Index

Series 18

General Notes

The series 18 comprises compact indicators for direct connection to 2.2, 12 or 24 VDC and illuminated pushbuttons with maintained or momentary action.
The illuminated pushbutons are equipped with a snap-action switching system with normally open or normally closed contacts.
The dimensions of the front are 9 x 14 mm, 9 x 9 mm or 9 mm dia.
Indicators and illuminated pushbuttons for use with overhanging lenses 14 x 14 mm or 14 mm dia. are also available for recessed front mounting.

Mounting

Mounting from the front through the mounting aperture 8 mm dia. (15.8 x 15.8 mm resp. 16 mm dia. for recessed versions) is assured even with the wiring already attached (mounting dimensions and spacing see pages 440).
The units are provided with soldering or plug-in terminals.

Lenses

The flat lenses, which are made of PMMA, PS, are available in various colours and a transparent version. The surface is nonreflecting (matt).

Illumination

Perfect illumination of the lenses, which can be supplied in various colours, is assured by bipin T1 LEDs in the colours red, yellow and green.
(Compact indicators for connection to 12 or 24 VDC.)
The bipin T1 LED are already integrated in the lenses.

Position Indication

When a switch with maintained action is actuated, the lens remains in the depressed position mechanically. The state of the switch is apparent at all times from the position of the lens.

Number structure

18-XXX.OX5X

- XXX — Switch variant
- X — Contact material
- X — Lens colour (only indicators)

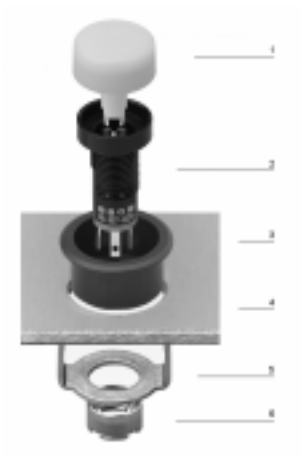
18-9XX.X	Lens
18-9XX.X	Other accessories
Example:	-Illuminated pushbutton; round, momentary action, gold contact; soldering terminals 18-137.035
	-Lens red, circular 18-931.2

All dimensions in mm.
We reserve the right to modify technical data.

illuminated-/pushbutton

1 lens
2 switch housing
3 fixing nut

illuminated-/pushbutton, round for flush mounting



1 lens
2 switch housing
3 front panel
4 front ring bezel
5 front ring bezel bracket

actuator with snap-action switching element

switching system

The snap-action switching system was designed for switching low powers in electronic circuits.
Single-break snap-action contact.

material

actuator case
polyamide; colour black

lens
polymethylacrylate PMMA, polycarbonate PC

material of contacts
gold contact on nickel plating

mechanical characteristics

actuating force
1.4 N

ambient air temperature
-25°C to +65°C
(as per DIN IEC 68-)

connection method
The terminals can be used as soldering terminals.
max.wire diameter: 2 of 0.5 mm^2
max.wire ccross-section of stranded cable: 1 x 0.75 mm^2
wire cross-section of terminal: 1.6 x 0.4 mm

degree of protection
front as per IEC 529: IP 40

mechanical life
as per IEC 512-5, test 9a
momentary action 2 mio. cycles of operation
maintained action 1 mio. cycles of operation

rebound time
<= 2.5 ms

resistance to shock
(single impacts, semi-sinusodial)
50 g for 11 ms as per IEC 68-2-27

resistance to vibration
(sinusoidal)10 g at 10-2000 Hz, amplitude 0.75 mm as per IEC 512-4-4

starting torque
for fixing nut max. 20 Ncm

storage temperature
-40°C to +80°C
(as per DIN IEC 68-)

travel
2.2 mm ± 0.2 mm

electrical characteristics

electric strength
500 VAC, 50 Hz, 1 min. between all terminals and earth, as per IEC 512-2-11

electrical life
>= 500.000 cycles of operation at 30 VDC/100 mA to IEC 512-5, Test 9c

power consumption
20 mA

switch rating
10 µA/100 µV to 100 mA at 42 VAC/VDC

volume resistance
<= 100 mΩ starting value (initial)
IEC 512-2, Test 2 b

Компания «ЭлектроПласт» предлагает заключение долгосрочных отношений при поставках импортных электронных компонентов на взаимовыгодных условиях!

Наши преимущества:

- Оперативные поставки широкого спектра электронных компонентов отечественного и импортного производства напрямую от производителей и с крупнейших мировых складов;
- Поставка более 17-ти миллионов наименований электронных компонентов;
- Поставка сложных, дефицитных, либо снятых с производства позиций;
- Оперативные сроки поставки под заказ (от 5 рабочих дней);
- Экспресс доставка в любую точку России;
- Техническая поддержка проекта, помощь в подборе аналогов, поставка прототипов;
- Система менеджмента качества сертифицирована по Международному стандарту ISO 9001;
- Лицензия ФСБ на осуществление работ с использованием сведений, составляющих государственную тайну;
- Поставка специализированных компонентов (Xilinx, Altera, Analog Devices, Intersil, Interpoint, Microsemi, Aeroflex, Peregrine, Syfer, Eurofarad, Texas Instrument, Miteq, Cobham, E2V, MA-COM, Hittite, Mini-Circuits,General Dynamics и др.);

Помимо этого, одним из направлений компании «ЭлектроПласт» является направление «Источники питания». Мы предлагаем Вам помощь Конструкторского отдела:

- Подбор оптимального решения, техническое обоснование при выборе компонента;
- Подбор аналогов;
- Консультации по применению компонента;
- Поставка образцов и прототипов;
- Техническая поддержка проекта;
- Защита от снятия компонента с производства.
