Fused Lighting & Appliance Panelboard

EP Series Coordination Module™

The Cooper Bussmann® Coordination Module™ saves you time and money by making it easy to meet NEC® selective coordination requirements. The Cooper Bussmann Coordination Module makes it simple to achieve and verify selective coordination in a fully fused system. Utilize published fuse coordination ratios to select the correct upstream fuse rating. The ratios ensure coordination for any level of fault current, so short-circuit current studies are not required to design a selective coordinated system.

General Information:

- Use Low-Peak® fuses and a 2:1 ratio to easily achieve coordination
- Locate open fuses with *easy*ID™ neon indicator
- Use to comply with 2008 NEC® selective coordination requirements for emergency, legally required standby and essential electrical systems per sections 700.27, 701.18, 517.26 and 708.54

Catalog Symbol: EP
Voltage Ratings: 120/208V, 120/240V, 277/480V
Main Device Type: MLO (200A), Main Circuit Breaker (up to 200A)
Enclosure: NEMA 1
Trim: Surface Mount
Agency Information: UL 67, UL 50

Assembly not available for new installations.
Recommended replacement is the
Quik Spec™ Coordination Panelboard (QSCP).
See Data Sheet 1160 for details.

Coordination Module™ Specifications

EP4B_3042GCC	277/480V	100kA**	28" W X 48" H X 5.75" D	3-Phase, 4 Wire	42	Main Breaker

* When protected by upstream LPN-RK 100A max, LPJ 200A max or JJN 200A max, otherwise 10kA.

** When protected by upstream LPS-RK 200A max, LPJ 200A max or JJS 200A max, otherwise 14kA.

Main breaker option may impact selective coordination. Coordination must be verified analyzing time current curves and available current.

Feed through lugs available upon request

Компания «ЭлектроПласт» предлагает заключение долгосрочных отношений при поставках импортных электронных компонентов на взаимовыгодных условиях!

Наши преимущества:

- Оперативные поставки широкого спектра электронных компонентов отечественного и импортного производства напрямую от производителей и с крупнейших мировых складов;
- Поставка более 17-ти миллионов наименований электронных компонентов;
- Поставка сложных, дефицитных, либо снятых с производства позиций;
- Оперативные сроки поставки под заказ (от 5 рабочих дней);
- Экспресс доставка в любую точку России;
- Техническая поддержка проекта, помощь в подборе аналогов, поставка прототипов;
- Система менеджмента качества сертифицирована по Международному стандарту ISO 9001;
- Лицензия ФСБ на осуществление работ с использованием сведений, составляющих государственную тайну;
- Поставка специализированных компонентов (Xilinx, Altera, Analog Devices, Intersil, Interpoint, Microsemi, Aeroflex, Peregrine, Syfer, Eurofarad, Texas Instrument, Miteq, Cobham, E2V, MA-COM, Hittite, Mini-Circuits,General Dynamics и др.);

Помимо этого, одним из направлений компании «ЭлектроПласт» является направление «Источники питания». Мы предлагаем Вам помощь Конструкторского отдела:

- Подбор оптимального решения, техническое обоснование при выборе компонента;
- Подбор аналогов;
- Консультации по применению компонента;
- Поставка образцов и прототипов;
- Техническая поддержка проекта;
- Защита от снятия компонента с производства.
