∗: The table shows whether each Lighting can be connected to Lighting Controllers. When multiple Lightings are connected to a Lighting Controller, make sure that the total electricity of all connected Lightings does not exceed the electricity of connectable lighting of each Lighting Controller.
◎: Connectable. Light can be continuously emitted.
○: Connectable. Light can be emitted only while the trigger is input.
✕: Not connectable

OMRON
Camera-mount Lighting Controller for FLV Series
FLV-TCC Series

Camera-mount Compact Lighting Controller to Perform Multistage Control with up to 4 Lightings

Product features

- Compact design helps save space in the control panel.
- Lighting intensity can be maintained even with long wiring distances.
- No complicated wiring to the Vision Sensor is required.

<Standard Lighting System>

Camera

Lighting Controller

Lighting

Long distances result in voltage drops and lower light intensities.

<FLV Series>

Camera

Shutter speed:
1/2
of previous speed

Lighting

Power is supplied from the Camera, so light intensity does not decrease even if the Controller and Lighting are separated.
Order Information

Model	Number of Connectable Lightings	Applicable Lighting		Power Supply Voltage	Electricity of Connectable Lighting	Luminance Control Method
		Standard Lighting FLV Series *1	Spot Lighting FLV-EP Series			
FLV-TCC1	1ch	◯	-	24 VDC *2	15W max.	Digital *3
FLV-TCC4	4ch	◯	-			

*1. Standard lighting is all FLV-series Lightings excluding the FLV-EP-series Spot Lightings.
*2. If the total power consumption of Lightings is 7.5 W or less, an external power supply is not required because the power is supplied from the Camera.
*3. Luminance can be controlled by setting from the Vision Sensor Controller.

Camera-mount Lighting Controller for FLV Series FLV-TCC Series

Specification

Item Model	FLV-TCC1	FLV-TCC4
Number of connectable lightings	1	4
Applicable Lighting	FLV series (However, FLV-EP series is excluded.)	
Applicable Cameras	FH-S series, FZ-S series	
Applicable Image Sensor Controller	FH series, FZ5 series	
Input Voltage	Supplied from applicable camera (13 V) or external power supply (24 V)	
External power supply voltage	24 VDC ± 10% (including ripple)	
Recommended power supply	Model S8VS-06024 (manufactured by OMRON, 24 VDC, 2.5 A, 60 W)	
Connectable lighting		
13 VDC for camera supply		
Continuous lighting	7.5 W max.	4ch total 7.5 W max.
Trigger lighting **Simultaneous lighting**	7.5 W max.	4ch total 7.5 W max.
Individual lighting		7.5 W max. for 1ch
24 VDC for external supply		
Continuous lighting	7.5 W max.	4ch total 7.5 W max.
Trigger lighting **Simultaneous lighting**	No duty restriction: 7.5 W max. Duty by 50%: 15 W max.	No duty restriction: 4ch total 7.5 W max. Duty by 50%: 4ch total 15 W max.
Individual lighting		No duty restriction: 7.5 W max. for 1ch Duty by 50%: 15 W max. for 1ch
Drive method	Contrast voltage method	
Lighting method	Trigger lighting, Continuous lighting	
Luminance Control Method	Duty light adjustment or voltage light adjustment Duty light adjustment: PWM frequency of 100 kHz, light adjustment of 255 levels Voltage light adjustment: Light adjustment of 255 levels (all are set with image sensor controller)	
Trigger lighting	Lighting in synchronization with trigger input timing from the controller. (auto setting in accordance with shutter speed)	
Trigger lighting delay time	Ton: 30 µs max.	
Lighting duration setting	Synchronized with the shutter speed of the camera (when the trigger is illuminated)	
Lighting time control	Set with image sensor controller, or synchronized with shutter speed	
External Interface	Camera connection cable (directly connected with the main unit)	
Insulation Resistance	0.5 MΩ (100 VDC)	
Ambient Temperature	Operating: 0 to +50°C, Storage: -15 to +60°C (with no icing or condensation)	
Ambient Humidity	Operating and storage: 35% to 85% (with no condensation)	
Degree of Protection	IP20 (IEC60529)	
Vibration Resistance (destructive)	10 to 150 Hz, (0.7 mm double amplitude) 80 min each in X, Y, and Z directions	
Shock Resistance (destructive)	150 m/s^2 3 times each in 6 directions (up/down, left/right, forward/backward)	
Materials	Case: Aluminum, Cable: PVC	
Weight	Approx: 120 g (including the camera mount plate)	Approx. 130 g (including the camera mount plate)
Accessories	Instruction manual, Camera Mount plate, mounting screws (M2 set screw ✕ 4, M2 flat head screw ✕ 4, M4 flat head screw ✕ 4)	

OMRON

Part Names and Functions
No.	Name	Description
1	Lighting connecting connector	Connects the LED lighting.
2	Camera connecting cable	Connects to the extension connector of the camera.
3	24 V external power supply input terminal block	Connects the 24 VDC power supply.
4	Mounting hole for fixing screw	Holes to mount the screws to secure the Lighting Controller to a mounting plate or device.

