Aero-Motive® Balancers Enhance Productivity

It's a simple fact. Make a job easier to do, and you can do it better, faster, longer. Balancers and tool support systems by Woodhead improve the productivity of light assembly, packaging, and many other shop floor workers by keeping their tools out of the way when not needed. With balancers, workstations can be organized more efficiently by ensuring that tools are always in the right place. Expensive power tools suspended from balancers are safeguarded from being accidentally dropped onto the floor or onto other expensive products or equipment.

Selection Guide

When selecting a balancer, be sure that all items to be supported are considered: tools, drill bits, sockets, hoses, cable, etc. This Selection Guide is to be used only as a reference for non-ratchet lock devices. See the main pages for ratchet balancer specs. Actual selection depends on weight to be balanced and cable travel required.

Page Guide

Positioner.	4
Retractors	4-7
Balancers.	7-13
Torque Reels & Grounding Reels	14
Accessories.	15-18
Cable Support Grips	19
Workstation Assemblies	20-23
Technical Drawings	24-27

Always use a secondary support on overhead-mounted balancers to prevent the possibility of the balancer accidentally falling. See page 15 to select a secondary support chain.

Positioner

- Supports weight mid-stroke
- Must lift tool to upper position
- Support up to 4.5 kg/10 lb

Positioners use an adjustable friction brake to support the weight of the suspended tool or object. The object can be placed in any position within the cable travel range and it will remain in that position. The object can be moved downward with very little effort, depending on the adjustment; however, the full weight of the object must be lifted to move it upward.

Retractors

- Retracts tools to upper position
- Light force to hold mid-stroke
- Retract up to 10 kg/22 lb

Retractors are designed to retract the cable when no force is applied. An amount of downward force must be continually applied to keep the suspended object at its extended position. The torque output of the rewind spring increases as the cable is extended, retracting the suspended object to the uppermost adjusted position when released.

Balancers

- Balances tool in any position
- Very little effort to move tool
- Balance up to 168 kg/370 lb

Balancers allow the worker to move the suspended tool or object up or down with very little effort. Depending on the spring adjustment, object will remain in position or retract when no force is applied. With a spiral groove on a tapered drum, the winding radius is increased to match the torque buildup of the spring, thus neutralizing it and achieving a balance condition.

POSITIONER

GM	0.5 - 4.5 kg
1.0 - 10.0 lb	TOOL POSITIONER

- Holds an object in desired position within travel range without use of a ratchet or locking device
- Easy downward tool mobility
- Simple upward repositioning of load, requiring only a force equal to the weight of the suspended object
- Minimizes operator fatigue in repetitive-motion applications with light loads
- Easy tension adjustment by placing screwdriver or coin into slot of shaft.
- For light duty use

Accessory Tool Clip (only)

RETRACTORS

F	0.4 - 10.0 kg
1.0 - 22.0 lb	RETRACTORS

- Easy tension adjustment with no special tools required
- Heavy-duty steel construction for long life
- Long-lasting mainspring designed to minimize spring flexing and fatigue
- Tool can be set at desired position with adjustable cable stop
- Durable $\frac{3}{32}$ "-diameter stranded steel aircraft cable
- Ratchet lock (on FLR models) locks out retraction tension for unrestricted tool movement (ON/OFF switchable)

Make tools
virtually
weightless
for faster,
safer
production

Aero-Motive® balancers suspend tools where they are easy to reach and use. They allow workers to move faster with less risk of fatigue and repetitive motion stress. They also help prevent tools from being misplaced or damaged.

True precision for optimum productivity Many balancers on the market promise “zero gravity” but deliver only within a narrow segment of their range. TrueBalancers always live up to their name. That is why we offer hundreds of choices ranging from 1.4 to 168 kg (3 to 370 lb) capacity. Advances such as high-impact housings, spiral-grooved tapered drums, manual drum locks and replaceable spring assemblies, ensure long-term performance and value.

Safer & easier to use Redundant safety features are built into every balancer. Simple tension adjustment and easy cable replacement also help make Aero-Motive balancers from Woodhead leaders in safety and convenience.

BALANCERS

BF	1.4 - 10.9 kg
3.0 - 24.0 lb	BALANCERS

- Heavy-duty, long-life spring for lasting performance
- Automatic lock prevents load from falling if spring loses tension
- Snap-type tool clip for simplified attachment and removal
- Forged steel 360° swivel hanger
- High-impact composite housing for extra durability
- Ratchet lock (on BFL models) holds cable at desired position
- Shackle design instead of hook and spring clip provides extra-secure mounting
- 3/32" diameter stranded galvanized steel cable

*Longer lead times may apply.

