1. Description

This datasheet covers the gen4-PA (Programming Adaptor) which is compatible with all of the gen4 range of Intelligent Display modules which feature Picaso or Diablo16 graphics processors. It is included in the Starter Kit (SK) packs, and is a quick and easy way to interface and program the gen4 range, without having to break out the signals from the 30-way FFC cable.

The gen4-PA is a programming adaptor for the gen4 display module that also breaks out the signals found on the 30-way FFC cable coming from your gen4 display module. These signals are available via 2.54mm pitch (0.1") pads around the edge of the gen4-PA. It also groups the common 5-way signals found on other 4D Systems products (and the gen4-IB), for easy interface to other products such as our -AR and -PI kits for the Arduino and Raspberry Pi.

The gen4-PA replaces the need for a separate standard programmer, such as the uUSB-PA5 or 4D Programming Cable. The gen4-PA has the circuitry found on the uUSB-PA5-II built into it, and features a microUSB jack, for connection to your PC. Cable is not included with the gen4-PA or in our Starter Kits.

The gen4-PA can be used for programming gen4 display modules, interfacing to a breadboard for prototyping, interfacing to Arduino and Raspberry Pi interfaces (see gen4 -AR and -PI kits), or for interfacing to virtually any host.

The pinout naming, shown on the back of the gen4-PA has been generalised to GPIOx naming, as the gen4-PA can be used with both Picaso and Diablo16 gen4 products, and the naming of GPIO is different for these. Please refer to the following table.

	GEN4-PA	DIABLO16	PICASO
GPIO12			
GPIO11			
GPIO10			
GPIO9			
GPIO8			
GPIO7			
GPIO6			
GPIO5			
GPIO4			
GPIO3			
GPIO2			
GPIO1			
	+5V		
	TXD		
	RXD		
	GND		
	RESET		
	GPIO13		
	GPIO14		
	GPIO15		
	GPIO16		
	GPIO17		
	AUDENB		
	AUDIO-OUT		
	GPIO1	PA3	IO1
	GPIO2	PA2	IO2
	GPIO3	PA1	IO3
	GPIO4	PA0	IO4
	GPIO5	PA9	BUS5
	GPIO6	PA8	BUS4
	GPIO7	PA7	BUS3
	GPIO8	PA6	BUS2
	GPIO9	PA5	BUS1
	GPIO10	PA4	BUS0
	GPIO11	PA10	BUS6
	GPIO12	PA11	BUS7
	GPIO13	PA12	IO5
	GPIO14	PA13	RX1
	GPIO15	PA14	TX1
	GPIO16	PA15	I2C_SCL
	GPIO17	N/C	I2C_SDA

The gen4-PA utilises the Silicon Labs CP2104 USB to Serial Bridge IC. More information about this can be found from the Silicon Labs website. A link to the driver is available on our website.

- USB 2.0 compliant Full Speed 12Mbps maximum speed.
- Hardware or Xon/Xoff handshaking supported, 300bps to 2Mbps
- UART supports 5, 6, 7, 8 data bits, 1, 1.5, 2 stop bits, odd/even/mark/space and no parity
- Supports Windows 2000 and above, MAC (OSX-8 and above) and Linux (2.4 kernel and above)
- USB powered
- -40 to +85 degrees Celsius temp range

2. Example Hardware Connections

The following pictures illustrate how to connect the gen4-PA to various hardware. Note, the display module illustrated below is the gen4-uLCD-32DT.

Figure 1. Typical connection of gen4 display module to gen4-PA with USB cable (not included)

Figure 2. gen4 display, connected to the gen4-PA, and 5-way cable connecting to the Arduino Adaptor Shield.

When connecting another device (such as an Arduino) to the 5-way interface pins on the gen4-PA, this is utilising UART0 on the gen4 display which is also used by the USB controller to program the gen4 display module. Each time you program to the display module, the 5-way cable needs to be disconnected so the serial UART will not have conflicts and fail. Alternatively, separately wiring to other GPIO pins on the gen4-PA to utilise the UART1/2/3 (as is available on selected gen4 display modules) will allow this conflict to be avoided, due to utilising a separate UART. Adjustments to the settings in Workshop4 to utilise comms to a different UART is required.