Mounting the Controller to the Camera

The Lighting Controller can be mounted to the Camera using the provided Camera Mount plate. Mounting directions are: (1) Upper mount, (2) Right side mount, (3) Left side mount.

(1) Top/Bottom mount   (2) Right side mount   (3) Left side mount
Dimensions
●Lighting Controller

Stationary Lighting Controller
FL-STC Series

The smallest body in the industry is combined with the industry's longest cable at 25 m. Install in essentially any location.

Two-channel models　　　　　　　　**One-channel models**

Product features

●Easy Control and Adjustment of the Lighting

With a compact design small enough to fit in the palm of your hand, the Controller can be built into the control panel or in the gap between production lines.

By using the longest lighting cable in the industry (25 m), the Controller can be installed along with the image processing monitor in a variety of locations. It is possible to adjust the lighting while looking at the screen.

Connect to a Remote Control Panel

Mount to a DIN Rail underneath the Line or in the Gap between Tables

Lighting Control without Programming

This enables light emission synchronized with the camera using essentially any trigger, such as a photoelectric sensor. The Controller be connected to an image processing device to control lighting without any programming on a PLC.

[Control Output]
• PNP/NPN compatible
• Power source: 24 V

[Lighting Emission Controls]
• Lighting triggers can be used individually for each channel.
• Lighting delay and lighting time can be controlled.

Intuitive Digital Light Controls

Digital adjustment of light emission makes it easy to reproduce the lighting environment after line switchovers.

The quantity of light is displayed digitally in 400 levels. Adjust the light in fine detail.
▲ Increases brightness

▼ Decreases brightness

One-channel models	**FL-STC10**	NPN	24 VDC
	FL-STC15	PNP	
Two-channel models	**FL-STC20**	NPN	
	FL-STC25	PNP	

Ratings and Specifications

Product name		One-channel models		Two-channel models	
I/O type		NPN	PNP	NPN	PNP
Model		**FL-STC10**	**FL-STC15**	**FL-STC20**	**FL-STC25**
Power supply voltage		24 VDC±10% (including ripple)			
Power consumption		36 W, 1.5 A max. (including the lighting section)		72 W, 3 A max. (including the lighting section)	
Number of output channels		1		2	
Applicable lights		FL-□ Series *1			
Light control modes	Continuous light emission mode	While the Strobe Controller power source is ON, light is continuously emitted. PWM frequency: 100 kHz, Light adjustment: 400 levels			
	Triggered light emission mode	Light emission is synchronized with an external trigger input. Light emission: Continuous while the trigger is input, or 0.1 to 99.9 ms (set in 0.1-ms increments) PWM frequency: 100 kHz, Light adjustment: 400 levels			
	Strobe light emission mode	Light emission is synchronized with the external trigger input, but twice the amount of light is emitted in comparison with the trigger light emission mode. Light emission pulse width: 0.01 to 5 ms (light adjustment: 500 levels equivalent)			
Light adjustment setting	Operation on the light	Light adjustment mode settings and light adjustment value input: slide switch and directional pad			
	Remote operation	Light adjustment value input: 9-bit binary input			
External interface		Parallel I/O connector (D-sub 15-pin), Terminal block (external trigger input with 2 terminals, power source voltage input with 2 terminals)			
Ambient temperature		Operation: 0 to 40°C, Storage: -15 to 60°C (with no icing or condensation)			
Ambient humidity		Operation or storage: 35% to 85% (with no condensation)			
Vibration resistance		10 to 150 Hz (Double amplitude: 0.7mm), 80 min each in X, Y, and Z directions			
Shock resistance		150 m/s^2 3 times each in 6 direction (up-down, left-right, front-back)			
Materials		Case: PC			
Degree of protection		IEC60529 IP20			
Weight		Approx. 100 g			
Accessories		Instruction manual,Terminal block Connector

●Electrical Specifications

Output circuit	Input circuit
NPN Open-collector 30VDC 50mA max. ON: residual voltage 1.2V max. OFF: leakage current 0.1mA max.	ON: Connected to 0 V or 1.5 V max. OFF: Open (Leakage current: 0.1 mA max.)

