Introduction

The XLR connector series is probably together with the Speakon® series Neutrik's most known product range and has due to the simple but striking concept been one of the most important keys to our great success.

We introduced the first XLR version more than 25 years ago, meanwhile it became the worldwide accepted standard.

XLR connectors are widely used in various applications of the professional audio world. Whether as microphone connector, on lighting applications or any kind of sound equipment, the XLR is all over the entertainment industry.

Keyfeatures are:

- Reliable and robust
- Easy to assemble, simple to use
- Excellent cable protection and retention
- Colour coding
- Available in 3 to 7 pole

The reason for the outstanding success of the series is in accompany with these features a constant and peerless quality.
