

# Model 358P/L

## Advanced PLL LVPECL or LVDS VCXO

Part Dimensions:  
5.0 x 3.2 x 1.3mm • 58.1mg

### Features

- Ceramic Surface Mount Package
- Low Phase Jitter Performance, 500fs Typical
- Advanced PLL Design w/ Low Fundamental Crystal
- Frequency Range 10MHz – 800MHz \*
- +2.5V or +3.3V Operation
- Output Enable Standard
- Tape and Reel Packaging, EIA-418

### Applications

- Broadcast Video
- Storage Area Networking
- Broadband Access
- Phase-Locked Loop
- Networking Equipment
- Ethernet/GbE/SyncE
- Fiber Channel
- Test and Measurement

#### Standard Frequencies

|             |             |             |
|-------------|-------------|-------------|
| - 25.00MHz  | - 122.88MHz | - 200.00MHz |
| - 50.00MHz  | - 125.00MHz | - 250.00MHz |
| - 74.25MHz  | - 148.50MHz | - 300.00MHz |
| - 77.76MHz  | - 155.52MHz | - 312.50MHz |
| - 100.00MHz | - 156.25MHz |             |

\* See Page 11 for additional developed frequencies.  
Check with factory for availability of frequencies not listed.

### Description

CTS Model 358P/L is a low cost, high performance PLL voltage controlled oscillator supporting differential LVPECL or LVDS outputs. Employing the latest IC technology, M358P/L has excellent stability and low phase jitter performance.

### Ordering Information

| Model | Output Type     | Frequency Code [MHz]                | Absolute Pull Range | Frequency Stability          | Temperature Range       | Supply Voltage   | Packaging             |
|-------|-----------------|-------------------------------------|---------------------|------------------------------|-------------------------|------------------|-----------------------|
| 358   | P               | XXX or XXXX                         | B                   | 3                            | I                       | 3                | T                     |
|       | Code    Output  |                                     | Code    APR         |                              | Code    Temp. Range     |                  | Code    Packing       |
|       | P        LVPECL |                                     | B        ±50ppm     |                              | C        -20°C to +70°C |                  | T        1k pcs./reel |
|       | L        LVDS   |                                     |                     |                              | I        -40°C to +85°C |                  |                       |
|       |                 | Code    Frequency                   |                     | Code    Stability            |                         | Code    Voltage  |                       |

Notes:

- 1] Refer to document 016-1454-0, Frequency Code Tables.  
3-digits for frequencies <100MHz, 4-digits for frequencies 100MHz or greater.
- 2] Check factory availability when paired with "I" temperature code.

**Not all performance combinations and frequencies may be available.  
Contact your local CTS Representative or CTS Customer Service for availability.**

This product is specified for use only in standard commercial applications. Supplier disclaims all express and implied warranties and liability in connection with any use of this product in any non-commercial applications or in any application that may expose the product to conditions that are outside of the tolerances provided in its specification.

## Electrical Specifications

### Operating Conditions

| PARAMETER               | SYMBOL    | CONDITIONS                    | MIN   | TYP | MAX   | UNIT |
|-------------------------|-----------|-------------------------------|-------|-----|-------|------|
| Maximum Supply Voltage  | $V_{CC}$  | -                             | -0.5  | -   | 4.0   | V    |
| Maximum Control Voltage | $V_C$     | $V_{CC} = +2.5V$              | -0.5  | -   | 3.0   | V    |
|                         |           | $V_{CC} = +3.3V$              | -0.5  | -   | 3.8   | V    |
| Supply Voltage          | $V_{CC}$  | $\pm 5\%$                     | 2.375 | 2.5 | 2.625 | V    |
|                         |           |                               | 3.135 | 3.3 | 3.465 |      |
| Supply Current          |           |                               |       |     |       |      |
| LVPECL                  | $I_{CC}$  | Maximum Load                  | -     | 54  | 88    | mA   |
| LVDS                    |           | Maximum Current Value @ +3.3V | -     | 45  | 65    |      |
| Operating Temperature   | $T_A$     | -                             | -20   | +25 | +70   | °C   |
|                         |           |                               | -40   |     | +85   |      |
| Storage Temperature     | $T_{STG}$ | -                             | -55   | -   | +125  | °C   |

