

## Six Pair, N- and P-Channel Enhancement-Mode MOSFET

### Features

- ▶ High voltage, vertical DMOS technology
- ▶ Integrated gate-to-source resistor
- ▶ Integrated gate-to-source Zener diode
- ▶ Typical peak output +/-3.5A at 50V
- ▶ Low threshold, low on-resistance
- ▶ Low input & output capacitance
- ▶ Fast switching speeds
- ▶ Electrically isolated N- and P-MOSFET pairs

### Applications

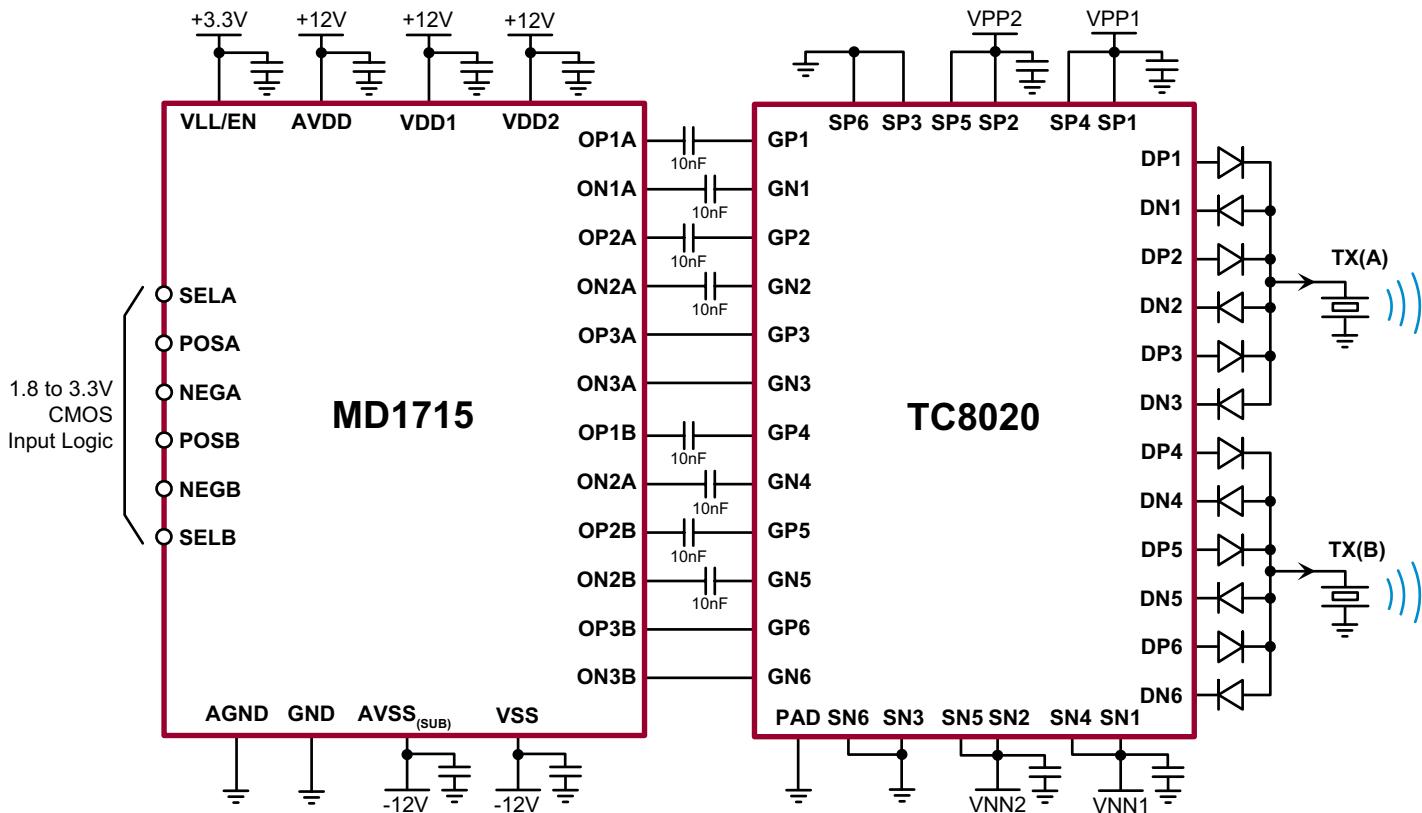

- ▶ High voltage pulsers
- ▶ Amplifiers
- ▶ Buffers
- ▶ Piezoelectric transducer drivers
- ▶ General purpose line drivers
- ▶ Logic level interfaces

### General Description

The Supertex TC8020 consists of six pairs of high voltage, low threshold N- and P-channel MOSFETs in a 56-lead QFN package. All MOSFETs have integrated gate-to-source resistors and gate-to-source Zener diode clamps which are desired for high voltage pulser applications. The complimentary, high-speed, high voltage, gate-clamped N- and P-channel MOSFET pairs utilize an advanced vertical DMOS structure and Supertex's well-proven silicon-gate manufacturing process. This combination produces a device with the power handling capabilities of bipolar transistors and with the high input impedance and positive temperature coefficient inherent in MOS devices.

