

# MOS FET Relays G3VM Series

## Wide Range of Contact Forms, Sizes and Package Types

- Controls load voltages up to 600 V.
- Terminal packages include PCB through-hole, SMT gullwing, SOP, and SSOP.
- Low ON-resistance, low output capacitance, current limiting, and high dielectric (5000 VAC) models available.
- Packaged for efficient automatic insertion: PCB through-hole and SMT are in tubes; tape-and-reel packaging is standard for SOP and SSOP models, and optional for SMT models ("TR" suffix).
- Complete specifications follow, divided by Package Type, Terminals and Contact Form.

## Typical Applications

### ■ Communications

- Local area network equipment
- Central office circuit boards for subscriber line interfaces, multiplexers and other routing equipment
- Wireless communications for cell phones and pagers
- Set-top TV boxes with internal modems
- Fax machines
- PCMCIA card
- Internal modems for PDA equipment and laptop computers

### ■ Test & Measurement

- Board testers
- IC testers
- Portable voltage testers

### ■ Security

- Alarm control boards
- Home security systems
- Garage door openers

# Selection Guide

Load voltage	Contact form	Package/Terminal shape	No. of terminals	Model	Load current (mA)	Voltage withstand (VAC)	ON resistance (max.)	Output capacitance	Additional features	Page no.				
20V	1 Form A	SMT	8	<b>G3VM-22FO</b>	150	2,500	4 Ω	8 pF (typ.)	Low ON resistance	62				
			4	<b>G3VM-21GR</b>	160	1,500	8 Ω	2.5 pF (max.)	Low pF•Ω	70

# Part Number Index and Ordering Information

Note: "G3VM" is not printed on the actual product.

The following tables show standard quantities of G3VM relays as shipped in tubes or tape-and-reel packaging. Dimensions for tape-and-reel parts are shown in individual data sheets that follow.

Description	Packaging	Standard pack quantity	Model	Page no.
MOSFET THRU-HOLE RELAY	Tube	50	G3VM-2	30
MOSFET SMT RELAY	Tube	50	G3VM-2F	50
MOSFET SMT RELAY	Tape-and-reel	1500	G3VM-2F(TR)	50
MOSFET SMT RELAY	Tube	50	G3VM-2FL	50
MOSFET SMT RELAY	Tape-and-reel	1500	G3VM-2FL(TR)	50
MOSFET THRU-HOLE RELAY	Tube	50	G3VM-2L	30
MOSFET SOP RELAY	Tube	50	G3VM-21GR	70
MOSFET SOP RELAY	Tape-and-reel	2500	G3VM-21GR(TR)	70
MOSFET SOP RELAY	Tube	50	G3VM-21GR1	70
MOSFET SOP RELAY	Tape-and-reel	2500	G3VM-21GR1(TR)	70
MOSFET SSOP RELAY	Tape-and-reel	1500	G3VM-21LR	88
MOSFET SSOP RELAY	Tape-and-reel	1500	G3VM-21LR1	88
MOSFET SMT RELAY	Tube	50	G3VM-22FO	62
MOSFET SMT RELAY	Tape-and-reel	1500	G3VM-22FO(TR)	62
MOSFET THRU-HOLE RELAY	Tube	50	G3VM-3	36
MOSFET SMT RELAY	Tube	50	G3VM-3F	56
MOSFET SMT RELAY	Tape-and-reel	1500	G3VM-3F(TR)	56
MOSFET SMT RELAY	Tube	50	G3VM-3FL	56
MOSFET SMT RELAY	Tape-and-reel	1500	G3VM-3FL(TR)	56
MOSFET THRU-HOLE RELAY	Tube	50	G3VM-3L	36
MOSFET THRU-HOLE RELAY	Tube	50	G3VM-351A	30
MOSFET THRU-HOLE RELAY	Tube	50	G3VM-351B	34
MOSFET SMT RELAY	Tube	50	G3VM-351D	50
MOSFET SMT RELAY	Tape-and-reel	1500	G3VM-351D(TR)	50
MOSFET SMT RELAY	Tube	50	G3VM-351E	54
MOSFET SMT RELAY	Tape-and-reel	1500	G3VM-351E(TR)	54
MOSFET SOP RELAY	Tube	50	G3VM-351G	70
MOSFET SOP RELAY	Tape-and-reel	2500	G3VM-351G(TR)	70
MOSFET SOP RELAY	Tube	50	G3VM-351H	78
MOSFETSOP RELAY	Tape-and-reel	2500	G3VM-351H(TR)	78
MOSFET THRU-HOLE RELAY	Tube	50	G3VM-352C	44
MOSFET SMT RELAY	Tube	50	G3VM-352F	66
MOSFET SMT RELAY	Tape-and-reel	1500	G3VM-352F(TR)	66
MOSFET SOP RELAY	Tube	50	G3VM-352J	82
MOSFET SOP RELAY	Tape-and-reel	2500	G3VM-352J(TR)	82

