

SB® 50 Connectors - up to 120 amps

Based off the design pioneered by Anderson in 1953, APP's two pole SB® connectors set the standard for DC power distribution and battery connections. SB®50 connectors feature a one piece plastic housing using stainless steel springs to hold low resistance contacts in place. Wires sizes from #16 (1.5 mm²) to #6 (13.3 mm²) are held in the smallest of the SB® series housings.

- **Low Resistance Silver or Tin Plated Copper Contacts**
Allows UL rated currents up to 120 amps
- **UL Rated for Hot Plugging up to 50 Amps**
Great for battery or other applications where the ability to interrupt circuits is required
- **Wire, PCB, and Busbar Contacts**
Allows one connection system to meet multiple needs
