

ISL2819xEVAL1Z

Evaluation Board

AN1348  
Rev 1.00  
May 19, 2011

The ISL2819xEVAL1Z evaluation board is a design platform containing all the circuitry needed to characterize critical performance parameters of the ISL28190 and ISL28191 single operational amplifiers, using a variety of user-defined test circuits.

The ISL28190 and ISL28191 amplifiers feature ultra-low noise, ultra-low distortion, and rail-to-rail output drive capability. They are designed to operate with single and dual supplies from +5.5VDC ( $\pm 2.75$ VDC) down to +3VDC ( $\pm 1.5$ VDC).

Reference Documents

- [ISL28190 Datasheet](#)
- [ISL28191 Datasheet](#)

Key Features

The ISL2819xEVAL1Z is designed to enable the IC to operate from a single supply (+3VDC to +5.5VDC) or from split supplies ( $\pm 1.5$ VDC to  $\pm 2.75$ VDC). The board is configured for a single op amp connected for differential input with a closed loop gain of 10. A single external reference voltage (VREF) pin is provided, as well as a user-selectable voltage divider (filter included).

Power Supplies (Figure 1)

External power connections are made through the V+, V- and ground connections on the evaluation board. For single-supply operation, the V- and ground pins are tied together to the power supply negative terminal. For split supplies, the V+ and V- terminals connect to their respective power supply terminals. De-coupling capacitors C2 and C4 are connected close to the power supply terminals. To filter out high-frequency noise, four additional capacitors (C1, C5, C7 and C8) are connected close to the part. Anti-reverse diodes, D1 and D2, protect the circuit in case of accidental polarity reversal.

FIGURE 1. POWER SUPPLY CIRCUIT

D1 and D2, protect the circuit in case of accidental polarity reversal.

Amplifier Configuration (Figure 2)

The schematic of the op-amp with the components supplied is shown in Figure 2. The circuit implements a differential input amp with a closed loop gain of 10. The circuit can operate from a single +3VDC to +5.5VDC supply, or from dual supplies from  $\pm 1.5$ VDC to  $\pm 2.75$ VDC. The VREF pin can be connected to ground to establish a ground-referenced input for split-supply operation, or it can be externally set to any reference level for single-supply operation.

FIGURE 2. BASIC AMPLIFIER CONFIGURATION

## User-selectable Options (Figures 3 and 4)

Component pads are included to enable a variety of user-selectable circuits to be added to the amplifier inputs, the VREF input, the outputs, and the amplifier feedback loops.

A voltage divider and filter option (Figure 3) can be added to establish a power-supply-tracking common mode reference at

the VREF input. The inverting and non-inverting inputs have additional resistor placements for adding input attenuation, or to establish input DC offsets through the VREF pin.

The output (Figure 4) has a series 50Ω back-termination resistor to drive 50Ω cables, and additional resistor and capacitor placements for loading.

## ISL2819xEVAL1Z Components Parts List

DEVICE NUMBER	DESCRIPTION	COMMENTS
C2, C4	CAP, SMD, 1206, 1μF, 100V, 10%, X7R, ROHS	Power supply decoupling
C1, C5	CAP, SMD, 0603, 0.01μF, 50V, 10%, X7R, ROHS	Power supply decoupling
C7, C8	CAP, SMD, 0603, 0.1μF, 50V, 10%, X7R, ROHS	Power supply decoupling
C3, C6	CAP, SMD, 0603, DNP-PLACE HOLDER, ROHS	User-selectable capacitors; not populated
D1, D2	DIODE-RECTIFIER, SMD, 4.5X3.9mm, 50V, 1A, ROHS	Reverse power protection
U1 (ISL28190EVAL1Z)	ISL28190FHZ-T7, IC-RAIL-TO-RAIL OP AMP, SOT-23, ROHS	
U1 (ISL28191EVAL1Z)	ISL28191FHZ-T7, IC-RAIL-TO-RAIL OP AMP, SOT-23, ROHS	
R1-R4, R6-R8, R10, R13, R14, R16, R17, R20	RESISTOR, SMD, 0603, 0.1%, MF, DNP-PLACEHOLDER	User-selectable resistors; not populated
R5, R21	RES, SMD, 0603, 0Ω, 1/10W, TF, ROHS	0Ω user-selectable resistors
R18	RES, SMD, 0603, 49.9Ω, 1/10W, 1%, TF, ROHS	User-selectable output resistors
R9, R12	RES, SMD, 0603, 499Ω, 1/10W, 1%, TF, ROHS	Gain resistors
R11, R15	RES, SMD, 0603, 4.99k, 1/10W, 1%, TF, ROHS	Gain resistors
R19	RES, SMD, 0603, 10k, 1/10W, 1%, TF, ROHS	User-selectable resistors