1 5 1 5 T	2.3 - 6.8 kg
5.0 - 15.0 lb	TORQUE REELS

Torque reels are reeling devices primarily designed for suspending push-button pendent stations weighing up to 15 lbs. A lock mechanism permits the operator to stop a load at a desired height, while a slight pull on the cable releases the lock.

- Easy load height adjustment; a slight pull on the cable releases the lock
- Features an Off switch to disengage locking mechanism when constant tension is required
- Easy external tension adjustment
- Adjustable cable stop, snap hook, multi-directional guide, forged clevis top mount, and 15 feet of cable
- Rigid mount included on model 1515TR
- 3/32" diameter stranded galvanized steel cable

See page 27 for dimensions

Torque Reels

model	weight (kg)	travel (m)	tension buildup(kg)	weight (lb)	travel (ft)	tension buildup(lb)
0515T	2.3	1.58	3.20	5.0	15.0	7.0
1015T	4.5	1.58	5.50	10.0	15.0	12.0
1515T	6.8	4.58	8.64	15.0	15.0	19.0
1515TR	6.8	4.58	8.64	15.0	15.0	19.0

1515T Hanging Torque Reel

1515TR Rigid Mount Torque Reel

STATIC DISCHARGE GROUNDING REELS

ELIMINATES STATIC BUILD-UP. SPRING-OPERATED, AUTOMATIC RETRIEVAL.

- Spring operated, automatic retrieve reel
- Stranded steel aircraft cable is 3/32".
- Provides light, constant spring tension on the cable
- 100 ampere ground clamp
- Rubber cable stop
- 2050Y Reel with a "Y" bridle allows two ground connections at the same time, providing maximum efficiency.

Static Discharge Grounding Reels

Model	Cable length		Net weight		Resistance ohms
	m	ft	kg	lb	
2050	15.24	50	5.44	12	2.0
2050Y*	15.24	50	5.44	12	2.0
2050NC	15.24	50	5.44	12	2.0
2050CT	15.24	50	5.44	12	2.0
2050NCCT	15.24	50	5.44	12	2.0

"NC" = nylon coated cable 3/32"

"CT" = constant tension models.

*2050 Reel with "Y" Bridle (30 ft. payout then 20 ft. bridle for each branch, with clamps) allows simultaneous grounding at two points.

OVERHANG CABLE 0.9 - 10.6 Meters

3.0 - 35.0 Feet

Overhang Cable for RB, RF, BF, F & FLRC (Fixed length)

model	Length (m)	Length (ft)
CBOF009	0.9	3.0
CBOF015	1.5	5.0
CBOF030	3.0	10.0
CBOF045	4.5	15.0
CBOF060	6.0	20.0
CBOF076	7.6	25.0
CBOF091	9.1	30.0
CBOF106	10.6	35.0

- Provides additional length by attaching to retractable cable supplied with balancer
- Allows balancer to be mounted at a higher elevation
- ★ DOES NOT RETRACT INTO HOUSING

Overhang Cable for EA, EB, JA, KA & LA (Adjustable w/ clamps)

model	Length (m)	Length (ft)
CBOL020	2.0	6.5
CBOL050	5.0	16.4
CBOL100	10.0	32.8

Overhang Cable

SECONDARY SUPPORT CHAINS AND CABLE

FOR BALANCERS AND TORQUE REELS

- Provides additional safety by preventing balancer from accidentally falling due to failure of the support structure
- Chain or cable attaches to the balancer and to a support other than the balancer support

The length of the chain or cable should be kept to an absolute minimum and may need to be adjusted.

Trolley Mount

Stationary Mount

*Support Chain**

model	Length (mm)	Length (in)	Description
SSPLC	483	19	for EA, JA, KA & LA
SSPEC	508	20	for EB, F, FLRC & 1515T

*Support Wire Cable**

model	Length (mm)	Length (in)	Description
SSPBR	508	20	for RF & BF
SSPRR	388	15.25	for RB

*To omit support device from balancer, add suffix "D" to model number. Suffixes are added in alphabetical order. A price reduction may apply.