●Electrical Specifications

Output circuit	Input circuit
PNP Open-collector 50mA max. ON: residual voltage 1.2V max. OFF: leakage current 0.1mA max.	ON: Connected to power supply voltage or power supply voltage -1.5 V max. OFF: Open (Leakage current: 0.1 mA max.)

Wiring diagram

Pin Arrangement
PARALLEL

DI11 DI12 DI13 DI14 DO1
DI6 DI7 DI8 DI9 DI10
DI1 DI2 DI3 DI4 DI5
Pin No.	Signal	Signal direction	Function	
DI1	D1	Input	Bit 1 of light control data (least significant bit)	(1)CONT/TRIG Mode Light control data is specified using 9 bits of binary data from D1 to D9. The specifiable range is the 400 levels from 1 to 400 (binary 000000001 to 110010000). (2)STB Mode Strobe light emission data is specified in 9 bits of binary data from D1 to D9 The specifiable range is the 500 values from 0.01 to 5.00 ms (binary 000000001 to 111110100). Each bit is 1 for ON and 0 for OFF (open).
DI2	D2	Input	Bit 2 of light control data	
DI3	D3	Input	Bit 3 of light control data	
DI4	D4	Input	Bit 4 of light control data	
DI5	D5	Input	Bit 5 of light control data	
DI6	D6	Input	Bit 6 of light control data	
DI7	D7	Input	Bit 7 of light control data	
DI8	D8	Input	Bit 8 of light control data	
DI9	D9	Input	Bit 9 of light control data (most significant bit)	
DI10	CLR	Input	Error reset input. Errors are reset when the error reset input changes from OFF (open) to ON.	
DI11	SEL	Input	Lighting control channel selection input. OFF (open) specifies channel 1, ON specifies channel 2.	
DI12	SAVE	Input	The light control data (D1 to D9) is saved in the built-in memory when the input changes from OFF (open) to ON.	
DI13	TRIG1	Input	Inputs the light emission trigger signal for channel 1.	
DI14	TRIG2	Input	Inputs the light emission trigger signal for channel 2. (✱)	
DO1	ERR	output	Turns ON when an error occurs.	

✱ An input with the same function as the lighting emission trigger input is also available on the terminal block (pins 1 and 2). When using the trigger input, connect the input line only to the parallel connector or only to the terminal block.It is not possible to use both input lines at the same time.

OMRON

Camera-mount Lighting Controller for FL Series
FL-TCC Series

Camera-mount Compact Lighting Controller Which Requires No Power Supply Nor Lighting Control
Product features

- No separate power supply is required because the power is supplied from the Camera.
- Light is emitted when a trigger signal is received from the Camera.
- Simple connection between the Camera and the Lighting with a single cable

Camera for Vision Sensor

●Lighting Controller

Model	Lighting Controller	
Model Name	FL-TCC1	
Input Voltage	Supplied from compatible camera.	
Compatible Cameras	FH-S/SC/S02/SC02/S04/SC04, FZ-S/SC/S2M/SC2M/S5M2/SC5M2/SH/SHC/SF/SFC/SP/SPC and others. (✽)	
Compatible Controllers	FH Series, FZ5 Series, FZ4 Series, FZ3 Series (H900, H950, H700, H750, H300, H350, L350) and others. (✽)	
Currant Consumption	MAX 10W, 0.9A (Lighting Included)	
Lighting Channel	1	
Applicable Lighting	FL-□ series	
Luminance Control Method	**Functions**	PWM frequency: 100 KHz, Control step: 255 steps (configurable from the Controller)
	Trigger lighting	Lighting ON synchronized with trigger input timing from the Controller. (Auto setting in accordance with the shutter speed.)
	Trigger lighting delay time	Ton: 30 μs max. (Trigger ready μs) Toff: 10 μs max.
External Interface	Dedicated communication connector	
Ambient Temperature	Operating: 0 to +50°C, Storage: -15 to +60°C (with no icing or condensation)	
Ambient Humidity	Operating and storage: 35% to 85% (with no condensation)	
Vibration resistance	10 to 55 Hz, (0.7mm double amplitude) 80 min each in X, Y, and Z directions	
Shock resistance	150 m/s^2 3 times each in 6 directions (up/down, left/right, forward/backward)	
Materials	Case: SECC, Cable: PVC	
Degree of Protection	IP20 (IEC60529)	
Weight	Approx. 110 g	
Accessories	Instruction sheet, Insulation Sheet, Mounting screw (M2 × 6 mm) × 4

OMRON

Standard Lens
SV-V Series

- Standard CCTV lens.
- Lineup of 9 models with focal lengths ranging from 6 to 100 mm.
- Locking set screws for focus and iris.
- More robust structure designed for machine vision.
- Lower distortion and higher resolution than previous CCTV lenses.

