| 10                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                        | 9                              | 8                                     | 7                                                                                                                                                                                                                                                                                                                                                                                                                                                                                           | 6                  | 5                                                                                                                             | 4            | 3                                                                         | 2                | 1                      |                |            |                           |                |               |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                 |                |              |             |   |               |     |       |   |                  |               |              |      |             |          |        |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                 |  |  |  |  |  |  |                                                                                                                             |                                |                                       |  |  |                 |  |       |              |                        |  |  |  |  |         |  |     |      |  |  |  |  |  |               |  |                                                                           |  |  |  |  |  |  |                   |  |  |  |  |                 |  |                    |  |  |  |  |  |  |                     |  |  |  |  |                  |  |              |  |  |  |           |  |  |  |                     |  |  |  |  |              |  |                                                                                                                               |  |  |  |        |  |  |  |               |  |  |  |  |                                                            |  |  |  |  |  |  |  |  |  |  |        |  |  |  |  |  |  |  |

Компания «ЭлектроПласт» предлагает заключение долгосрочных отношений при поставках импортных электронных компонентов на взаимовыгодных условиях!

Наши преимущества:

- Оперативные поставки широкого спектра электронных компонентов отечественного и импортного производства напрямую от производителей и с крупнейших мировых складов;
- Поставка более 17-ти миллионов наименований электронных компонентов;
- Поставка сложных, дефицитных, либо снятых с производства позиций;
- Оперативные сроки поставки под заказ (от 5 рабочих дней);
- Экспресс доставка в любую точку России;
- Техническая поддержка проекта, помощь в подборе аналогов, поставка прототипов;
- Система менеджмента качества сертифицирована по Международному стандарту ISO 9001;
- Лицензия ФСБ на осуществление работ с использованием сведений, составляющих государственную тайну;
- Поставка специализированных компонентов (Xilinx, Altera, Analog Devices, Intersil, Interpoint, Microsemi, Aeroflex, Peregrine, Syfer, Eurofarad, Texas Instrument, Miteq, Cobham, E2V, MA-COM, Hittite, Mini-Circuits, General Dynamics и др.);

Помимо этого, одним из направлений компании «ЭлектроПласт» является направление «Источники питания». Мы предлагаем Вам помощь Конструкторского отдела:

- Подбор оптимального решения, техническое обоснование при выборе компонента;
- Подбор аналогов;
- Консультации по применению компонента;
- Поставка образцов и прототипов;
- Техническая поддержка проекта;
- Защита от снятия компонента с производства.
