

## Magnetic rotary angle and position sensor-control.

# Contactless sensor. PSC-360

The robust PSC-360 is a low-cost high performance non-contacting rotary position sensor for automotive, off-road, medical and industrial applications without the limitations of potentiometric solutions (wear, limited electrical angles...) A configurable switch output is integrated within the sensor too.

Full redundancy can be achieved by employing a dual core version or the simple placement of two sensors within the housing.

Sealed and flange mounted for easy positioning when necessary, it provides high stability under harsh environment conditions such as vibration, shock, extreme temperatures / humidity, dither, moisture or dirt. Featuring a modular architecture, electrical & mechanical characteristics can be fully customised to customer's needs as well as connector configurations.

## Mechanical specifications

Rotational life (depends on application and mounting)	up to 50.000.000 cycles.
Operating temperature <sup>1</sup>	up to -40°C to +125°C.
Sealing <sup>1</sup>	IP67.

## Electrical specifications

Linearity <sup>1</sup>	±1% absolute (0.5% check availability).
Angular range	Programmable from 15 to 360 degrees (without dead band).
Output	Analog (Ratiometric), PWM, Serial Protocol.
Switch output	Yes, programmable.
Angular Resolution (depends on electrical angle and rotational speed)	Analog & PWM: up to 12 bits. Serial Protocol (SPI): up to 14 bits.
Operating temperature	-40°C to +85°C (-13°F to + 158°F).
Supply voltage <sup>1</sup>	5V/12V/15V ±10%.
Supply current	Typ 8.5mA for single version. Typ 17mA for redundant version.

<sup>1</sup> Others check availability.

## Key features

- Simple & Robust Magnetic Design.
- Multiturn.
- Programmable switch output.
- Programmable Linear Transfer Characteristic:  
(some positive slopes & one negative slope can be programmed in the same transfer characteristic; up to 4 programmable points; see last page)
- Self-Diagnostic features
- Over voltage protection and reverse voltage protection.

Also upon request:

- True full redundant version.

## Applications

- Non-Contacting long life angle/position sensor.
- Absolute rotary position sensor
- Pedal position sensor.
- Throttle/EGR valve and gear position sensor.
- Height & suspension sensor.
- Non-contacting potentiometer.
- Float-level sensor.
- Motor-shaft position sensor.
- Precision robotics, industrial equipment, HVAC monitoring & control, etc.