OMRON

VS-MC Series

- Lineup of 7 models with focal lengths ranging from 15 to 75 mm.
- A fixation ring is used to fasten to the surface.
- Internal structure of the lens is designed to strengthen against vibration to achieve higher resistance to vibration than previous lenses, which allows the lens to be moved or to be used in a place subject to vibration.
- Install in narrow space without a locking set screw.

OMRON
Terms and Conditions of Sale

1. Offer; Acceptance. These terms and conditions (these "Terms") are deemed part of all quotes, agreements, purchase orders, acknowledgments, price lists, catalogs, manuals, brochures and other documents, whether electronic or in writing, relating to the sale of products or services (collectively, the "Products") by Omron Electronics LLC and its subsidiary companies ("Omron"). Omron objects to any terms or conditions proposed in Buyer's purchase order or other documents which are inconsistent with, or in addition to, these Terms.
2. Prices; Payment Terms. All prices stated are current, subject to change without notice by Omron. Omron reserves the right to increase or decrease prices on any unshipped portions of outstanding orders. Payments for Products are due net 30 days unless otherwise stated in the invoice.
3. Discounts. Cash discounts, if any, will apply only on the net amount of invoices sent to Buyer after deducting transportation charges, taxes and duties, and will be allowed only if (i) the invoice is paid according to Omron's payment terms and (ii) Buyer has no past due amounts.
4. Interest. Omron, at its option, may charge Buyer 1-1/2% interest per month or the maximum legal rate, whichever is less, on any balance not paid within the stated terms.
5. Orders. Omron will accept no order less than $200 net billing.
6. Governmental Approvals. Buyer shall be responsible for, and shall bear all costs involved in, obtaining any government approvals required for the importation or sale of the Products.
7. Taxes. All taxes, duties and other governmental charges (other than general real property and income taxes), including any interest or penalties thereon, imposed directly or indirectly on Omron or required to be collected directly or indirectly by Omron for the manufacture, production, sale, delivery, importation, consumption or use of the Products sold hereunder (including customs duties and sales, excise, use, turnover and license taxes) shall be charged to and remitted by Buyer to Omron.
8. Financial. If the financial position of Buyer at any time becomes unsatisfactory to Omron, Omron reserves the right to stop shipments or require satisfactory security or payment in advance. If Buyer fails to make payment or otherwise comply with these Terms or any related agreement, Omron may (without liability and in addition to other remedies) cancel any unshipped portion of Products sold hereunder and stop any Products in transit until Buyer pays all amounts, including amounts payable hereunder, whether or not then due, which are owing to it by Buyer. Buyer shall in any event remain liable for all unpaid accounts.
9. Cancellation; Etc. Orders are not subject to rescheduling or cancellation unless Buyer indemnifies Omron against all related costs or expenses.
10. Force Majeure. Omron shall not be liable for any delay or failure in delivery resulting from causes beyond its control, including earthquakes, fires, floods, strikes or other labor disputes, shortage of labor or materials, accidents to machinery, acts of sabotage, riots, delay in or lack of transportation or the requirements of any government authority.
11. Shipping; Delivery. Unless otherwise expressly agreed in writing by Omron:
a. Shipments shall be by a carrier selected by Omron; Omron will not drop ship except in "break down" situations.
b. Such carrier shall act as the agent of Buyer and delivery to such carrier shall constitute delivery to Buyer;
c. All sales and shipments of Products shall be FOB shipping point (unless otherwise stated in writing by Omron), at which point title and risk of loss shall pass from Omron to Buyer; provided that Omron shall retain a security interest in the Products until the full purchase price is paid;
d. Delivery and shipping dates are estimates only; and
e. Omron will package Products as it deems proper for protection against normal handling and extra charges apply to special conditions.
12. Claims. Any claim by Buyer against Omron for shortage or damage to the Products occurring before delivery to the carrier must be presented in writing to Omron within 30 days of receipt of shipment and include the original transportation bill signed by the carrier noting that the carrier received the Products from Omron in the condition claimed.
13. Warranties. (a) Exclusive Warranty. Omron's exclusive warranty is that the Products will be free from defects in materials and workmanship for a period of twelve months from the date of sale by Omron (or such other period expressed in writing by Omron). Omron disclaims all other warranties, express or implied. (b) Limitations. OMRON MAKES NO WARRANTY OR REPRESENTATION, EXPRESS OR IMPLIED, ABOUT NON-INFRINGEMENT, MERCHANTABIL-

