

## 2-Port Compact USB KVM Switch w/Audio and Cable

MODEL NUMBER: **B004-VUA2-K-R**

### Description

The B004-VUA2-K-R is a 2-port Compact USB KVM Switch with optional audio and microphone switching function. It allows you to access, control, boot and reboot two USB-enabled computers from a single console (keyboard, monitor and mouse). The independent audio/mic switching function allows an uninterrupted audio experience - you can continue listening to audio even when you switch to the other computer.

It includes innovative, easy-to-use KVM Switcher Software for Windows and Macintosh platforms. A small client application facilitates your KVM switching operations such as computer selection, hot key sequence programming, auto-scanning, auto-scan delay time programming, independent or simultaneous audio/computer switching and more. Compatible with all major operating systems.

### Features

- Fast, easy switching via keyboard hot keys, push buttons or software
- Plug-and-play setup - no software required
- Hot-swap capability allows easy addition or removal of computers without powering down the switch or other computers
- Speaker and microphone connections allow sharing of audio components between systems (standard 3.5 mm audio connections)
