

**LEVEL VI**  
EFFICIENCY  
EMI & EMC

### Features

- Meets DoE Efficiency Level VI Requirements
  - No load input power
  - Average Efficiency
- Up to 60W of AC-DC Power
- Universal Input 90-264Vac Input Range
- IP22 Rated Enclosure
- Meets “Heavy Industrial” Levels of EN61000 EMC Requirements
- Meets EN55011/CISPR11, FCC Part 15.109 Class B Conducted & Radiated Emissions, with 6db margin
- Approved to EN/IEC/UL60950-1, 2<sup>nd</sup> Edition, Am. 2
- E-cap life of >8 years
- >900,000 hours MTBF
- 3 Year Warranty
- IP22 Rated Enclosure

### Description

A high performance AC to DC external power supply family designed for test & measurement and industrial applications. Fully compliant with Efficiency Level VI requirements per U.S. Dept. of Energy, and also compliant to the Heavy Industrial levels of various EN61000-4-x standards for EMC. The TE60A series models also meet Class B conducted and radiated EMI per FCC Part 15, EN55022, CISPR22. Designed to allow easy integration with test and measurement equipment and other industrial applications.

### Model Selection

| Model Number | Volts | Output Current | Output Power | Ripple & Noise <sup>1</sup> | Line Regulation | Load Regulation | Output Cable & Connector                                                                          | Input Configuration                       |
|--------------|-------|----------------|--------------|-----------------------------|-----------------|-----------------|---------------------------------------------------------------------------------------------------|-------------------------------------------|
| TE60A0551F01 | 5.0V  | 7.00A          | 35W          | 75mV pk-pk                  | ±1%             | ±5%             | 6 pin Molex Type <sup>2</sup>                                                                     | Class I Desktop, IEC60320 C14 Receptacle  |

| TE60A4803Q01 | 48.0V | 1.35A          | 60W          | 480mV pk-pk                 | ±1%             | ±5%             |                                                                                                   |                                           |

Notes: 1. Measured at the output connector, with noise probe directly across output and load, terminated with 0.1µF ceramic and 47µF low ESR capacitors. For 5V and 6V models, values listed are typical, 100mV pk-pk maximum.  
 2. Molex p/n 39-01-2060 or equivalent. See outline drawing for pinout information.  
 3. For Input Class I models: For AC GND connected to output common (-), insert a “B” in the part number where the “A” is located (TE60B1203F01).  
 4. All specifications are typical at nominal input, full load, at 25°C ambient unless noted.

All specifications are typical at nominal input, full load, at 25°C ambient unless noted.

## MTE60 Series Output Power Derating Curve:

## Mechanical Drawing:

- Notes:**
- 1) All dimensions in (mm).
  - 2) 2.5mm barrel connector shown, other options are available.
  - 3) The unit should not be covered or enclosed to protect against excessive case temperature rise.

## Connector Information

Standard models include a 2.5 x 5.5 x 9.5mm straight barrel type connector (Ault #3), center positive. Other standard options are listed below. The "03" in the standard model number is replaced by the applicable digits below:

| Connector No. | Description                                                                    |                                                                                     | Connector No. | Description                                                                         |                                                                                       |

TE60A 5V

Компания «ЭлектроПласт» предлагает заключение долгосрочных отношений при поставках импортных электронных компонентов на взаимовыгодных условиях!

Наши преимущества:

- Оперативные поставки широкого спектра электронных компонентов отечественного и импортного производства напрямую от производителей и с крупнейших мировых складов;
- Поставка более 17-ти миллионов наименований электронных компонентов;
- Поставка сложных, дефицитных, либо снятых с производства позиций;
- Оперативные сроки поставки под заказ (от 5 рабочих дней);
- Экспресс доставка в любую точку России;
- Техническая поддержка проекта, помощь в подборе аналогов, поставка прототипов;
- Система менеджмента качества сертифицирована по Международному стандарту ISO 9001;
- Лицензия ФСБ на осуществление работ с использованием сведений, составляющих государственную тайну;
- Поставка специализированных компонентов (Xilinx, Altera, Analog Devices, Intersil, Interpoint, Microsemi, Aeroflex, Peregrine, Syfer, Eurofarad, Texas Instrument, Miteq, Cobham, E2V, MA-COM, Hittite, Mini-Circuits, General Dynamics и др.);

Помимо этого, одним из направлений компании «ЭлектроПласт» является направление «Источники питания». Мы предлагаем Вам помощь Конструкторского отдела:

- Подбор оптимального решения, техническое обоснование при выборе компонента;
- Подбор аналогов;
- Консультации по применению компонента;
- Поставка образцов и прототипов;
- Техническая поддержка проекта;
- Защита от снятия компонента с производства.