## Notice

1. Descriptions of circuits, software and other related information in this document are provided only to illustrate the operation of semiconductor products and application examples. You are fully responsible for the incorporation or any other use of the circuits, software, and information in the design of your product or system. Renesas Electronics disclaims any and all liability for any losses and damages incurred by you or third parties arising from the use of these circuits, software, or information.
2. Renesas Electronics hereby expressly disclaims any warranties against and liability for infringement or any other claims involving patents, copyrights, or other intellectual property rights of third parties, by or arising from the use of Renesas Electronics products or technical information described in this document, including but not limited to, the product data, drawings, charts, programs, algorithms, and application examples.
3. No license, express, implied or otherwise, is granted hereby under any patents, copyrights or other intellectual property rights of Renesas Electronics or others.
4. You shall not alter, modify, copy, or reverse engineer any Renesas Electronics product, whether in whole or in part. Renesas Electronics disclaims any and all liability for any losses or damages incurred by you or third parties arising from such alteration, modification, copying or reverse engineering.
5. Renesas Electronics products are classified according to the following two quality grades: "Standard" and "High Quality". The intended applications for each Renesas Electronics product depends on the product's quality grade, as indicated below.  
"Standard": Computers; office equipment; communications equipment; test and measurement equipment; audio and visual equipment; home electronic appliances; machine tools; personal electronic equipment; industrial robots; etc.  
"High Quality": Transportation equipment (automobiles, trains, ships, etc.); traffic control (traffic lights); large-scale communication equipment; key financial terminal systems; safety control equipment; etc.  
Unless expressly designated as a high reliability product or a product for harsh environments in a Renesas Electronics data sheet or other Renesas Electronics document, Renesas Electronics products are not intended or authorized for use in products or systems that may pose a direct threat to human life or bodily injury (artificial life support devices or systems; surgical implantations; etc.), or may cause serious property damage (space system; undersea repeaters; nuclear power control systems; aircraft control systems; key plant systems; military equipment; etc.). Renesas Electronics disclaims any and all liability for any damages or losses incurred by you or any third parties arising from the use of any Renesas Electronics product that is inconsistent with any Renesas Electronics data sheet, user's manual or other Renesas Electronics document.
6. When using Renesas Electronics products, refer to the latest product information (data sheets, user's manuals, application notes, "General Notes for Handling and Using Semiconductor Devices" in the reliability handbook, etc.), and ensure that usage conditions are within the ranges specified by Renesas Electronics with respect to maximum ratings, operating power supply voltage range, heat dissipation characteristics, installation, etc. Renesas Electronics disclaims any and all liability for any malfunctions, failure or accident arising out of the use of Renesas Electronics products outside of such specified ranges.
7. Although Renesas Electronics endeavors to improve the quality and reliability of Renesas Electronics products, semiconductor products have specific characteristics, such as the occurrence of failure at a certain rate and malfunctions under certain use conditions. Unless designated as a high reliability product or a product for harsh environments in a Renesas Electronics data sheet or other Renesas Electronics document, Renesas Electronics products are not subject to radiation resistance design. You are responsible for implementing safety measures to guard against the possibility of bodily injury, injury or damage caused by fire, and/or danger to the public in the event of a failure or malfunction of Renesas Electronics products, such as safety design for hardware and software, including but not limited to redundancy, fire control and malfunction prevention, appropriate treatment for aging degradation or any other appropriate measures. Because the evaluation of microcomputer software alone is very difficult and impractical, you are responsible for evaluating the safety of the final products or systems manufactured by you.
8. Please contact a Renesas Electronics sales office for details as to environmental matters such as the environmental compatibility of each Renesas Electronics product. You are responsible for carefully and sufficiently investigating applicable laws and regulations that regulate the inclusion or use of controlled substances, including without limitation, the EU RoHS Directive, and using Renesas Electronics products in compliance with all these applicable laws and regulations. Renesas Electronics disclaims any and all liability for damages or losses occurring as a result of your noncompliance with applicable laws and regulations.
9. Renesas Electronics products and technologies shall not be used for or incorporated into any products or systems whose manufacture, use, or sale is prohibited under any applicable domestic or foreign laws or regulations. You shall comply with any applicable export control laws and regulations promulgated and administered by the governments of any countries asserting jurisdiction over the parties or transactions.
10. It is the responsibility of the buyer or distributor of Renesas Electronics products, or any other party who distributes, disposes of, or otherwise sells or transfers the product to a third party, to notify such third party in advance of the contents and conditions set forth in this document.
11. This document shall not be reprinted, reproduced or duplicated in any form, in whole or in part, without prior written consent of Renesas Electronics.
12. Please contact a Renesas Electronics sales office if you have any questions regarding the information contained in this document or Renesas Electronics products.  
(Note 1) "Renesas Electronics" as used in this document means Renesas Electronics Corporation and also includes its directly or indirectly controlled subsidiaries.  
(Note 2) "Renesas Electronics product(s)" means any product developed or manufactured by or for Renesas Electronics.

Компания «ЭлектроПласт» предлагает заключение долгосрочных отношений при поставках импортных электронных компонентов на взаимовыгодных условиях!

Наши преимущества:

- Оперативные поставки широкого спектра электронных компонентов отечественного и импортного производства напрямую от производителей и с крупнейших мировых складов;
- Поставка более 17-ти миллионов наименований электронных компонентов;
- Поставка сложных, дефицитных, либо снятых с производства позиций;
- Оперативные сроки поставки под заказ (от 5 рабочих дней);
- Экспресс доставка в любую точку России;
- Техническая поддержка проекта, помощь в подборе аналогов, поставка прототипов;
- Система менеджмента качества сертифицирована по Международному стандарту ISO 9001;
- Лицензия ФСБ на осуществление работ с использованием сведений, составляющих государственную тайну;
- Поставка специализированных компонентов (Xilinx, Altera, Analog Devices, Intersil, Interpoint, Microsemi, Aeroflex, Peregrine, Syfer, Eurofarad, Texas Instrument, Miteq, Cobham, E2V, MA-COM, Hittite, Mini-Circuits, General Dynamics и др.);

Помимо этого, одним из направлений компании «ЭлектроПласт» является направление «Источники питания». Мы предлагаем Вам помощь Конструкторского отдела:

- Подбор оптимального решения, техническое обоснование при выборе компонента;
- Подбор аналогов;
- Консультации по применению компонента;
- Поставка образцов и прототипов;
- Техническая поддержка проекта;
- Защита от снятия компонента с производства.