SPECIAL CABLE HOOK OPTIONS

FOR E, JA, KA AND LA

Field Kits / Replacement Parts for Balancers

Upper Hook Assembly

Model	Description
UHKEB	Bullard Type for EA
UHKKB	Bullard Type for JA, KA
UHKLB	Bullard Type for LA (2.1m/7ft)
UHK9B	Bullard Type for LA (2.7m/9ft)
UHKES	Shackle Type for EA
UHKKS	Shackle Type for JA, KA
UHKLS	Shackle Type for LA (2.1m/7ft)
UHK9S	Shackle Type for LA (2.7m/9ft)

Cable & Lower Hook

Model	Description
CBAEB	Bullard Type for EA
CBAEBL	Bullard Type for EL
CBALB7	Bullard Type for JA, KA, LA (2.1m/7ft)
CBALB9	Bullard Type for JA, KA, LA (2.7m/9ft)
CBAET	Tool Clip Type for EA
CBAETL	Tool Clip Type for EL
CBALT7	Tool Clip Type for JA, KA, LA (2.1m/7ft)
CBALT9	Tool Clip Type for JA, KA, LA (2.7m/9ft)

- Bullard hooks and clamp and insulator options are available to upgrade standard hook configurations.
- EA, EB, JA, KA and LA come standard with upper shackle and tool clip.
- All Bullard hook options have a locking gate

Hook Upgrade

To upgrade hooks, find desired option in chart below, and add suffixes to model number in alphabetical order. Example: 80JABU = balancer with upper Bullard and bottom Bullard Hooks.

Upper Hook Assembly	 Upper Shackle				 Upper Mercedes Hook	 Upper Bullard Hook
Bottom Hook Assembly	 Bottom Tool Clip	 Bottom Bullard Hook	 Bottom Clamps	 Bottom Insulator		
EA	Standard	B	C	I	M	U
EB	Standard	B		I	M	U
JA, KA	Standard	B	C	I	M	U
LA	Standard	B	C	I	M	U

Shackle Hook

Bullard Hook

BT3	0.0 - 136.0 kg
0.0 - 300.0 lb	TROLLEYS

- Quiet operation & long-lasting performance, with polyurethane wheels on either 4" I-beam or 3¼" patented rail
- Insulated trolleys are safeguarded from electrical charges, with suspended load electrically insulated from the support beam above

BT5	0.0 - 227.0 kg
0.0 - 500.0 lb	TROLLEYS

- High-speed design with steel wheels & presealed high-speed bearings
- Available for 4" I-beam or 3¼" patented rail

Model	Description	Wheels
BT34I	Trolley for 4" I-Beam	Polyurethane
BT3PR	Trolley for 3¼" Patented Rail	Polyurethane
BT34IW	Insulated Trolley for 4" I-Beam	Polyurethane
BT3PRW	Insulated Trolley for 3¼" Patented Rail	Polyurethane
BT54I	Trolley for 4" I-Beam	Steel
BT5PR	Trolley for 3¼" Patented Rail	Steel

See page 23 for dimensions

BALANCER TROLLEY FOR USE WITH OVERHEAD TRACK

- 0541100012 is compatible with 5400 tracks and 0521100012 is compatible with 5200 tracks
- 5400- max. 22 Kg (50lb) capacity
5200- max. 13 Kg (30lb) capacity

See page 22-23 for track selection.

HOSE AND CABLE SUPPORTS FOR 12.5mm - 32mm (0.49" - 1.25") DIAMETER

- Increases worker safety by keeping hoses/cables out of the way
- Increases hose/cable life and efficiency
- Allows easy access to hose/cable when needed
- Works well with Aero-Motive® balancers and torque reels featuring ratchet lock

Model	Hose / Cable Diameter
6102000000	12.5mm - 23mm (0.49"-0.91")
6102100000	23mm - 32mm (0.91"-1.25")

Hose support adapts to GM31, RB, BF and FLRC Balancer, and No. 1515T Torque Reel only.

BALANCER SERVICE KITS

Workstation Assemblies

Woodhead offers all the workstation assemblies and components you need. With Aero-Motive® workstation assemblies, you can optimize your use of space through bench, wall, or floor-mounted arms, as well as extended runways that increase horizontal space options. Pivoting fixture and trolley mounts provide quick access to tools and greater freedom of movement.

Layout Guidelines

- What kind of work flow occurs in the area in question? Is it a straight-line application? An X-Y axis? A radius application? In this catalog, we have indicated which workstations and components are suitable for each application.
- Consider the type of tool used and how much of the work area the tool must be able to reach.
- System total suspended weight should not exceed 50 pounds for 5400 products, 30 pounds for 5200. Total suspended weight includes tool balancer, suspended tool, balancer trolley and cable or hose.
- Maximum unsupported horizontal track length is 6 feet. When mounting horizontal lengths of track, it is essential that any one unsupported length of track not exceed this length.
- Maximum unsupported vertical track length is 6 feet. When using vertical lengths of track, it is essential that any one unsupported length of track not exceed this length. Unsupported vertical lengths of track that exceed 6 feet in height should be mounted to walls or work benches using a Model No. 5400-SC support clamp.

