

## MICA DIELECTRIC COMPRESSION TRIMMER CAPACITORS

### FEATURES

- Very large capacitance ranges
- High Q
- Good RF current handling capability
- Many forms and mounting styles

### SPECIFICATIONS

**Operating Temperature Range:** -35°C to +85°C

**Maximum Capacitance:** When set at the tight position (tight defined as 28 oz-in/2.0 kg-cm), the maximum capacitance will be no less than the value indicated in the table.

**Minimum Capacitance:** When adjusting screw is rotated 3 turns from tight position (2 turns for types 1, 5, and 9), the minimum capacitance will be no greater than the value indicated in the table.

| Voltage:      | Working (VDC) | Dielectric Withstanding (VDC) |
|---------------|---------------|-------------------------------|
| Type 1        | 250           | 500                           |
| Types 2, 3, 4 | 175           | 350                           |
| Type 5        | 500           | 1000                          |
| Types 6, 7, 8 | 250           | 500                           |
| Type 9        | 2000          | 2700                          |

**Insulation Resistance:** 100,000 megohms min at 25°C

**Q:** Minimum Q at 1 MHz per graph (for units which have nominal maximum capacitance ≤ 1000 pF).

**Dissipation Factor:** Maximum DF = 0.004 at 1 kHz (for units which have nominal maximum capacitance > 1000 pF).

**Capacitance change with temperature** (capacitor set at 1/4 to 1/2 turn from the tight position):

$$\begin{aligned} \text{Types 1, 5, 9} &= \pm (2.5\% + 0.3 \text{ pF}) \\ \text{Types 2, 3, 4, 6, 7, 8} &= \pm (1.5\% + 0.3 \text{ pF}) \end{aligned}$$

**Capacitance drift with temperature** (capacitor set at 1/4 to 1/2 turn from the tight position):

$$\begin{aligned} \text{Types 1, 5, 9} &= \pm (2.0\% + 0.5 \text{ pF}) \\ \text{Types 2, 3, 4, 6, 7, 8} &= \pm (1.5\% + 0.5 \text{ pF}) \end{aligned}$$

**Q vs Capacitance**  
(1 MHz)

## PART NUMBERING SYSTEM

### Types 2 and 6

| Capacitance Range (pF) |     | Model No. <sup>1</sup> |
|------------------------|-----|------------------------|
| min                    | max |                        |
| 2.5                    | 7   | GM_20000               |
| 4                      | 20  | GM_20200               |
| 8                      | 45  | GM_20300               |
| 12                     | 65  | GM_20400               |
| 16                     | 90  | GM_20500               |
| 25                     | 115 | GM_20600               |
| 55                     | 285 | GM_20700               |
| 90                     | 340 | GM_20800               |

<sup>1</sup> Insert letter A, B, C, or D in blank space for mounting style required.  
 For type 6, substitute 6 for 2 in the fourth character of the catalog number.  
 Example: GMA20200 becomes GMA60200

### Types 3 and 7

| Capacitance Range (pF) |     | Model No. <sup>2</sup> |
|------------------------|-----|------------------------|
| min                    | max |                        |
| 2.5                    | 12  | GM_30000               |
| 3.5                    | 25  | GM_30100               |
| 7.0                    | 40  | GM_30200               |
| 16.0                   | 100 | GM_30300               |
| 25.0                   | 150 | GM_30400               |
| 40.0                   | 200 | GM_30500               |
| 56.0                   | 250 | GM_30600               |
| 75.0                   | 300 | GM_30700               |
| 95.0                   | 350 | GM_30800               |
| 115.0                  | 400 | GM_30900               |
| 130.0                  | 450 | GM_31000               |
| 150.0                  | 500 | GM_31100               |
| 170.0                  | 550 | GM_31200               |
| 200.0                  | 600 | GM_31300               |
| 220.0                  | 650 | GM_31400               |
| 240.0                  | 700 | GM_31500               |

<sup>2</sup> Insert letter A, B, C, or D in blank space for mounting style required.  
 For type 7, substitute 7 for 3 in the fourth character of the catalog number.  
 Example: GMA30200 becomes GMA70200

