

PLATO[®]

Quality Tools for Electronics Assembly and Repair

ITW Chemtronics® is proud to offer Plato® tools for electronic soldering applications. Whether your requirements are for soldering tips, solder pots or cutters, Plato has the right solutions for your soldering requirements.

Plato quality tools include:

- Replacement soldering tips
- Shear cutters
- Solder pots
- Solder accessories, sponges and flux bottles

YOUR ONE SOURCE FOR SOLDERING TIPS

Plato is one of the largest manufacturers of soldering tips in the world, producing tips to fit all of the most popular soldering stations. The long life and fast heat recovery of Plato soldering tips increases soldering speed.

Long Life

Proprietary iron plating is optimized for lead-free solders, increasing tip life.

Rapid Heat Recovery

Plato soldering tips are constructed from highly conductive premium grade copper to transmit heat to the work more quickly. Rapid heat recovery enables more joints to be soldered per minute.

Constructed with high-grade copper for maximum heat conductivity.

Coated with a proprietary iron plating for long life.

Tips are coated with lead-free solder to protect against oxidation and improve heat transfer.

LEAD CUTTERS

Plato cutters give you the precision of a high-end tool, but at a disposable cutter price. They flush cut component leads as large as 18 AWG copper wire (.040"/1.0mm).

Assemblers love the effortless shearing action, comfort, and safety. Plato cutters use the shear cutting method, which requires 50% less operator effort and extends cutting life.

The thin profile design is perfect for hard-to-reach areas in electronic assembly. Handles are cushioned for comfort all day, and automatically spring back to their original position after each use.

OPTIONAL SAFETY GUARD

175 and 175LX cutters come with a lead catcher, which holds onto a trimmed lead until the shear is opened. This prevents leads from flying off, which can lead to eye injury or contaminate the assembly.

Safety Guard

170LX • 175LX

PLATOSHEAR LX

ERGONOMIC, ESD-SAFE LEAD CUTTER

Sculpted handle design made of ESD-safe material gives the Platoshear LX cutters the look and feel of a high-end shear cutter.

- Ergonomic handled designed for comfort
- ESD-safe handle to prevent static discharge

170LX 1 cutter, 10/case
175LX 1 cutter w/safety guard, 10/case

170 • 175

PLATOSHEAR

GENERAL PURPOSE LEAD CUTTER

Our best-selling cutters! Precise, reliable cutting action at an economical price. Thin profile handle and light weight design is ideal for smaller hands.

- Economical, disposable cutter
- Thin blade profile for trimming in tight areas
- Ergonomic handle design
- Spring-back action

170 1 cutter, 10/case
175 1 cutter w/safety guard, 10/case

1755

PLATO BIG SHEAR

HEAVY DUTY CUTTER

Cuts round and flat cable, co-ax, nickel, Kovar, and other wire with a clean shearing cut that reduces cable cut-end distortion. Lightweight design significantly reduces operator fatigue.

- For heavy gauge wire
- Cushioned rubber handles
- Spring-back action

1755 1 cutter, 10/case

SOLDER POTS

Plato® solder pots are known around the world for their durable construction and precise controls. Ideal for tinning lead wires, pre-tinning small electrical parts, or dip soldering small assemblies and circuit devices.

Porcelain Coated Crucibles

Plato's porcelain coated crucible is easy to clean and offers a long service life. Solder will not adhere to the porcelainized surface, allowing for easy maintenance. The coating also resists corrosion common with activated fluxes and high tin content solders. Ground stud is installed through coating to control ESD.

Solder beads off the porcelain coating like water on a freshly waxed car

SP-101/P • SP-201P • SP301/P • SP401P GENERAL PURPOSE SOLDER POTS

Plato general purpose solder pots control temperature $\pm 6^{\circ}\text{C}$ through the use of a thermal timer switch with automatic correction for voltage fluctuations.

- Safety heat shield & removable dross tray
- 64mm dia. x 38mm deep crucible
- 907g solder capacity
- Adjustable leveling feet
- All metal construction for ESD protection

Product	Crucible	Volts	Watts	Temp. Range
SP-101	Uncoated Iron	120 Ⓢ	350	260°C - 524°C
SP-101P	Porcelain Coated Iron	120 Ⓢ	350	260°C - 524°C
SO-201P	Porcelain Coated Iron	240*	350	260°C - 524°C
SP-301	Uncoated Iron	120 Ⓢ	500	260°C - 593°C
SP-301P	Porcelain Coated Iron	120 Ⓢ	500	260°C - 593°C
SP-401P	Porcelain Coated Iron	240*	500	260°C - 593°C

* 240V does not include plug. Power cable needs to have locally compatible plug stripped on.