E	$1.75 \pm 0.1$	From the edge to reel hole
D	$5.5 \pm 0.1$	From reel hole to center

Reel Figuration

(Unit: mm)

Symbol	Dimension
A	$\phi 380 \pm 2.0$
W1	$17.5 \pm 0.5$
W2	$21.5 \pm 1.0$
B	$\phi 80 \pm 1.0$
C	$\phi 13 \pm 0.5$
E	$2.0 \pm 0.5$
U	$4.0 \pm 0.5$

# Precautions

## ⚠ WARNING

Always turn the power off before wiring, or an electric shock may occur.

Do not touch the SSR terminal section (the recharge section) while the power supply is connected. Contact with the recharge section will result in an electric shock.

## ⚠ Caution

Do not use excess voltage or current in the SSR input or output circuits. Otherwise, damage to the SSR or a fire will result.

Conduct wiring and soldering correctly according to soldering conditions. If the product is used with incomplete wiring, overheating will occur and may result in a fire.

## ■ Reflow Solder Conditions

G3VM relays are designed to withstand a maximum soldering temperature of 260°C for 10 seconds.

## ■ Typical Relay Driving Circuit Examples

### C-MOS

### Transistor

Use the following formula to obtain the LED current limiting resistance value to assure that the Relay operates accurately.

$$R_1 = \frac{V_{CC} - V_{OL} - V_F(ON)}{5 \text{ to } 20 \text{ mA}}$$

Use the following formula to obtain the LED forward voltage value to assure that the Relay releases accurately.

$$V_{F(OFF)} = V_{CC} - V_{OH} < 0.8 \text{ V}$$

## ■ Protection from Surge Voltage on the Input Terminals

If any reversed surge voltage is imposed on the input terminals, insert a diode in parallel to the input terminals as shown in the following circuit diagram and do not impose a reversed voltage value of 3 V or more.

### Spike Voltage Protection Circuit Example

## ■ Protection from Spike Voltage on the Output Terminals

If a spike voltage exceeding the absolute maximum rated value is generated between the output terminals, insert a C-R snubber or clamping diode in parallel to the load as shown in the following circuit diagram to limit the spike voltage.

### Spike Voltage Protection Circuit Example

## ■ Unused Terminals

Terminal 3 is connected to the internal circuit. Do not connect anything to terminal 3 externally.

## ■ Relay Holding Force for Automatic Mounting

A Relay must not be imposed with a force exceeding 200 gf (1.96 N) in the A or B direction shown in the following illustration when the Relay is mounted automatically, or the characteristics of the Relay may change.

## ■ Load Connection

Do not short-circuit the input and output terminals while the Relay is operating or the Relay may malfunction.

