

## Micro-D Metal Shell MWDM Back-To-Back Unshielded Cable Assemblies

B

**Save Time and Money With Back-To-Back Cables**– These Micro-D connectors feature crimp wire terminations and epoxy encapsulation. The installed cost is lower than terminating solder cup connectors.

**100% Certified**– all back-to-back assemblies are 100% checked for continuity, resistance, voltage and insulation resistance.

**Hardware Note**– if jackposts are required on one end and jackscrews on the other, use hardware designator “B” (no hardware installed), and order hardware kits separately.
