

High Performance Backshells and Caps

SUNBANK products define the standard for highly reliable, environment resisting, electrically passive components. We offer a full range of backshells and caps in different materials and platings.

Highest reliability ■ Qualified according to:
· AS85049
· MIL-DTL-38999
· MS27501/MS27502

Designed for a wide range of qualified products ■ Available for most of the standard connectors known on the market.

Many plating options ■ High corrosion resistance and electrical continuity properties.