### Frequency Stability

| PARAMETER                       | SYMBOL            | CONDITIONS                           | MIN | TYP          | MAX | UNIT      |
|---------------------------------|-------------------|--------------------------------------|-----|--------------|-----|-----------|
| Frequency Range                 | $f_O$             | -                                    |     | 10 - 800     |     | MHz       |
| Frequency Stability<br>[Note 1] | $\Delta f/f_O$    | -                                    |     | 25, 30 or 50 |     | $\pm$ ppm |
| Absolute Pull Range<br>[Note 2] | APR               | -                                    | 50  | -            | -   | $\pm$ ppm |
| Aging                           | $\Delta f/f_{25}$ | First Year @ +25°C, nominal $V_{CC}$ | -3  | -            | 3   | ppm       |

1.] Inclusive of initial tolerance at time of shipment, changes in supply voltage, load, temperature and 1st year aging.

2.] Minimum guaranteed frequency shift from  $f_O$  over variations in temperature, aging, power supply and load.

### Output Parameters

| PARAMETER                   | SYMBOL     | CONDITIONS                         | MIN             | TYP    | MAX             | UNIT |

## Mechanical Specifications

### Package Drawing

### Marking Information

- \*\* – Manufacturing Site Code.
- D – Date Code. See Table I for codes.
- O – Output Type; P = LVPECL, L = LVDS.
- ST – Frequency Stability/Temperature Code. [Refer to Ordering Information]
- V – Voltage Code; 3 = 3.3V, 2 = 2.5V.
- xxxx – Frequency Code.  
3-digits, frequencies below 100MHz  
4-digits, frequencies 100MHz or greater  
[See document 016-1454-0, Frequency Code Tables.]

### Recommended Pad Layout

### Notes

- JEDEC termination code (e4). Barrier-plating is nickel [Ni] with gold [Au] flash plate.
- Reflow conditions per JEDEC J-STD-020; +260°C maximum, 20 seconds.
- MSL = 1.

### Pin Assignments

| Pin | Symbol          | Function                 |
|-----|-----------------|--------------------------|
| 1   | V <sub>C</sub>  | Voltage Control          |
| 2   | EOH             | Enable [tri-state]       |
| 3   | GND             | Circuit & Package Ground |
| 4   | Output          | RF Output                |
| 5   | Output          | Complimentary RF Output  |
| 6   | V <sub>CC</sub> | Supply Voltage           |

Table I - Date Code

### Packaging - Tape and Reel

Tape Drawing - 12mm Width

Tape Drawing - 16mm Width

### Packaging - Tape and Reel

Reel Drawing – 12mm Width

Reel Drawing – 16mm Width

#### Notes

1. Device quantity is 1k pieces per 180mm reel.
2. Complete CTS part number, frequency value and date code information must appear on reel and carton labels.

## Addendum

### Additional Developed Frequencies – MHz

| FREQUENCY | FREQUENCY CODE | FREQUENCY  | FREQUENCY CODE | FREQUENCY  | FREQUENCY CODE | FREQUENCY  | FREQUENCY CODE |

| 100.000000 | 1000           | 156.250000 | 1562           |            |                |

Компания «ЭлектроПласт» предлагает заключение долгосрочных отношений при поставках импортных электронных компонентов на взаимовыгодных условиях!

Наши преимущества:

- Оперативные поставки широкого спектра электронных компонентов отечественного и импортного производства напрямую от производителей и с крупнейших мировых складов;
- Поставка более 17-ти миллионов наименований электронных компонентов;
- Поставка сложных, дефицитных, либо снятых с производства позиций;
- Оперативные сроки поставки под заказ (от 5 рабочих дней);
- Экспресс доставка в любую точку России;
- Техническая поддержка проекта, помощь в подборе аналогов, поставка прототипов;
- Система менеджмента качества сертифицирована по Международному стандарту ISO 9001;
- Лицензия ФСБ на осуществление работ с использованием сведений, составляющих государственную тайну;
- Поставка специализированных компонентов (Xilinx, Altera, Analog Devices, Intersil, Interpoint, Microsemi, Aeroflex, Peregrine, Syfer, Eurofarad, Texas Instrument, Miteq, Cobham, E2V, MA-COM, Hittite, Mini-Circuits, General Dynamics и др.);

Помимо этого, одним из направлений компании «ЭлектроПласт» является направление «Источники питания». Мы предлагаем Вам помощь Конструкторского отдела:

- Подбор оптимального решения, техническое обоснование при выборе компонента;
- Подбор аналогов;
- Консультации по применению компонента;
- Поставка образцов и прототипов;
- Техническая поддержка проекта;
- Защита от снятия компонента с производства.