SP-500T/P • SP-150TP PRECISION ELECTRONIC SOLDER POTS

Plato's Precision Solder Pots exceed the requirements of military specifications ANSI J-STD-001B. The pots control temperatures to $\pm 2.75^{\circ}\text{C}$ of a preselected setting and have an LCD temperature display. Designed for voltage sensitive components. Electronics compensate for incoming power fluctuations, limiting transient voltage spiking to 2mV peak-to-peak.

- High precision temperature control $\pm 2.75^{\circ}\text{C}$
- LCD displays preset temperature and operating temperature
- Safety heat shield & removable dross tray
- 64mm dia. x 38mm deep crucible
- 907g solder capacity
- Adjustable leveling feet
- All metal construction for ESD protection

Product	Crucible	Volts	Watts	Temp. Range
SP-500T	Uncoated Iron	120 Ⓢ	350	Ambient - 496°C
SP-500TP	Porcelain Coated Iron	120 Ⓢ	350	Ambient - 496°C
SO-150TP	Porcelain Coated Iron	240*	350	Ambient - 496°C

* 240V does not include plug. Power cable needs to have locally compatible plug stripped on.

SP-600TP • SP-750TP HIGH CAPACITY SOLDER POTS

High capacity pot for pre-tinning large assemblies and for use as a mini-wave. Precision electronic controls have the same features as listed above.

- 102mm width x 152mm length x 102mm deep crucible
- Large capacity – holds 14.5 kg of solder
- Safety crucible cover
- Adjustable leveling feet
- All metal construction

Product	Crucible	Volts	Watts	Temp. Range
SP-600TP	Porcelain Coated Iron	120 Ⓢ	1000	Ambient - 399°C
SO-750TP	Porcelain Coated Iron	240*	1000	Ambient - 399°C

* 240V does not include plug. Power cable needs to have locally compatible plug stripped on.

DISPENSING BOTTLES

Each bottle is available with standard plastic or with optional ESD-safe cover. Plato's ESD-safe bottles are surrounded by permanently static dissipative sleeves that stay out of contact with flux and other liquids. This prevents conductive "hot spots" on the surface of the bottle.

- Protects voltage sensitive devices from static discharge
- Meets ANSI J-STD-001B
- Meets the requirements of DOD-STD-1686 for containers
- Physical characteristics comply with MIL-B-81705, Type 2

FD-2 • FD-21 • SD-01 • SD-02 NEEDLE FLUX DISPENSERS

Needle bottles are ideal for precisely controlled flux applications. Two different needle sizes are available: 0.25mm for low viscosity no-clean and aqueous fluxes, and 0.50mm for higher viscosity rosin-based fluxes.

- Dispense precise amount of flux without dripping, spilling, or waste
- Unique, no leak design

**0.25mm needle for
No-Clean & Aqueous Fluxes**
FD-21 1 bottle
SF-01 1 bottle, ESD-safe

**0.50mm needle for
Rosin-based Fluxes**
FD-2 1 bottle
SF-02 1 bottle, ESD-safe

BC-250 • SF-250 WATER & LIQUID DISPENSING BOTTLES

Polyethylene bottle, screw cap, and dispensing tube with 237ml capacity. Inexpensive way to wet sponges and dispense liquids without waste at the work bench.

BC-250 1 bottle,
SF-250 1 bottle, ESD-safe

SB-2N • SF-B2HH BRUSH SCRUB BOTTLES

Brush bottles are a great way to aggressively but safely clean white flux residues, adhesives, and other difficult soils from electronic assemblies. Natural hog bristles are neutral charge and static dissipative when saturated.

- Inexpensive and safe method to spot clean PCB assemblies
- Compatible with IPA, hexane, and acetone

SB-2N 1 bottle
SF-B2HH 1 bottle, ESD-safe

SPONGES & TINNER

REPLACEMENT SPONGES

Manufactured with pure cellulose (a wood derivative) which has the ability to absorb many times its weight in water. Also resistant to abrasion and tearing when wiping tips. Meets ANSI J-STD-001B for low sulphur content and fine porosity.

