

Variable Gain Dual Stage EDFA With Mid-stage Access or in East/West Configuration

Key Features

- ▶ 15 dB variable gain range for each gain stage
- ▶ Gain flatness 0.7 dB peak-to-peak for each gain stage (<1.2 dB total with mid-stage access)
- ▶ Transient suppression for 19 dB add/drop with gain excursion of less than 1 dB and setting time of less than 400 μsec
- ▶ Up to 23 dBm output power
- ▶ Up to 15 dB variable mid-stage loss
- ▶ Noise figure <5.5 dB at highest gain
- ▶ Class 1M* laser safety including also output powers above 21 dBm (using patented APR mechanisms)
- ▶ RS232 and I²C communication, full set of control options and alarms
- ▶ Certified to GR1312 and GR1089

Applications

- ▶ Regional / long haul networks
- ▶ ROADM Nodes
- ▶ High capacity links (up to 96 channels)
- ▶ Legacy networks with DCF

Overview

Finisar's Variable Gain (VG) Dual Stage EDFA provides flattened gain across the C-band, low noise figure, and a large dynamic gain range (up to 15 dB). The product also includes many other advanced features such as comprehensive transient control, tunable mid-stage access (MSA) loss, and gain tilting functionality. The Variable Gain Dual Stage EDFA can be implemented in all network segments (access, metro, regional and long haul) and for all network applications (telecom, cable and enterprise).

The Variable Gain Dual Stage EDFA can be provided in two possible configurations, as shown in the figure below:

- ▶ With mid-stage access configuration allowing a dispersion compensating fiber to be placed at the amplifier mid-stage
- ▶ East/West configuration for ROADM applications comprising two completely independent Variable Gain Dual Stage EDFA gain stages, ensuring maximum network design flexibility. This configuration is also useful for packaging two single stage variable gain amplifiers within a single module, leading to cost and space savings.

Configurations for implementing the Variable Gain Dual Stage EDFA

Variable Gain Dual Stage EDFA

Specifications

Parameter	P/N	FOA-M7100DA-EVG2C-AA013		FOA-M7100DA-EVG2C-AA014		FOA-R7100DA-EVG2C-AA015

Компания «ЭлектроПласт» предлагает заключение долгосрочных отношений при поставках импортных электронных компонентов на взаимовыгодных условиях!

Наши преимущества:

- Оперативные поставки широкого спектра электронных компонентов отечественного и импортного производства напрямую от производителей и с крупнейших мировых складов;
- Поставка более 17-ти миллионов наименований электронных компонентов;
- Поставка сложных, дефицитных, либо снятых с производства позиций;
- Оперативные сроки поставки под заказ (от 5 рабочих дней);
- Экспресс доставка в любую точку России;
- Техническая поддержка проекта, помощь в подборе аналогов, поставка прототипов;
- Система менеджмента качества сертифицирована по Международному стандарту ISO 9001;
- Лицензия ФСБ на осуществление работ с использованием сведений, составляющих государственную тайну;
- Поставка специализированных компонентов (Xilinx, Altera, Analog Devices, Intersil, Interpoint, Microsemi, Aeroflex, Peregrine, Syfer, Eurofarad, Texas Instrument, Miteq, Cobham, E2V, MA-COM, Hittite, Mini-Circuits, General Dynamics и др.);

Помимо этого, одним из направлений компании «ЭлектроПласт» является направление «Источники питания». Мы предлагаем Вам помощь Конструкторского отдела:

- Подбор оптимального решения, техническое обоснование при выборе компонента;
- Подбор аналогов;
- Консультации по применению компонента;
- Поставка образцов и прототипов;
- Техническая поддержка проекта;
- Защита от снятия компонента с производства.