### AC Connection

### DC Single Connection

### DC Parallel Connection

## Certain Terms and Conditions of Sale

1. **Offer; Acceptance.** These terms and conditions (these "Terms") are deemed part of all catalogs, manuals or other documents, whether electronic or in writing, relating to the sale of goods or services (collectively, the "Goods") by Omron Electronic Components LLC and its subsidiary companies ("Seller"). Seller hereby objects to any terms or conditions proposed in Buyer's purchase order or other documents which are inconsistent with, or in addition to, these Terms. Please contact your Omron representative to confirm any additional terms for sales from your Omron company.
2. **Prices.** All prices stated are current, subject to change without notice by Seller. Buyer agrees to pay the price in effect at time of shipment.
3. **Discounts.** Cash discounts, if any, will apply only on the net amount of invoices sent to Buyer after deducting transportation charges, taxes and duties, and will be allowed only if (i) the invoice is paid according to Seller's payment terms and (ii) Buyer has no past due amounts owing to Seller.
4. **Orders.** Seller will accept no order less than \$200 net billing.
5. **Governmental Approvals.** Buyer shall be responsible for, and shall bear all costs involved in, obtaining any government approvals required for the importation or sale of the Goods.
6. **Taxes.** All taxes, duties and other governmental charges (other than general real property and income taxes), including any interest or penalties thereon, imposed directly or indirectly on Seller or required to be collected directly or indirectly by Seller for the manufacture, production, sale, delivery, importation, consumption or use of the Goods sold hereunder (including customs duties and sales, excise, use, turnover and license taxes) shall be charged to and remitted by Buyer to Seller.
7. **Financial.** If the financial position of Buyer at any time becomes unsatisfactory to Seller, Seller reserves the right to stop shipments or require satisfactory security or payment in advance. If Buyer fails to make payment or otherwise comply with these Terms or any related agreement, Seller may (without liability and in addition to other remedies) cancel any unshipped portion of Goods sold hereunder and stop any Goods in transit until Buyer pays all amounts, including amounts payable hereunder, whether or not then due, which are owing to it by Buyer. Buyer shall in any event remain liable for all unpaid accounts.
8. **Cancellation; Etc.** Orders are not subject to rescheduling or cancellation unless Buyer indemnifies Seller fully against all costs or expenses arising in connection therewith.
9. **Force Majeure.** Seller shall not be liable for any delay or failure in delivery resulting from causes beyond its control, including earthquakes, fires, floods, strikes or other labor disputes, shortage of labor or materials, accidents to machinery, acts of sabotage, riots, delay in or lack of transportation or the requirements of any government authority.
10. **Shipping; Delivery.** Unless otherwise expressly agreed in writing by Seller:
  - a. Shipments shall be by a carrier selected by Seller;
  - b. Such carrier shall act as the agent of Buyer and delivery to such carrier shall constitute delivery to Buyer;
  - c. All sales and shipments of Goods shall be FOB shipping point (unless otherwise stated in writing by Seller), at which point title to and all risk of loss of the Goods shall pass from Seller to Buyer, provided that Seller shall retain a security interest in the Goods until the full purchase price is paid by Buyer;
  - d. Delivery and shipping dates are estimates only.
  - e. Seller will package Goods as it deems proper for protection against normal handling and extra charges apply to special conditions.
11. **Claims.** Any claim by Buyer against Seller for shortage or damage to the Goods occurring before delivery to the carrier must be presented in writing to Seller within 30 days of receipt of shipment and include the original transportation bill signed by the carrier noting that the carrier received the Goods from Seller in the condition claimed.