5200

WORKSTATION ASSEMBLIES

Wall-Mounted 180° Swinging Jib

Model No. 0525200034
Max. Capacity 30 lbs. (13.6 Kg)
Total Length 3 ft. (0.9 m)
With Trolley and End Clamp
.49" - 1.25" O.D.

Floor/Bench-Mounted Swinging Jib

Model No. 0526200034
Max. Capacity 30 lbs. (13.6 Kg)
Total Length 3 ft. (0.9 m)
With Trolley and End Clamp
.49" - 1.25" O.D.
(Must be used in conjunction with bench)

Wall-Mounted Fixed Jib

Model No. 0525100034
Max. Capacity 30 lbs. (13.6 Kg)
Total Length 3 ft. (0.9 m)
With Trolley and End Clamp
.49" - 1.25" O.D.

5400

WORKSTATION ASSEMBLIES

Floor-Mounted Runway Extension

Model No. 0544100069

Includes all necessary hardware — just add track to extend the system.

Straight line

Triple Floor-Mounted Runway

Model No. 0544100012

Max. Capacity 50 lbs. (22.7 Kg)
Total Length 12 ft. (3.7m)

Bench and Cars not included

Straight line

Wall-Mounted 180° Swinging Jib

Model No. 0545200064

Max. Capacity 50 lbs. (22.7 Kg)
Total Length 6 ft. (1.8m)

With Trolley, Intermediate Car and End Clamp

.49" - 1.25" O.D.

Wall-Mounted Fixed Jib

Model No. 0545100064

Max. Capacity 50 lbs. (22.7 Kg)
Total Length 6 ft. (1.8m)

With Trolley, Intermediate Car and End Clamp

.49" - 1.25" O.D.

Straight line

Wall-Mounted Runway Extension

Model No. 0544300069

Includes all necessary hardware; just add track to extend the system.

Straight line

Double Floor-Mounted Runway

Model No. 0544100064

Max. Capacity 50 lbs. (22.7 Kg)
Total Length 6 ft. (1.8m)

With Trolley, Intermediate Cars and End Clamp

.49" - 1.25" O.D.

Straight line

Double Wall-Mounted Runway

Model No. 0544300064

Max. Capacity 50 lbs. (22.7 Kg)
Total Length 6 ft. (1.8m)

With Trolley, Intermediate Car and End Clamp

.49" - 1.25" O.D.

Straight line

Floor-Mounted Swinging Jib

Model No. 0546200064

Max. Capacity = 50 lbs. (22.7 Kg)
Total Length = 6 ft. (1.8m)

With Trolley, Intermediate Cars and End Clamp

.49" - 1.25" O.D.

Cross-Tracker System

Model No. 54WB6
52WB6

Now available to cover X-Y axis. Consult factory.

Max. Capacity 50 lbs. (22.7 Kg) at 6 ft. span

Компания «ЭлектроПласт» предлагает заключение долгосрочных отношений при поставках импортных электронных компонентов на взаимовыгодных условиях!

Наши преимущества:

- Оперативные поставки широкого спектра электронных компонентов отечественного и импортного производства напрямую от производителей и с крупнейших мировых складов;
- Поставка более 17-ти миллионов наименований электронных компонентов;
- Поставка сложных, дефицитных, либо снятых с производства позиций;
- Оперативные сроки поставки под заказ (от 5 рабочих дней);
- Экспресс доставка в любую точку России;
- Техническая поддержка проекта, помощь в подборе аналогов, поставка прототипов;
- Система менеджмента качества сертифицирована по Международному стандарту ISO 9001;
- Лицензия ФСБ на осуществление работ с использованием сведений, составляющих государственную тайну;
- Поставка специализированных компонентов (Xilinx, Altera, Analog Devices, Intersil, Interpoint, Microsemi, Aeroflex, Peregrine, Syfer, Eurofarad, Texas Instrument, Miteq, Cobham, E2V, MA-COM, Hittite, Mini-Circuits, General Dynamics и др.);

Помимо этого, одним из направлений компании «ЭлектроПласт» является направление «Источники питания». Мы предлагаем Вам помощь Конструкторского отдела:

- Подбор оптимального решения, техническое обоснование при выборе компонента;
- Подбор аналогов;
- Консультации по применению компонента;
- Поставка образцов и прототипов;
- Техническая поддержка проекта;
- Защита от снятия компонента с производства.
