

## Smart IP Access - Extend KVM control over IP

MODEL NUMBER: **0SU51068**

### Description

#### Add remote IP access to existing servers

Smart IP Access is an IP device that provides remote KVM access to servers and network devices. It provides access via LAN, WAN, or Internet connection to either a single server or to mixed server environments. Smart IP Access is ideal for data centers, high-density server environments, and medium to large businesses that are managed by legacy KVM switches.

#### Preserve your investment

Smart IP Access can be attached to almost any switch or server, making it the perfect add-on device and preserving your existing investment. It comes with configuration definitions for all Tripp Lite and most 3rd party KVM switches.

#### Built-in Serial control

Smart IP Access provides built in remote control to two serial devices. For example, Serial control of power management enables you to reboot remotely and to power servers on and off from any location.

#### 128-bit SSL security

Smart IP Access offers industry standard, 128-bit SSL encryption to prevent security breaches. In addition, the dual IP connection provides redundancy and security.

### Features

- Adds remote KVM control servers, computers, and KVM switches
- Features two ports for remote control of serial devices

### Highlights

- Adds remote KVM control servers, computers, and KVM switches
- Features two ports for remote control of serial devices
- Features dual NIC ports for network redundancy and security
- Able to utilize a standard 56Kbps analog modem connection, while allowing adaptive and configurable bandwidth consumption when accessed via LAN
- SNMP traps for monitoring Smart IP Access events and operation
- Compliant with the Federal Trade Agreements Act (TAA) for GSA Schedule purchases

### System Requirements

#### Operating System

- Host Computer - DOS, Windows, Novell, Linux
- Client Computer - Windows with IE 6.0 or higher

#### Resolution

- Host Computer: Up to 1600 x 1200 @ 85Hz
- Client Computer: Recommended - client computer resolution should be higher than resolution on the host computer

#### Package Includes

- Smart Access Unit
- KVM Cable Kit
- RS232 Cable
- Rackmount Kit

- Features dual NIC ports for network redundancy and security
- Able to utilize a standard 56Kbps analog modem connection, while allowing adaptive and configurable bandwidth consumption when accessed via LAN
- SNMP traps for monitoring Smart IP Access events and operation
- Compliant with the Federal Trade Agreements Act (TAA) for GSA Schedule purchases

## Specifications

| OVERVIEW                            |                            |
|-------------------------------------|----------------------------|
| Users                               | 1                          |
| Accessories Type                    | Remote Management          |
| PHYSICAL                            |                            |
| Color                               | Black                      |
| ENVIRONMENTAL                       |                            |
| Storage Temperature Range           | -40 to 70 C / -40 to 158 F |
| Relative Humidity                   | 80% Non-Condensing         |
| Operating Temperature               | 0 to 40 C / 32 to 104 F    |
| CONNECTIONS                         |                            |
| PC/Server Connections               | VGA; PS/2                  |
| WARRANTY                            |                            |
| Product Warranty Period (Worldwide) | 3-year limited warranty    |

Компания «ЭлектроПласт» предлагает заключение долгосрочных отношений при поставках импортных электронных компонентов на взаимовыгодных условиях!

Наши преимущества:

- Оперативные поставки широкого спектра электронных компонентов отечественного и импортного производства напрямую от производителей и с крупнейших мировых складов;
- Поставка более 17-ти миллионов наименований электронных компонентов;
- Поставка сложных, дефицитных, либо снятых с производства позиций;
- Оперативные сроки поставки под заказ (от 5 рабочих дней);
- Экспресс доставка в любую точку России;
- Техническая поддержка проекта, помощь в подборе аналогов, поставка прототипов;
- Система менеджмента качества сертифицирована по Международному стандарту ISO 9001;
- Лицензия ФСБ на осуществление работ с использованием сведений, составляющих государственную тайну;
- Поставка специализированных компонентов (Xilinx, Altera, Analog Devices, Intersil, Interpoint, Microsemi, Aeroflex, Peregrine, Syfer, Eurofarad, Texas Instrument, Miteq, Cobham, E2V, MA-COM, Hittite, Mini-Circuits, General Dynamics и др.);

Помимо этого, одним из направлений компании «ЭлектроПласт» является направление «Источники питания». Мы предлагаем Вам помощь Конструкторского отдела:

- Подбор оптимального решения, техническое обоснование при выборе компонента;
- Подбор аналогов;
- Консультации по применению компонента;
- Поставка образцов и прототипов;
- Техническая поддержка проекта;
- Защита от снятия компонента с производства.