### Types 4 and 8

| Capacitance Range (pF) |      | Model No. <sup>3</sup> |
|------------------------|------|------------------------|
| min                    | max  |                        |
| 3                      | 15   | GM_40000               |
| 5                      | 30   | GM_40100               |
| 10                     | 80   | GM_40200               |
| 20                     | 180  | GM_40300               |
| 45                     | 280  | GM_40400               |
| 75                     | 380  | GM_40500               |
| 105                    | 480  | GM_40600               |
| 140                    | 580  | GM_40700               |
| 175                    | 680  | GM_40800               |
| 215                    | 790  | GM_40900               |
| 260                    | 900  | GM_41000               |
| 300                    | 1000 | GM_41100               |
| 330                    | 1100 | GM_41200               |
| 360                    | 1200 | GM_41300               |
| 380                    | 1300 | GM_41400               |
| 420                    | 1400 | GM_41500               |

<sup>3</sup> Insert letter A, B, C, or D in blank space for mounting style required.  
 For type 8, substitute 8 for 4 in the fourth character of the catalog number.  
 Example: GMA40200 becomes GMA80200

## SPRAGUE-GOODMAN MICA DIELECTRIC TRIMMER CAPACITORS TYPES 2, 3 and 4 (175 WVDC) TYPES 6, 7 and 8 (250 WVDC)

| Type  | L                    | W                    | H                    | H <sub>1</sub>       | H <sub>2</sub>       | B                    | D                    | E                    | F                    | G                    |
|-------|----------------------|----------------------|----------------------|----------------------|----------------------|----------------------|----------------------|----------------------|----------------------|----------------------|
| 2 & 6 | $\frac{0.531}{13.5}$ | $\frac{0.375}{9.53}$ | $\frac{0.719}{18.3}$ | $\frac{0.563}{14.3}$ | $\frac{0.719}{18.3}$ | $\frac{0.315}{8.00}$ | $\frac{0.175}{4.45}$ | $\frac{0.188}{4.76}$ | $\frac{0.563}{14.3}$ | $\frac{0.594}{15.1}$ |
| 3 & 7 | $\frac{0.750}{19.1}$ | $\frac{0.375}{9.53}$ | $\frac{0.781}{19.8}$ | $\frac{0.625}{15.9}$ | $\frac{0.625}{15.9}$ | $\frac{0.315}{8.00}$ | $\frac{0.175}{4.45}$ | $\frac{0.188}{4.76}$ | $\frac{0.813}{20.6}$ | $\frac{0.781}{19.8}$ |
| 4 & 8 | $\frac{0.750}{19.1}$ | $\frac{0.625}{15.9}$ | $\frac{0.781}{19.8}$ | $\frac{0.563}{14.3}$ | $\frac{0.969}{24.6}$ | $\frac{0.546}{13.9}$ | $\frac{0.206}{5.23}$ | $\frac{0.281}{7.14}$ | $\frac{0.813}{20.6}$ | $\frac{0.813}{20.6}$ |

Dimensions are in/mm.

## SPRAGUE-GOODMAN MICA DIELECTRIC TRIMMER CAPACITORS TYPES 1, 5 and 9

| Style | L                    | A (Thread)   | Special Feature |
|-------|----------------------|--------------|-----------------|
| E     | $\frac{0.250}{6.35}$ | #12-40 UNS-2 | None            |
| F     | $\frac{0.188}{4.76}$ | 1/4-40 UNS-2 | None            |
| G     | $\frac{0.281}{7.14}$ | 1/4-40 UNS-2 | None            |
| H     | $\frac{0.188}{4.76}$ | 1/4-40 UNS-2 | Split Bushing   |

Dimensions are in/mm.