ITY OR FITNESS FOR A PARTICULAR PURPOSE OF THE PRODUCTS. BUYER ACKNOWLEDGES THAT IT ALONE HAS DETERMINED THAT THE PRODUCTS WILL SUITABLY MEET THE REQUIREMENTS OF THEIR INTENDED USE. Omron further disclaims all warranties and responsibility of any type for claims or expenses based on infringement by the Products or otherwise of any intellectual property right. (c) Buyer Remedy. Omron's sole obligation hereunder shall be, at Omron's election, to (i) replace (in the form originally shipped with Buyer responsible for labor charges for removal or replacement thereof) the non-complying Product, (ii) repair the non-complying Product, or (iii) repay or credit Buyer an amount equal to the purchase price of the non-complying Product; provided that in no event shall Omron be responsible for warranty, repair, indemnity or any other claims or expenses regarding the Products unless Omron's analysis confirms that the Products were properly handled, stored, installed and maintained and not subject to contamination, abuse, misuse or inappropriate modification. Return of any Products by Buyer must be approved in writing by Omron before shipment. Omron Companies shall not be liable for the suitability or unsuitability or the results from the use of Products in combination with any electrical or electronic components, circuits, system assemblies or any other materials or substances or environments. Any advice, recommendations or information given orally or in writing, are not to be construed as an amendment or addition to the above warranty. See http://www.omron247.com or contact your Omron representative for published information.
14. Limitation on Liability; Etc. OMRON COMPANIES SHALL NOT BE LIABLE FOR SPECIAL, INDIRECT, INCIDENTAL, OR CONSEQUENTIAL DAMAGES, LOSS OF PROFITS OR PRODUCTION OR COMMERCIAL LOSS IN ANY WAY CONNECTED WITH THE PRODUCTS, WHETHER SUCH CLAIM IS BASED IN CONTRACT, WARRANTY, NEGLIGENCE OR STRICT LIABILITY. Further, in no event shall liability of Omron Companies exceed the individual price of the Product on which liability is asserted.
15. Indemnities. Buyer shall indemnify and hold harmless Omron Companies and their employees from and against all liabilities, losses, claims, costs and expenses (including attorney's fees and expenses) related to any claim, investigation, litigation or proceeding (whether or not Omron is a party) which arises or is alleged to arise from Buyer's acts or omissions under these Terms or in any way with respect to the Products. Without limiting the foregoing, Buyer (at its own expense) shall indemnify and hold harmless Omron and defend or settle any action brought against such Companies to the extent based on a claim that any Product made to Buyer specifications infringed intellectual property rights of another party.
16. Property; Confidentiality. Any intellectual property in the Products is the exclusive property of Omron Companies and Buyer shall not attempt to duplicate it in any way without the written permission of Omron. Notwithstanding any charges to Buyer for engineering or tooling, all engineering and tooling shall remain the exclusive property of Omron. All information and materials supplied by Omron to Buyer relating to the Products are confidential and proprietary, and Buyer shall limit distribution thereof to its trusted employees and strictly prevent disclosure to any third party.
17. Export Controls. Buyer shall comply with all applicable laws, regulations and licenses regarding (i) export of products or information; (iii) sale of products to "forbidden" or other proscribed persons; and (ii) disclosure to non-citizens of regulated technology or information.
18. Miscellaneous. (a) Waiver. No failure or delay by Omron in exercising any right and no course of dealing between Buyer and Omron shall operate as a waiver of rights by Omron. (b) Assignment. Buyer may not assign its rights hereunder without Omron's written consent. (c) Law. These Terms are governed by the law of the jurisdiction of the home office of the Omron company from which Buyer is purchasing the Products (without regard to conflict of law principles). (d) Amendment. These Terms constitute the entire agreement between Buyer and Omron relating to the Products, and no provision may be changed or waived unless in writing signed by the parties. (e) Severability. If any provision hereof is rendered ineffective or invalid, such provision shall not invalidate any other provision. (f) Setoff. Buyer shall have no right to set off any amounts against the amount owing in respect of this invoice. (g) Definitions. As used herein, "including" means "including without limitation"; and "Omron Companies" (or similar words) mean Omron Corporation and any direct or indirect subsidiary or affiliate thereof.