The Standard FFC cable supplied has the following specifications:

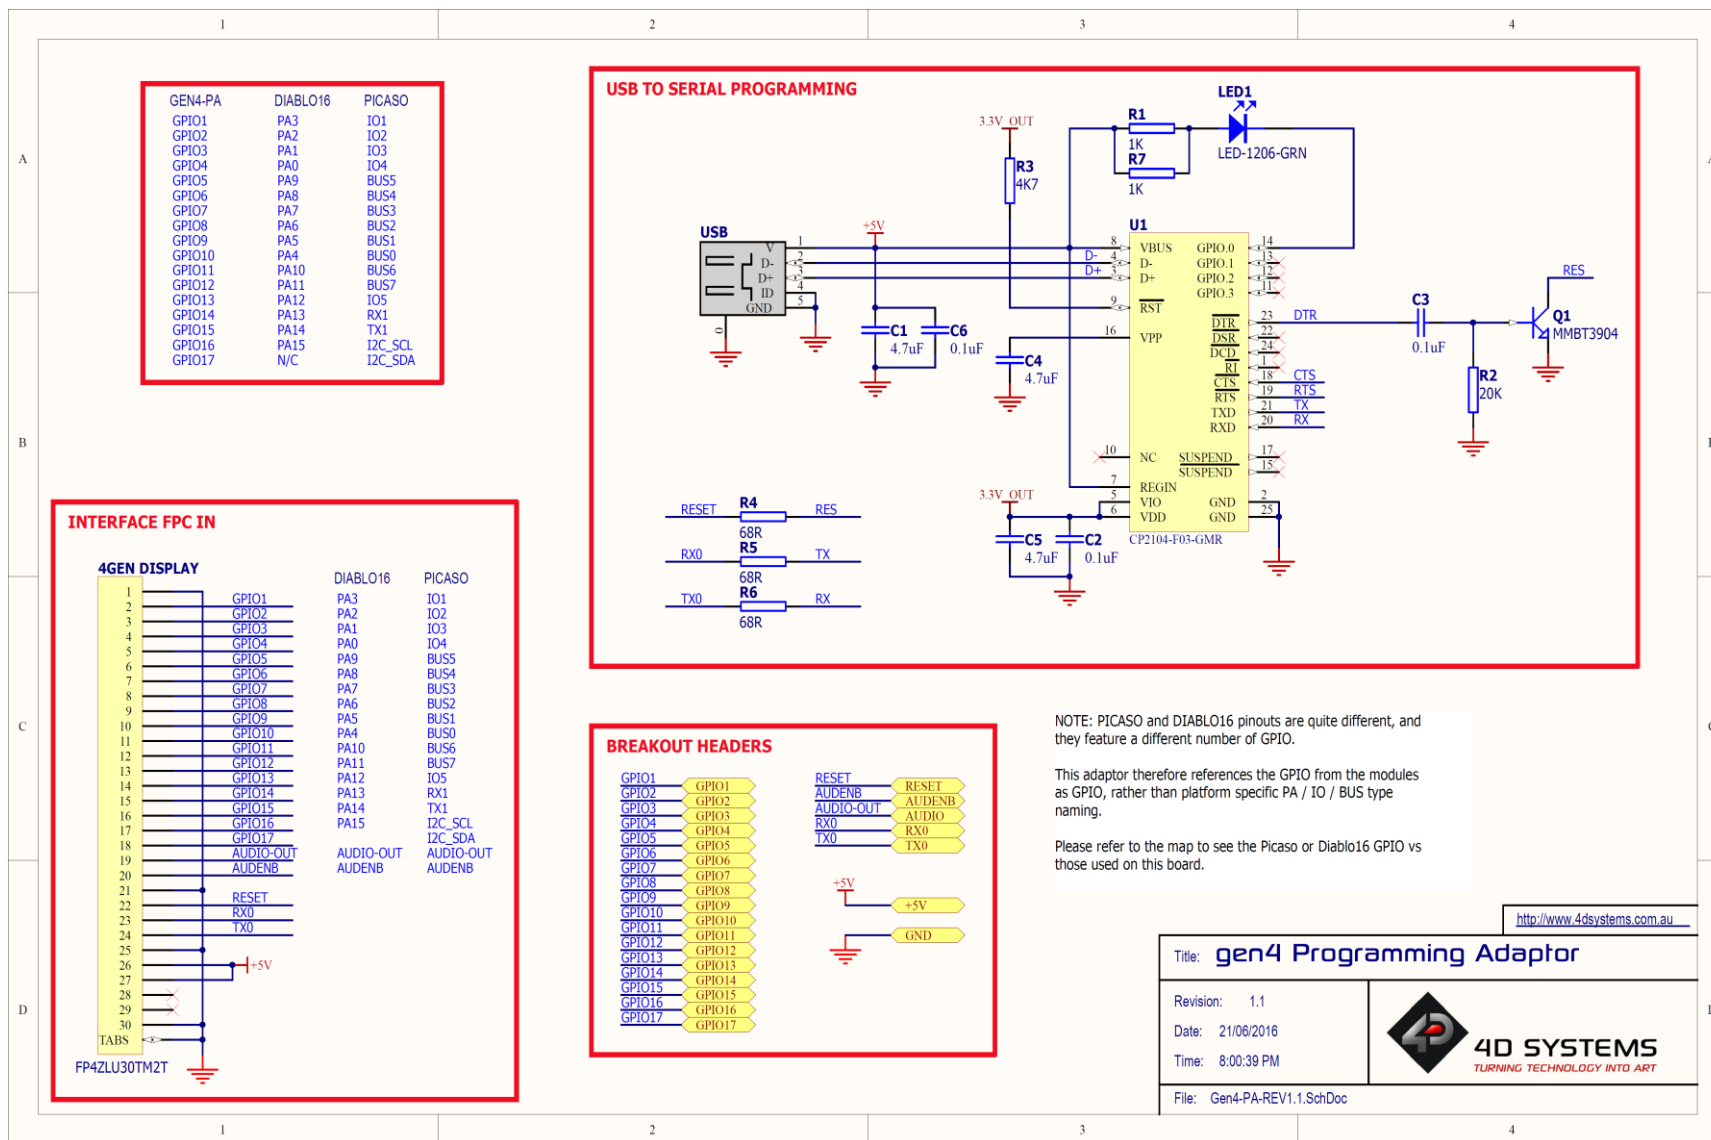

30 Pin Flexible Flat Cable, 150mm Long, 0.5mm (0.02") pitch

Cable Type: AWM 20624 80C 60V VW-1

Heat Resistance 80 Degrees Celsius

Connections on the opposite side at each end (Type B)

Компания «ЭлектроПласт» предлагает заключение долгосрочных отношений при поставках импортных электронных компонентов на взаимовыгодных условиях!

Наши преимущества:

- Оперативные поставки широкого спектра электронных компонентов отечественного и импортного производства напрямую от производителей и с крупнейших мировых складов;
- Поставка более 17-ти миллионов наименований электронных компонентов;
- Поставка сложных, дефицитных, либо снятых с производства позиций;
- Оперативные сроки поставки под заказ (от 5 рабочих дней);
- Экспресс доставка в любую точку России;
- Техническая поддержка проекта, помощь в подборе аналогов, поставка прототипов;
- Система менеджмента качества сертифицирована по Международному стандарту ISO 9001;
- Лицензия ФСБ на осуществление работ с использованием сведений, составляющих государственную тайну;
- Поставка специализированных компонентов (Xilinx, Altera, Analog Devices, Intersil, Interpoint, Microsemi, Aeroflex, Peregrine, Syfer, Eurofarad, Texas Instrument, Miteq, Cobham, E2V, MA-COM, Hittite, Mini-Circuits, General Dynamics и др.);

Помимо этого, одним из направлений компании «ЭлектроПласт» является направление «Источники питания». Мы предлагаем Вам помощь Конструкторского отдела:

- Подбор оптимального решения, техническое обоснование при выборе компонента;
- Подбор аналогов;
- Консультации по применению компонента;
- Поставка образцов и прототипов;
- Техническая поддержка проекта;
- Защита от снятия компонента с производства.