### Type 1

| Working Voltage: 250 VDC |      | Model No. <sup>4</sup> |
|--------------------------|------|------------------------|
| Test Voltage: 500 VDC    |      |                        |
| Capacitance Range (pF)   |      | Model No. <sup>4</sup> |
| min                      | max  |                        |
| 15                       | 130  | GM__10201              |
| 65                       | 340  | GM__10301              |
| 115                      | 550  | GM__10401              |
| 190                      | 760  | GM__10501              |
| 275                      | 970  | GM__10601              |
| 350                      | 1180 | GM__10701              |
| 450                      | 1390 | GM__10801              |
| 550                      | 1600 | GM__10901              |
| 650                      | 1890 | GM__11001              |
| 780                      | 2110 | GM__11101              |
| 880                      | 2330 | GM__11201              |
| 1150                     | 2605 | GM__11301              |
| 1300                     | 2830 | GM__11401              |
| 1400                     | 3055 | GM__11501              |

### Type 5

| Working Voltage: 500 VDC |      | Model No. <sup>4</sup> |
|--------------------------|------|------------------------|
| Test Voltage: 1000 VDC   |      |                        |
| Capacitance Range (pF)   |      | Model No. <sup>4</sup> |
| min                      | max  |                        |
| 15                       | 120  | GM__50201              |
| 65                       | 320  | GM__50301              |
| 100                      | 500  | GM__50401              |
| 180                      | 690  | GM__50501              |
| 265                      | 880  | GM__50601              |
| 340                      | 1070 | GM__50701              |
| 425                      | 1260 | GM__50801              |
| 525                      | 1415 | GM__50901              |
| 615                      | 1600 | GM__51001              |
| 730                      | 1785 | GM__51101              |
| 800                      | 1970 | GM__51201              |
| 1000                     | 2155 | GM__51301              |
| 1100                     | 2340 | GM__51401              |
| 1200                     | 2525 | GM__51501              |

### Type 9

| Working Voltage: 2000 VDC |     | Model No. <sup>4</sup> |
|---------------------------|-----|------------------------|
| Test Voltage: 2700 VDC    |     |                        |
| Capacitance Range (pF)    |     | Model No. <sup>4</sup> |
| min                       | max |                        |
| 10                        | 48  | GM__90201              |
| 45                        | 105 | GM__90301              |
| 70                        | 160 | GM__90401              |
| 95                        | 230 | GM__90501              |
| 100                       | 270 | GM__90601              |
| 170                       | 350 | GM__90701              |
| 190                       | 380 | GM__90801              |
| 250                       | 480 | GM__90901              |

<sup>4</sup> Insert letter E, F, G or H in blank space for mounting style (Style H not available in Type 9). Model numbers are shown with the "01" modification, calling for a mica insulated screw, which is the way types 1, 5, and 9 are normally supplied.

Компания «ЭлектроПласт» предлагает заключение долгосрочных отношений при поставках импортных электронных компонентов на взаимовыгодных условиях!

Наши преимущества:

- Оперативные поставки широкого спектра электронных компонентов отечественного и импортного производства напрямую от производителей и с крупнейших мировых складов;
- Поставка более 17-ти миллионов наименований электронных компонентов;
- Поставка сложных, дефицитных, либо снятых с производства позиций;
- Оперативные сроки поставки под заказ (от 5 рабочих дней);
- Экспресс доставка в любую точку России;
- Техническая поддержка проекта, помощь в подборе аналогов, поставка прототипов;
- Система менеджмента качества сертифицирована по Международному стандарту ISO 9001;
- Лицензия ФСБ на осуществление работ с использованием сведений, составляющих государственную тайну;
- Поставка специализированных компонентов (Xilinx, Altera, Analog Devices, Intersil, Interpoint, Microsemi, Aeroflex, Peregrine, Syfer, Eurofarad, Texas Instrument, Miteq, Cobham, E2V, MA-COM, Hittite, Mini-Circuits, General Dynamics и др.);

Помимо этого, одним из направлений компании «ЭлектроПласт» является направление «Источники питания». Мы предлагаем Вам помощь Конструкторского отдела:

- Подбор оптимального решения, техническое обоснование при выборе компонента;
- Подбор аналогов;
- Консультации по применению компонента;
- Поставка образцов и прототипов;
- Техническая поддержка проекта;
- Защита от снятия компонента с производства.