Certain Precautions on Specifications and Use

1. Suitability of Use. Omron Companies shall not be responsible for conformity with any standards, codes or regulations which apply to the combination of the Product in the Buyer's application or use of the Product. At Buyer's request, Omron will provide applicable third party certification documents identifying ratings and limitations of use which apply to the Product. This information by itself is not sufficient for a complete determination of the suitability of the Product in combination with the end product, machine, system, or other application or use. Buyer shall be solely responsible for determining appropriateness of the particular Product with respect to Buyer's application, product or system. Buyer shall take application responsibility in all cases but the following is a non-exhaustive list of applications for which particular attention must be given: (i) Outdoor use, uses involving potential chemical contamination or electrical interference, or conditions or uses not described in this document.
(ii) Use in consumer products or any use in significant quantities.
(iii) Energy control systems, combustion systems, railroad systems, aviation systems, medical equipment, amusement machines, vehicles, safety equipment, and installations subject to separate industry or government regulations.
(iv) Systems, machines and equipment that could present a risk to life or property. Please know and observe all prohibitions of use applicable to this Product.
NEVER USE THE PRODUCT FOR AN APPLICATION INVOLVING SERIOUS RISK TO LIFE OR PROPERTY OR IN LARGE QUANTITIES WITHOUT ENSURING THAT THE SYSTEM AS A WHOLE HAS BEEN DESIGNED TO

ADDRESS THE RISKS, AND THAT THE OMRON'S PRODUCT IS PROPERLY RATED AND INSTALLED FOR THE INTENDED USE WITHIN THE OVERALL EQUIPMENT OR SYSTEM.
2. Programmable Products. Omron Companies shall not be responsible for the user's programming of a programmable Product, or any consequence thereof.
3. Performance Data. Data presented in Omron Company websites, catalogs and other materials is provided as a guide for the user in determining suitability and does not constitute a warranty. It may represent the result of Omron's test conditions, and the user must correlate it to actual application requirements. Actual performance is subject to the Omron's Warranty and Limitations of Liability.
4. Change in Specifications. Product specifications and accessories may be changed at any time based on improvements and other reasons. It is our practice to change part numbers when published ratings or features are changed, or when significant construction changes are made. However, some specifications of the Product may be changed without any notice. When in doubt, special part numbers may be assigned to fix or establish key specifications for your application. Please consult with your Omron's representative at any time to confirm actual specifications of purchased Product.
5. Errors and Omissions. Information presented by Omron Companies has been checked and is believed to be accurate; however, no responsibility is assumed for clerical, typographical or proofreading errors or omissions.

Компания «ЭлектроПласт» предлагает заключение долгосрочных отношений при поставках импортных электронных компонентов на взаимовыгодных условиях!

Наши преимущества:

- Оперативные поставки широкого спектра электронных компонентов отечественного и импортного производства напрямую от производителей и с крупнейших мировых складов;
- Поставка более 17-ти миллионов наименований электронных компонентов;
- Поставка сложных, дефицитных, либо снятых с производства позиций;
- Оперативные сроки поставки под заказ (от 5 рабочих дней);
- Экспресс доставка в любую точку России;
- Техническая поддержка проекта, помощь в подборе аналогов, поставка прототипов;
- Система менеджмента качества сертифицирована по Международному стандарту ISO 9001;
- Лицензия ФСБ на осуществление работ с использованием сведений, составляющих государственную тайну;
- Поставка специализированных компонентов (Xilinx, Altera, Analog Devices, Intersil, Interpoint, Microsemi, Aeroflex, Peregrine, Syfer, Eurofarad, Texas Instrument, Miteq, Cobham, E2V, MA-COM, Hittite, Mini-Circuits,General Dynamics и др.);

Помимо этого, одним из направлений компании «ЭлектроПласт» является направление «Источники питания». Мы предлагаем Вам помощь Конструкторского отдела:

- Подбор оптимального решения, техническое обоснование при выборе компонента;
- Подбор аналогов;
- Консультации по применению компонента;
- Поставка образцов и прототипов;
- Техническая поддержка проекта;
- Защита от снятия компонента с производства.
