Description

The U460-002-2AM-C USB 3.1 Gen 1 USB-C Portable Hub/Adapter expands the potential of your tablet, laptop, Chromebook, MacBook, smartphone or PC's USB-C or Thunderbolt 3 port. It's ideal for adding a thumb drive and other USB peripherals, powering and charging a PD Charging-compliant mobile device, and accessing data on a memory card—all at the same time.

The plug-and-play U460-002-2AM-C requires no software, drivers or external power. Connect the reversible USB-C plug to your source device's USB-C or Thunderbolt 3 port. The fumble-free USB-C plug connects in either direction to ensure fast, easy connection every time.

The dual USB-A ports accept USB peripherals, such as a flash drive, mouse, keyboard or printer. One of them provides up to 1.5A for charging smartphones and other mobile devices. Both ports support fast USB 3.1 Gen 1 data transfer rates up to 5 Gbps and are backward compatible with previous USB generations, so you can continue using older peripherals while getting high-speed performance from new devices.

The USB-C Power Delivery (PD) port provides power and charging to the PD Charging-compliant device (such as a MacBook or Chromebook) connected to the U460-002-2AM-C. Connect the device's AC wall charger to the USB-C PD port, which supports power input up to 20V 3A (60W).

The memory card slots support microSD, SD, SDHC, SDXC and MMC cards for convenient access to digital photos, camcorder videos, smartphone data and other essential files.