Characteristic of all MOS structures, this device is free from thermal runaway and thermally-induced secondary breakdown. Supertex's vertical DMOS FETs are ideally suited to a wide range of switching and amplifying applications where very low threshold voltage, high breakdown voltage, high input impedance, low input and output capacitance, and fast switching speeds are desired.

### Typical Application

## Ordering Information

Part Number	Package Option	Packing
TC8020K6-G	56-Lead QFN (8x8)	250/Tray

-G indicates package is RoHS compliant ('Green')

## Absolute Maximum Ratings

Parameter	Value
Drain-to-source voltage	$BV_{DSS}$
Drain-to-gate voltage	$BV_{DGS}$
Operating and storage temperature	-55°C to +150°C

*Absolute Maximum Ratings are those values beyond which damage to the device may occur. Functional operation under these conditions is not implied. Continuous operation of the device at the absolute rating level may affect device reliability. All voltages are referenced to device ground.*

\* Distance of 1.6mm from case for 10 seconds.

## Thermal Characteristics

Package	$\theta_{ja}$
56-Lead QFN (K6)	27°C/W

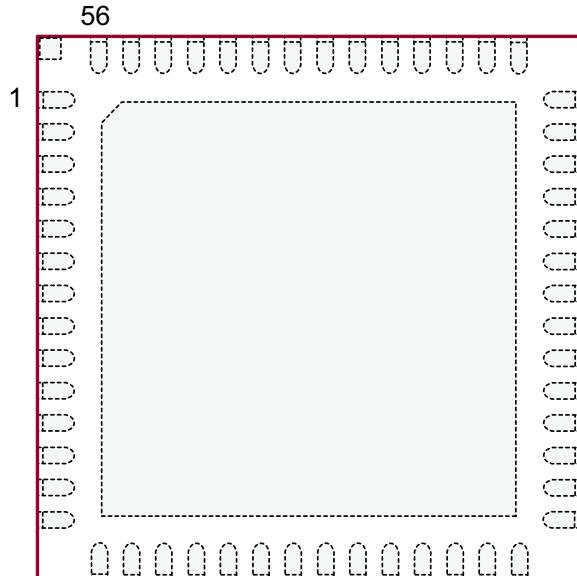

**Note:**

1.0oz, 4-layer, 3"x4" PCB

## Product Summary

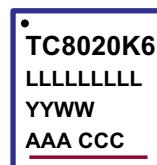

$BV_{DSS}/BV_{DGS}$ (V)		$R_{DS(ON)}$ (max) ( $\Omega$ )	
N-Channel	P-Channel	N-Channel	P-Channel
200	-200	8.0	9.5

## Pin Configuration

*Thermal Pad must be grounded externally.*

# 56-Lead QFN Package Outline (K6)

*8.00x8.00mm body, 1.00mm height (max), 0.50mm pitch*

**Notes:**

1. A Pin 1 identifier must be located in the index area indicated. The Pin 1 identifier can be: a molded mark/identifier; an embedded metal marker; or a printed indicator.
2. Depending on the method of manufacturing, a maximum of 0.15mm pullback (L1) may be present.
3. The inner tip of the lead may be either rounded or square.

Компания «ЭлектроПласт» предлагает заключение долгосрочных отношений при поставках импортных электронных компонентов на взаимовыгодных условиях!

#### Наши преимущества:

- Оперативные поставки широкого спектра электронных компонентов отечественного и импортного производства напрямую от производителей и с крупнейших мировых складов;
- Поставка более 17-ти миллионов наименований электронных компонентов;
- Поставка сложных, дефицитных, либо снятых с производства позиций;
- Оперативные сроки поставки под заказ (от 5 рабочих дней);
- Экспресс доставка в любую точку России;
- Техническая поддержка проекта, помошь в подборе аналогов, поставка прототипов;
- Система менеджмента качества сертифицирована по Международному стандарту ISO 9001;
- Лицензия ФСБ на осуществление работ с использованием сведений, составляющих государственную тайну;
- Поставка специализированных компонентов (Xilinx, Altera, Analog Devices, Intersil, Interpoint, Microsemi, Aeroflex, Peregrine, Syfer, Eurofarad, Texas Instrument, Miteq, Cobham, E2V, MA-COM, Hittite, Mini-Circuits, General Dynamics и др.);

Помимо этого, одним из направлений компании «ЭлектроПласт» является направление «Источники питания». Мы предлагаем Вам помошь Конструкторского отдела:

- Подбор оптимального решения, техническое обоснование при выборе компонента;
- Подбор аналогов;
- Консультации по применению компонента;
- Поставка образцов и прототипов;
- Техническая поддержка проекта;
- Защита от снятия компонента с производства.