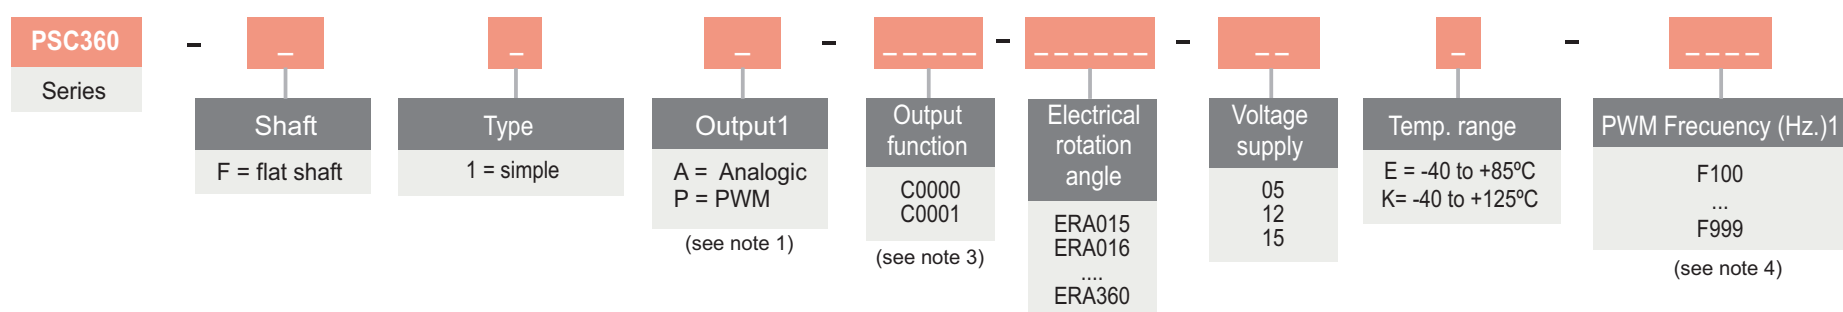

## Piher Sensors & Controls SA

## Magnetic rotary angle and position sensor-control.

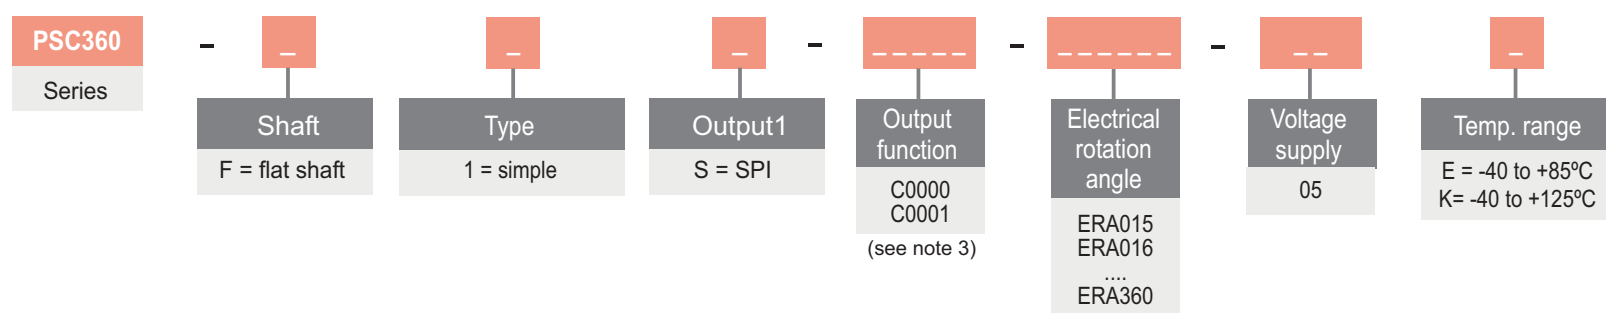

# Contactless sensor. PSC-360

### How to order.

Simple output (analogic / PWM)

Simple output (SPI)

Redundant output (analogic / PWM) without switch

Other product configurations will be studied case by case.

#### Notes

- (1) The analog output is a ratiometric output, proportional to:
- For supply voltage 5V: to input supply voltage.
  - For supply voltage 12V: to 5V.
  - For supply voltage 15V: to 5V.

- (2) Leave empty if no applicable.

Switch function diagram:

- (3) Other output functions available check availability. In the How To Order reference, enter **CXXXX** meanwhile the new output function reference is not defined.

- (4) Leave empty if no applicable. Default frequency is 200 Hz

## Piher Sensors & Controls SA

Our product competencies and services:

Potentiometers | Position / angle sensors | Rotary switches | Incremental encoders  
Printed circuit resistors | Mechatronics | Value added assemblies

## Magnetic rotary angle and position sensor-control.

# Contactless sensor. PSC-360

## Options

- Special outputs slopes and protocols.
- Full redundant version with switches.
- Energy harvesting versions.
- Fast versions.
- Connectors.
- IP sealing.
- Shaft interfaces.
- Contact the factory for other options.

## Dimensions

# Contactless sensor. PSC-360

### Mounting instructions.

- 1.- Place the component on a flat surface.
- 2.- Fasten the two M4 screws (M4 washers are recommended).
- 3.- Fit the actuator onto the shaft avoiding any mechanical play/wobble.

### Connections scheme.

Simple analog output connection wiring scheme:

- Brown = Power supply.
- Blue = Ground.
- Black = Signal output.
- White = Not used.
- Grey = Not used.

Cable length: 245mm

## Key features

- Simple & Robust Magnetic Design.
- High resolution (up to 14-bit)
- Absolute position feedback up to 360° (keeps position on power loss).
- Low profile.
- Easy integration into existing systems
- Full true-redundant versions.
- Conceived for harsh environments applications.
- Protected from magnetic fields, dust, moisture, vibrations, extreme temperatures.
- Analog output ready for easy potentiometer replacement.
- Multiturn.
- Programmable Linear Transfer Characteristic:  
(some positive slopes & one negative slope can be programmed in the same transfer characteristic;  
up to 4 programmable points; see last page)
- Self-Diagnostic features
- Over voltage protection and reverse voltage protection.

## Applications

Компания «ЭлектроПласт» предлагает заключение долгосрочных отношений при поставках импортных электронных компонентов на взаимовыгодных условиях!

Наши преимущества:

- Оперативные поставки широкого спектра электронных компонентов отечественного и импортного производства напрямую от производителей и с крупнейших мировых складов;
- Поставка более 17-ти миллионов наименований электронных компонентов;
- Поставка сложных, дефицитных, либо снятых с производства позиций;
- Оперативные сроки поставки под заказ (от 5 рабочих дней);
- Экспресс доставка в любую точку России;
- Техническая поддержка проекта, помощь в подборе аналогов, поставка прототипов;
- Система менеджмента качества сертифицирована по Международному стандарту ISO 9001;
- Лицензия ФСБ на осуществление работ с использованием сведений, составляющих государственную тайну;
- Поставка специализированных компонентов (Xilinx, Altera, Analog Devices, Intersil, Interpoint, Microsemi, Aeroflex, Peregrine, Syfer, Eurofarad, Texas Instrument, Miteq, Cobham, E2V, MA-COM, Hittite, Mini-Circuits, General Dynamics и др.);

Помимо этого, одним из направлений компании «ЭлектроПласт» является направление «Источники питания». Мы предлагаем Вам помощь Конструкторского отдела:

- Подбор оптимального решения, техническое обоснование при выборе компонента;
- Подбор аналогов;
- Консультации по применению компонента;
- Поставка образцов и прототипов;
- Техническая поддержка проекта;
- Защита от снятия компонента с производства.