- Remove Surface Oxides
- Extend Tip Life
- Remove Excess Solder

Cheap synthetic sponges, like common household sponges, are not recommended for tip cleaning. They contain colorings, plasticizers, stiffeners, and other contaminants which will shorten tip life.

CS-17 PLATO CUT-TO-FIT SHEET

For difficult to find sponge sizes or special applications, Plato offers full sheets of sponge material that can be trimmed to exact size.

CS-17—1 sheet, 216mm x 432mm x 25mm thick

CS-17/625—Thinner Economy Sponge (1 sheet, 216mm x 432mm x 16mm thick)

(SCISSORS NOT INCLUDED)

CS-43 • CS-44/44M HAKKO COMPATIBLE REPLACEMENT SPONGES

CS-43—10 sponges/pack, 45mm x 102mm x 25mm thick
Fits Hakko 926-029B

CS-44—10 sponges/pack, 69mm x 69mm x 25mm thick
Fits Hakko 609-0229, A-1042

CS-44M—10 sponges/pack, 69mm x 69mm x 25mm thick
Fits Hakko 609-0229, A-1042

C-1 • CS-14/14M • CS-33 • CS-44/44M WELLER COMPATIBLE REPLACEMENT SPONGES

C-1—10 sponges/pack, 38mm x 54mm x 25mm thick
Fits Weller SP-60

CS-14—10 sponges/pack, 55mm x 70mm x 25mm thick
Fits Weller 52241999

CS-14M—10 sponges/pack, 55mm x 70mm x 25mm thick
Fits Weller 52241999

CS-33—10 sponges/pack, 70mm x 114mm x 25mm thick
Fits Weller EC-205

CS-44—10 sponges/pack, 69mm x 69mm x 25mm thick
Fits Weller TC-205

CS-44M—10 sponges/pack, 69mm x 69mm x 25mm thick
Fits Weller TC-205

CS-47 METCAL & UNGAR COMPATIBLE REPLACEMENT SPONGES

CS-47—10 sponges/pack, 53mm x 81mm x 25mm thick
Fits Metcal STSS-YS3 and Ungar 455, UTC234

CS-36 HEXACON COMPATIBLE REPLACEMENT SPONGES

CS-9/625—10 sponges/pack, 89mm x 114mm x 16mm thick
Fits Hexacon 8101, 8101C, 8121, 8121C

CS-36—10 sponges/pack, 57mm x 89mm x 25mm thick
Fits Hexacon 8141, 8141C

TT-95 TIP TINNER/TIP CLEANER

Plato's Tip Cleaner provides fast, efficient cleaning and re-tinning of highly oxidized soldering iron tips. This thermally-stable compound is lead-free, environmentally safe, and in an ESD-safe container. Tip Cleaner brings oxidized tips back to life, which improves soldering speed. Roll a hot soldering tip in the Tip Cleaner for a few seconds until the bright tinning surrounds the end of the tip.

- Extends tip life
- Lead-free
- Easy to use

TT-95 1 – 20g container, 10 per case

Компания «ЭлектроПласт» предлагает заключение долгосрочных отношений при поставках импортных электронных компонентов на взаимовыгодных условиях!

Наши преимущества:

- Оперативные поставки широкого спектра электронных компонентов отечественного и импортного производства напрямую от производителей и с крупнейших мировых складов;
- Поставка более 17-ти миллионов наименований электронных компонентов;
- Поставка сложных, дефицитных, либо снятых с производства позиций;
- Оперативные сроки поставки под заказ (от 5 рабочих дней);
- Экспресс доставка в любую точку России;
- Техническая поддержка проекта, помощь в подборе аналогов, поставка прототипов;
- Система менеджмента качества сертифицирована по Международному стандарту ISO 9001;
- Лицензия ФСБ на осуществление работ с использованием сведений, составляющих государственную тайну;
- Поставка специализированных компонентов (Xilinx, Altera, Analog Devices, Intersil, Interpoint, Microsemi, Aeroflex, Peregrine, Syfer, Eurofarad, Texas Instrument, Miteq, Cobham, E2V, MA-COM, Hittite, Mini-Circuits, General Dynamics и др.);

Помимо этого, одним из направлений компании «ЭлектроПласт» является направление «Источники питания». Мы предлагаем Вам помощь Конструкторского отдела:

- Подбор оптимального решения, техническое обоснование при выборе компонента;
- Подбор аналогов;
- Консультации по применению компонента;
- Поставка образцов и прототипов;
- Техническая поддержка проекта;
- Защита от снятия компонента с производства.
