

SFP (Small Form-factor Pluggable) Products

As a founding member and innovator for the Small Form-factor Pluggable (SFP) Multi-Source Agreement (MSA), TE supports the market with a full range of SFP products. SFP products include zSFP+, SFP+, SFP+ Enhanced and SFP connectors, cage assemblies and connector assemblies.

From the original 20 position pluggable transceiver (PT) connector and single port cage, the product has expanded rapidly to include many other options to increase functionality and meet increasing bandwidth demands. The newly released zSFP+ product line takes data rates to 25G/s.

Lightpipes:

TE provides a complete line of lightpipes for single cages, ganged (single row), and stacked (double row) cages across all the SFP products.

Enhanced EMI:

As the data rates using the SFP form factor increase, the need for increased EMI suppression becomes imperative. Addressing both cabinet and module generated noise, the SFP products offer both external spring or elastomeric gasket options for EMI suppression.

Heat Sinks:

TE addresses the need for increased thermal dissipation by incorporating patented riding heat sink technology. The riding heat sinks use direct contact to the pluggable module to draw heat away from its source.

SFP Single Port Cages and Connectors

Product Facts

- Full metal shield for grounding and EMI suppression
- Solder and Press Fit cage configurations available
- Single piece and two piece cages available
- Used in conjunction with 20 pin SMT SFP Connector
- Hot Swappable
- Compatible with SFP MSA Compliant Modules
- UL/CSA Report File E28476

TE offers various termination options for SFP cages, including press-fit, wave solder and IR reflow compatible with tape and reel packaging. The connector is a reliable 20 position

interface offered in 0.38 μm (15 μinch) and 0.76 μm (30 μinch) gold plating thicknesses. The connector is packaged in tape and reel for pick and place SMT application.

The cage material is a copper alloy with nickel sub-plate and a matte tin finish.

SFP Ganged (Single Row) Cages

Product Facts

- Full metal shield for grounding and EMI reduction
- Solder and Press Fit configurations available
- Used in conjunction with 20 pin SMT SFP Connector
- Hot Swappable
- Compatible with SFP MSA Compliant Modules
- UL/CSA Report File E28476
- Application tooling available for press fit SFP cages

The Ganged SFP product line allows for single row, high density port designs to maximize the horizontal I/O space. The design allows for belly-to-belly orientation to maximize port density. The lateral port-to-port spacing is minimized to 14.25mm, compared to

16.25mm required spacing between single port cages. Port configurations include 1x2, 1x4 and 1x6, with lightpipes optional.

Application tooling is required for press fit configurations to provide support during insertion into the board.

SFP Stacked (Dual Row) Cage/Connector Assemblies

Product Facts

- Utilizes integrated stacked connector with patented wafer construction
- Full metal shield for grounding and EMI reduction
- Incorporates press fit eye-of-the-needle contacts for both mechanical cages and electrical connector
- Hot Swappable
- Compatible with SFP MSA Compliant Modules
- Application tooling available
- UL/CSA Report File E28476

The Stacked SFP product maximizes port density by taking advantage of the reduced port spacing of the ganged SFP cages, with an added upper port row. The connector is integrated into the cage assembly,

using press-fit technology for one-step insertion for cage and connector. Two heights are offered for stacked SFP cages, and available in 2x1, 2x4, and 2x6 port configurations.

SFP Cages with Integrated Connectors

Product Facts

- Utilizes fully integrated 20 position SFP connector
- Full metal shield for grounding and EMI reduction
- Incorporates press fit eye-of-the-needle contacts for both mechanical cages and electrical connector
- Hot Swappable
- Compatible with SFP MSA Compliant Modules
- Application tooling available
- UL/CSA Report File E28476

For increased flexibility, TE offers ganged (single Row) SFP cages with integrated connectors that are footprint compatible with its Stacked

SFP product line. The connector uses the same press fit technology as incorporated in the stacked SFP cage/connector sys-

tem, with one-step insertion in the board. Products currently offered are 1x1 and 1x4 configurations.

SFP Cages with Riding Heat Sinks

Product Facts

- Designed for DWDM Switch applications
- High Density application requiring additional Thermal Management
- Riding heat sink technology addresses thermal management
- Full metal shield for grounding and EMI reduction
- Incorporates press fit eye-of-the-needle contacts for mechanical cages
- Compatible with DWDM MSA compliant transceivers
- Uses 20 pin SMT SFP Connector

TE introduced an SFP system incorporating a riding heat sink to help manage excess heat when using SFP modules. This is especially suited for use with higher wattage transceivers, such as long reach applications like Dense Wavelength Division Multiplexing (DWDM).

The system features a press fit cage, a heat sink clip, and heat sink with various pin heights available.

Cages, Heat Sinks, and Clips

Part Number	Product Description
1367643-1	1x1 SFP Cage for heat sink application
1367646-1	Heat Sink Clip
1829903-2	PCI Heat Sink (4.2mm)
1829904-2	SAN Heat Sink (6.5mm)

SFP Copper Cable Assemblies

Product Facts

- SFF 20 position PCB interface
- Cable wire size 28 AWG
- Robust pull to release latch mechanism
- Various standard cable assembly lengths
- Compatible with MSA compliant SFP cages
- Uses MADISON CABLE brand TURBOTWIN copper cable

Applications

- Switches, routers and host bus adapters (HBA's)
- Enterprise storage
- High density I/O's
- Multiple channel interconnects

The TE SFP copper cable assemblies are high speed, high performance solutions for 4.25 Gbps applications. The TE SFP copper assemblies provide a cost effective solution over

Fiber for short reach I/O applications. These assemblies support multiple data transfer protocols such as Fibre Channel, InfiniBand Standard and Gigabit Ethernet.

SFP Direct Attach Cable Assembly Part Numbers

Description	Part Number	Length	Equalization
4.25 Gbps Passive	1948134-1	0.5 m	Unequalized
	1948134-2	1 m	Unequalized
	1948134-3	2 m	Equalized
	1948134-4	3 m	Equalized
	1948134-5	4 m	Equalized

Компания «ЭлектроПласт» предлагает заключение долгосрочных отношений при поставках импортных электронных компонентов на взаимовыгодных условиях!

Наши преимущества:

- Оперативные поставки широкого спектра электронных компонентов отечественного и импортного производства напрямую от производителей и с крупнейших мировых складов;
- Поставка более 17-ти миллионов наименований электронных компонентов;
- Поставка сложных, дефицитных, либо снятых с производства позиций;
- Оперативные сроки поставки под заказ (от 5 рабочих дней);
- Экспресс доставка в любую точку России;
- Техническая поддержка проекта, помощь в подборе аналогов, поставка прототипов;
- Система менеджмента качества сертифицирована по Международному стандарту ISO 9001;
- Лицензия ФСБ на осуществление работ с использованием сведений, составляющих государственную тайну;
- Поставка специализированных компонентов (Xilinx, Altera, Analog Devices, Intersil, Interpoint, Microsemi, Aeroflex, Peregrine, Syfer, Eurofarad, Texas Instrument, Miteq, Cobham, E2V, MA-COM, Hittite, Mini-Circuits, General Dynamics и др.);

Помимо этого, одним из направлений компании «ЭлектроПласт» является направление «Источники питания». Мы предлагаем Вам помощь Конструкторского отдела:

- Подбор оптимального решения, техническое обоснование при выборе компонента;
- Подбор аналогов;
- Консультации по применению компонента;
- Поставка образцов и прототипов;
- Техническая поддержка проекта;
- Защита от снятия компонента с производства.
