP 66)
- solder contacts, print contacts only for coaxial and triaxial configurations
- coaxial, triaxial and mixed contact configurations
- polarization by stepped insert (half-moon)
- 360° screening for full EMC shielding
- rugged housing for extreme working condition.

Product safety notice

PLEASE READ AND FOLLOW ALL INSTRUCTIONS CAREFULLY AND CONSULT ALL RELEVANT NATIONAL AND INTERNATIONAL SAFETY REGULATIONS FOR YOUR APPLICATION. IMPROPER HANDLING, CABLE ASSEMBLY, OR WRONG USE OF CONNECTORS CAN RESULT IN HAZARDOUS SITUATIONS.

1. SHOCK AND FIRE HAZARD

Incorrect wiring, the use of damaged components, presence of foreign objects (such as metal debris), and / or residue (such as cleaning fluids), can result in short circuits, overheating, and / or risk of electric shock. Mated components should never be disconnected while live as this may result in an exposed electric arc and local overheating, resulting in possible damage to components.

2. HANDLING

Connectors and their components should be visually inspected for damage prior to installation and assembly. Suspect components should be rejected or returned to the factory for verification. Connector assembly and installation should only be carried out by properly trained personnel. Proper tools must be used during installation and / or assembly in order to obtain safe and reliable performance.

3. USE

Connectors with exposed contacts should never be live (or on the current supply side of a circuit). Under general conditions voltages above 30 VAC and 42 VDC are considered hazardous and proper measures should be taken to eliminate all risk of transmission of such voltages to any exposed metal part of the connector.

4. TEST AND OPERATING VOLTAGES

The maximum admissible operating voltage depends upon the national or international standards in force for the application in question. Air and creepage distances impact the operating voltage; reference values are indicated in the catalog however these may be influenced by PC board design and / or wiring harnesses. The test voltage indicated in the catalog is 75% of the mean breakdown voltage; the test is applied at 500 V/s and the test duration is 1 minute.

5. CE MARKING

CE marking  means that the appliance or equipment bearing it complies with the protection requirements of one or several European safety directives.

CE marking  applies to complete products or equipment, **but not to electromechanical components, such as connectors.**

6. PRODUCT IMPROVEMENTS

The LEMO Group reserves the right to modify and improve to our products or specifications without providing prior notification.

Data subject to change

No reproduction or use without express permission of editorial or pictorial content, in any manner.
LEMO reserve the right at all times to modify and improve specifications without any notification.

Компания «ЭлектроПласт» предлагает заключение долгосрочных отношений при поставках импортных электронных компонентов на взаимовыгодных условиях!

Наши преимущества:

- Оперативные поставки широкого спектра электронных компонентов отечественного и импортного производства напрямую от производителей и с крупнейших мировых складов;
- Поставка более 17-ти миллионов наименований электронных компонентов;
- Поставка сложных, дефицитных, либо снятых с производства позиций;
- Оперативные сроки поставки под заказ (от 5 рабочих дней);
- Экспресс доставка в любую точку России;
- Техническая поддержка проекта, помощь в подборе аналогов, поставка прототипов;
- Система менеджмента качества сертифицирована по Международному стандарту ISO 9001;
- Лицензия ФСБ на осуществление работ с использованием сведений, составляющих государственную тайну;
- Поставка специализированных компонентов (Xilinx, Altera, Analog Devices, Intersil, Interpoint, Microsemi, Aeroflex, Peregrine, Syfer, Eurofarad, Texas Instrument, Miteq, Cobham, E2V, MA-COM, Hittite, Mini-Circuits, General Dynamics и др.);

Помимо этого, одним из направлений компании «ЭлектроПласт» является направление «Источники питания». Мы предлагаем Вам помощь Конструкторского отдела:

- Подбор оптимального решения, техническое обоснование при выборе компонента;
- Подбор аналогов;
- Консультации по применению компонента;
- Поставка образцов и прототипов;
- Техническая поддержка проекта;
- Защита от снятия компонента с производства.
