

## SM5006 series

### Crystal Oscillator Module ICs

## OVERVIEW

The SM5006 series are crystal oscillator module ICs, that incorporate high-frequency, low current consumption oscillator and output buffer circuits. Highly accurate thin-film feedback resistors and high-frequency capacitors are built-in, eliminating the need for external components to make a stable 3rd overtone oscillator.

## FEATURES

- Up to 107MHz operation
- Capacitors  $C_G$ ,  $C_D$  built-in
- Inverter amplifier feedback resistor built-in
- TTL input level
- 16mA ( $V_{DD} = 4.5V$ ) drive capability
- 4mA ( $V_{DD} = 4.5V$ ) drive capability (5006AHx)
- Output three-state function
- 2.7 to 5.5V supply voltage
- Oscillator frequency output
- 8-pin SOP (SM5006xxxS)
- Chip form (CF5006xxx)

## SERIES CONFIGURATION

Version <sup>*1</sup>	gm ratio	3V operating		5V operating		Built-in capacitance		$R_f$ [kΩ]	Input level	Output duty level

SM5006AHCS	2	—	—	15	40 to 60	7/7	8	16	4.9	TTL CMOS
SM5006AHDS	2	—	—	15	50 to 70	7/7	8	16	2.6	TTL CMOS

\*1. Chip form devices have designation CF5006xxx.

\*2. The recommended operating frequency is a yardstick value derived from the crystal used for NPC characteristics authentication. However, the oscillator frequency band is not guaranteed. Specifically, the characteristics can vary greatly due to crystal characteristics and mounting conditions, so the oscillation characteristics of components must be carefully evaluated.

\*3. 5006Nx:  $C_L = 50\text{pF}$ , CMOS load, 5006Kx:  $C_L = 15\text{pF}$ , 10TTL load, 5006AHx:  $C_L = 15\text{pF}$ , CMOS load

\*4. SOP package only

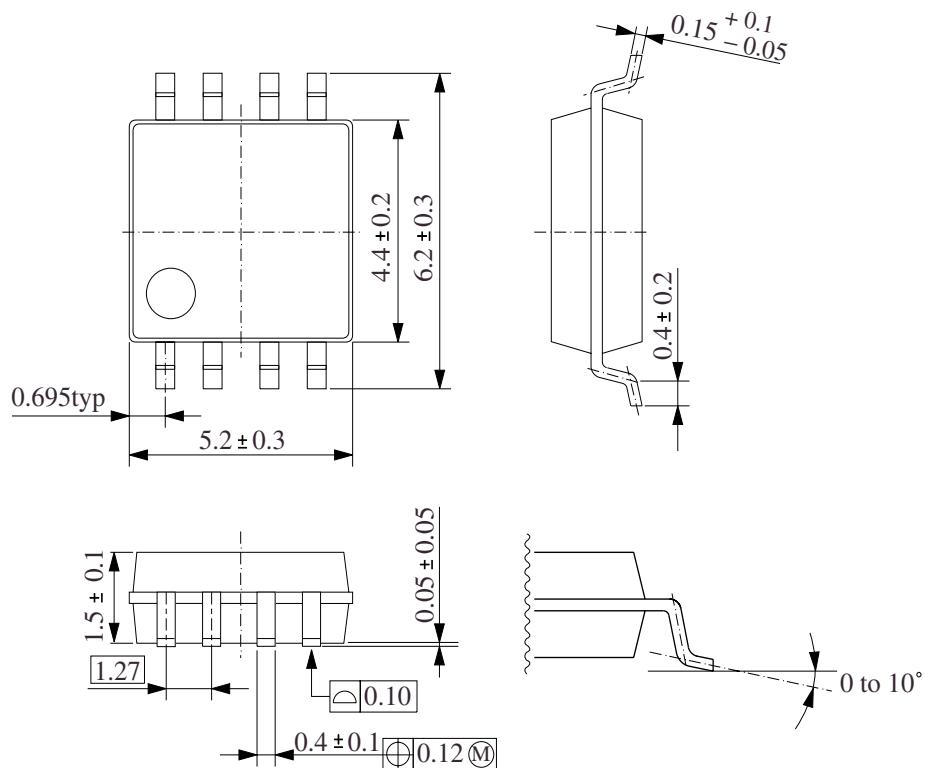

## ORDERING INFORMATION

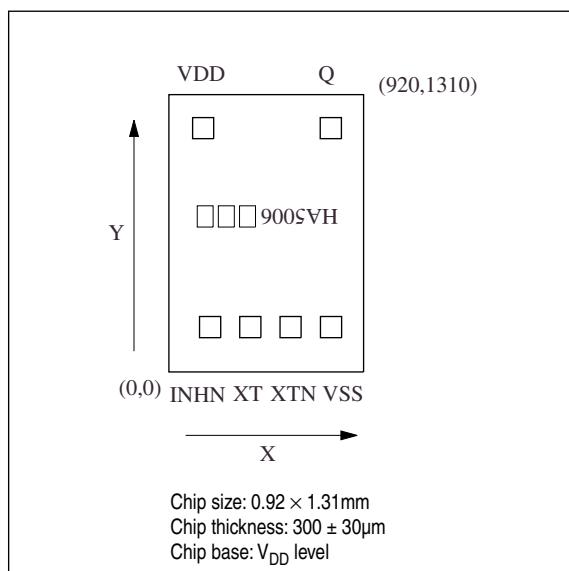

Device	Package
SM5006xxxS	8-pin SOP
CF5006xxx-1	Chip form

## PACKAGE DIMENSIONS

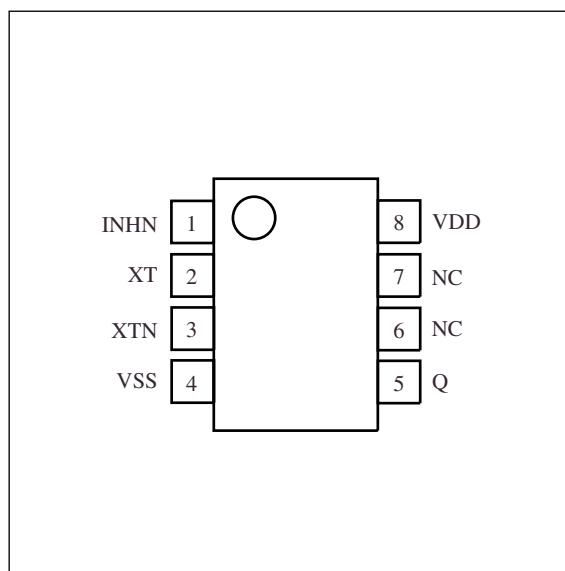

(Unit: mm)

- 8-pin SOP

Компания «ЭлектроПласт» предлагает заключение долгосрочных отношений при поставках импортных электронных компонентов на взаимовыгодных условиях!

#### Наши преимущества:

- Оперативные поставки широкого спектра электронных компонентов отечественного и импортного производства напрямую от производителей и с крупнейших мировых складов;
- Поставка более 17-ти миллионов наименований электронных компонентов;
- Поставка сложных, дефицитных, либо снятых с производства позиций;