12. **Warranties.** (a) **Exclusive Warranty.** Seller's exclusive warranty is that the Goods will be free from defects in materials and workmanship for a period of twelve months from the date of sale by Seller (or such other period expressed in writing by Seller). Seller disclaims all other warranties, express or implied. (b) **Limitations.** SELLER MAKES NO WARRANTY OR REPRESENTATION, EXPRESS OR IMPLIED, ABOUT NON-INFRINGEMENT, MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE OF THE GOODS. BUYER ACKNOWLEDGES THAT IT ALONE HAS DETERMINED THAT THE GOODS WILL SUITABLY MEET THE REQUIREMENTS OF THEIR INTENDED USE. Seller further disclaims all warranties and responsibility of any type for claims or expenses based on infringement by the Goods or otherwise of any intellectual property right. (c) **Buyer Remedy.** Seller's sole obligation hereunder shall be to replace (in the form originally shipped with Buyer responsible for labor charges for removal or replacement thereof) the non-complying Good or, at Seller's election, to repay or credit Buyer an amount equal to the purchase price of the Good; provided that in no event shall Seller be responsible for warranty, repair, indemnity or any other claims or expenses regarding the Goods unless Seller's analysis confirms that the Goods were properly handled, stored, installed and maintained and not subject to contamination, abuse, misuse or inappropriate modification. Return of any goods by Buyer must be approved in writing by Seller before shipment. Seller shall not be liable for the suitability or unsuitability or the results from the use of Goods in combination with any electrical or electronic components, circuits, system assemblies or any other materials or substances or environments. Any advice, recommendations or information given orally or in writing, are not to be construed as an amendment or addition to the above warranty. (d) **Damage Limits; Etc.** SELLER SHALL NOT BE LIABLE FOR SPECIAL, INDIRECT OR CONSEQUENTIAL DAMAGES, LOSS OF PROFITS OR PRODUCTION OR COMMERCIAL LOSS IN ANY WAY CONNECTED WITH THE GOODS, WHETHER SUCH CLAIM IS BASED IN CONTRACT, WARRANTY, NEGLIGENCE OR STRICT LIABILITY. Further, in no event shall liability of Seller exceed the individual price of the Good on which liability is asserted. (e) **Indemnities.** Buyer shall indemnify and hold harmless Seller, its affiliates and its employees from and against all liabilities, losses, claims, costs and expenses (including attorney's fees and expenses) related to any claim, investigation, litigation or proceeding (whether or not Seller is a party) which arises or is alleged to arise from Buyer's acts or omissions under these Terms or in any way with respect to the Goods. Without limiting the foregoing, Buyer (at its own expense) shall indemnify and hold harmless Seller and defend or settle any action brought against Seller to the extent that it is based on a claim that any Good made to Buyer specifications infringed intellectual property rights of another party. (f) **Property; Confidentiality.** The intellectual property embodied in the Goods is the exclusive property of Seller and its affiliates and Buyer shall not attempt to duplicate it in any way without the written permission of Seller. Notwithstanding any charges to Buyer for engineering or tooling, all engineering and tooling shall remain the exclusive property of Seller. All information and materials supplied by Seller to Buyer relating to the Goods are confidential and proprietary, and Buyer shall limit distribution thereof to its trusted employees and strictly prevent disclosure to any third party. (g) **Miscellaneous.** (a) **Waiver.** No failure or delay by Seller in exercising any right and no course of dealing between Buyer and Seller shall operate as a waiver of rights by Seller. (b) **Assignment.** Buyer may not assign its rights hereunder without Seller's written consent. (c) **Amendment.** These Terms constitute the entire agreement between Buyer and Seller relating to the Goods, and no provision may be changed or waived unless in writing signed by the parties. (d) **Severability.** If any provision hereof is rendered ineffective or invalid, such provision shall not invalidate any other provision. (e) **Setoff.** Buyer shall have no right to set off any amounts against the amount owing in respect of this invoice. (f) As used herein, "including" means "including without limitation".

