

Quick Reference Guide

Mini-Universal MATE-N-LOK Connector System

The Mini-Universal MATE-N-LOK Connector System offers wire-to-wire and wire-to-board connections with contacts on a 4.14 mm [.163] centerline and current ratings up to 9.5 Amps max. per line. Plug and receptacle housings allow wire-to-wire and wire-to-panel configurations and header assemblies offer wire-to-board connections in vertical and right angle configurations. Wire-to-wire, free-hanging or panel mount options are available in 1-15 position in-line, dual row or matrix configurations and wire-to-board systems in dual row and matrix configurations are available in 2-24 positions. Hermaphroditic housings are also available in 2-4 positions for free-hanging applications. Crimp, snap-in pin and receptacle contacts are used to terminate 30-16 [0.05-1.2 mm²] AWG wire with insulation diameters up to 3.20 mm. The Mini-Universal MATE-N-LOK Connector System also offers a splash-proof design allowing for use in areas where high humidity, intermittent liquid splashing or foam-in applications require a sealed connector for improved electrical performance. The sealed system is available in select 2-16 positions.

FEATURES AND BENEFITS

- Discrete wire interconnect available in 1-24 position wire-to-wire and wire-to-board pin and receptacle connector system
- Contacts are on 4.14 mm centerline spacing
- Contacts are available in strip form or loose piece
- Pins and sockets can be accommodated in the same housing
- Vertical and right angle pin headers
- Splash-proof design for applications that require sealing
- UL, CSA & VDE approved

PRODUCT APPLICATIONS

- Household appliances
- Indoor and outdoor lighting
- Medical equipment
- Security systems
- Industrial controls
- HVAC system controls
- Storage and networking systems

Questions that will help you better select the product that you need:

What are the current and voltage requirements for your application?

The Mini-Universal MATE-N-LOK connector system has a maximum current rating of 9.5 Amps per line and is rated for 600 Volts AC/DC.

What are the wire type and size requirements?

The Mini-Universal MATE-N-LOK connector system contacts are approved for use with 4 different wire ranges from 30 AWG [0.05] to 16 AWG [1.20] wire with a maximum insulation diameter of .126 [3.20].

What are the number of positions?

The Mini-Universal MATE-N-LOK connector system is available in wire-to-wire, free-hanging or panel mount options in 1-15 position in-line, dual row or matrix configurations and wire-to-board is available in 2-24 positions dual row and matrix configurations. The hermaphroditic housings are available in 2-4 positions for free-hanging applications and the sealed system is available in select 2-16 positions.

What are the operating temperature requirements?

The Mini-Universal MATE-N-LOK connector system has a maximum operating temperature of 105°C. For more information regarding operating temperatures refer to Product Specification 108-1542.

What is the benefit of using the hermaphroditic housings?

The Mini-Universal MATE-N-LOK connector system offers a special hermaphroditic housing design where 2 of the same housings in the same position size mate to one another. The benefit of this design simply reduces the amount of part numbers and inventory for the user.

What is the benefit of using the Mini-Universal MATE-N-LOK Sealed Connector System?

The Mini-Universal MATE-N-LOK Sealed Connector System offers a splash-proof design for use in areas where high humidity, intermittent liquid splashing or foam-in applications require a sealed connector for improved electrical performance. The sealed system is available in select 2-16 positions and requires either individual or ganged wire seals and an interface seal in conjunction with the plug and cap housings uniquely designed to accommodate these seals. The sealed plug housings with wire and interface seal can also be mated to the standard Mini-Universal MATE-N-LOK headers without drain holes for a sealed wire to board application.

Компания «ЭлектроПласт» предлагает заключение долгосрочных отношений при поставках импортных электронных компонентов на взаимовыгодных условиях!

Наши преимущества:

- Оперативные поставки широкого спектра электронных компонентов отечественного и импортного производства напрямую от производителей и с крупнейших мировых складов;
- Поставка более 17-ти миллионов наименований электронных компонентов;
- Поставка сложных, дефицитных, либо снятых с производства позиций;
- Оперативные сроки поставки под заказ (от 5 рабочих дней);
- Экспресс доставка в любую точку России;
- Техническая поддержка проекта, помощь в подборе аналогов, поставка прототипов;
- Система менеджмента качества сертифицирована по Международному стандарту ISO 9001;
- Лицензия ФСБ на осуществление работ с использованием сведений, составляющих государственную тайну;
- Поставка специализированных компонентов (Xilinx, Altera, Analog Devices, Intersil, Interpoint, Microsemi, Aeroflex, Peregrine, Syfer, Eurofarad, Texas Instrument, Miteq, Cobham, E2V, MA-COM, Hittite, Mini-Circuits, General Dynamics и др.);

Помимо этого, одним из направлений компании «ЭлектроПласт» является направление «Источники питания». Мы предлагаем Вам помощь Конструкторского отдела:

- Подбор оптимального решения, техническое обоснование при выборе компонента;
- Подбор аналогов;
- Консультации по применению компонента;
- Поставка образцов и прототипов;
- Техническая поддержка проекта;
- Защита от снятия компонента с производства.