## Certain Precautions on Specifications and Use

1. **Suitability of Use.** Seller shall not be responsible for conformity with any standards, codes or regulations which apply to the combination of the Good in the Buyer's application or use of the Good. At Buyer's request, Seller will provide applicable third party certification documents identifying ratings and limitations of use which apply to the Good. This information by itself is not sufficient for a complete determination of the suitability of the Good in combination with the end product, machine, system, or other application or use. The following are some examples of applications for which particular attention must be given. This is not intended to be an exhaustive list of all possible uses of this Good, nor is it intended to imply that the uses listed may be suitable for this Good:
  - (i) Outdoor use, uses involving potential chemical contamination or electrical interference, or conditions or uses not described in this document.
  - (ii) Energy control systems, combustion systems, railroad systems, aviation systems, medical equipment, amusement machines, vehicles, safety equipment, and installations subject to separate industry or government regulations.
  - (iii) Systems, machines and equipment that could present a risk to life or property. Please know and observe all prohibitions of use applicable to this Good.
2. **Programmable Products.** Seller shall not be responsible for the user's programming of a programmable Good, or any consequence thereof.
3. **Performance Data.** Performance data given in this catalog is provided as a guide for the user in determining suitability and does not constitute a warranty. It may represent the result of Seller's test conditions, and the user must correlate it to actual application requirements. Actual performance is subject to the Seller's Warranty and Limitations of Liability.
4. **Change in Specifications.** Product specifications and accessories may be changed at any time based on improvements and other reasons. It is our practice to change part numbers when published ratings or features are changed or when significant construction changes are made. However, some specifications of the Good may be changed without any notice. When in doubt, special part numbers may be assigned to fix or establish key specifications for your application. Please consult with your Seller's representative at any time to confirm actual specifications of purchased Good.
5. **Errors and Omissions.** The information in this catalog has been carefully checked and is believed to be accurate; however, no responsibility is assumed for clerical, typographical or proofreading errors, or omissions.

NEVER USE THE PRODUCT FOR AN APPLICATION INVOLVING SERIOUS RISK TO LIFE OR PROPERTY WITHOUT ENSURING THAT THE SYSTEM AS A WHOLE HAS BEEN DESIGNED TO ADDRESS THE RISKS, AND THAT THE SELLER'S PRODUCT IS PROPERLY RATED AND INSTALLED FOR THE INTENDED USE WITHIN THE OVERALL EQUIPMENT OR SYSTEM.

Complete "Terms and Conditions of Sale" for product purchase and use are on Omron's website at [www.omron.com/oei](http://www.omron.com/oei) – under the "About Us" tab, in the Legal Matters section.

**ALL DIMENSIONS SHOWN ARE IN MILLIMETERS.**

To convert millimeters into inches, multiply by 0.03937. To convert grams into ounces, multiply by 0.03527.

Компания «ЭлектроПласт» предлагает заключение долгосрочных отношений при поставках импортных электронных компонентов на взаимовыгодных условиях!

Наши преимущества:

- Оперативные поставки широкого спектра электронных компонентов отечественного и импортного производства напрямую от производителей и с крупнейших мировых складов;
- Поставка более 17-ти миллионов наименований электронных компонентов;
- Поставка сложных, дефицитных, либо снятых с производства позиций;
- Оперативные сроки поставки под заказ (от 5 рабочих дней);
- Экспресс доставка в любую точку России;
- Техническая поддержка проекта, помощь в подборе аналогов, поставка прототипов;
- Система менеджмента качества сертифицирована по Международному стандарту ISO 9001;
- Лицензия ФСБ на осуществление работ с использованием сведений, составляющих государственную тайну;
- Поставка специализированных компонентов (Xilinx, Altera, Analog Devices, Intersil, Interpoint, Microsemi, Aeroflex, Peregrine, Syfer, Eurofarad, Texas Instrument, Miteq, Cobham, E2V, MA-COM, Hittite, Mini-Circuits, General Dynamics и др.);

Помимо этого, одним из направлений компании «ЭлектроПласт» является направление «Источники питания». Мы предлагаем Вам помощь Конструкторского отдела:

- Подбор оптимального решения, техническое обоснование при выборе компонента;
- Подбор аналогов;
- Консультации по применению компонента;
- Поставка образцов и прототипов;
- Техническая поддержка проекта;
- Защита от снятия компонента с производства.
